Angel Medicine Doreen Virtue, 2005-08-01 When Doreen Virtue visited Santorini Island in Greece recently, she was contacted by a powerful group of angels calling themselves the angels of Atlantis. Doreen was then taken on an amazing spiritual adventure, where she uncovered the ancient secrets of the healing temples of the lost civilizations of Atlantis. Doreen found that her previous healing work with the angels, as well as the thousands of case studies of angelic healing that she'd amassed over the years, dovetailed perfectly with the messages from the angels of Atlantis. Part spiritual adventure story and part reference book, Angel Medicine is a three-part work that relates the exciting story of Doreen's recovery of memories of Atlantean healing methods along with messages from the Egyptian and Greek prophet and deity Hermes and the angels. The second and third parts of the book reveal the scientific studies, case studies, methods, and charts supporting the importance of love and light in healing. Whether you want to heal yourself or someone else, you're sure to gain additional faith and understanding from reading Angel Medicine.

Guided Meditation Script Barclay J Fisher,2020-02-12 If you choose to use one or more of these scripts to facilitate a guided meditation journey for others, please preface the trip for them by reminding them that no longer all people see matters for the duration of a guided meditation. This is very important, because our purpose is for them to go a bit closer to their soul during the journey, now not to supply them one more cause to consider they've failed. In the years that I've been using these guided meditations, many human beings have shared experiences with me where they weren't capable of seeing anything, but they did hear something. Or they felt the environment with imaginary kinesthetic touch. Or they just had a deep sense of internal understanding about something all through the internal journey. All of this is perfectly okay! And as soon as in a while, any person doesn't see, hear, sense, or think about anything. That's flawlessly okay, as well. Certain internal journeys simply don't fit with some people. And sometimes, a guided meditation desires to be listened to and experienced more than once to sufficiently loosen up and open up a person's inner world. Also, at the cease of facilitating one of these Inner Journeys, please allow participants ample time to manner their experience. You might favor to supply them several minutes to write in their journals, or you may prefer to invite small group voluntary sharing. It also may help to make yourself available afterward for a personal conversation about their journey within the meditation. It's surely essential that every man or woman has a way to specific and combine the guided meditation experience. For some people, this capacity verbal sharing with others; for others, this potential time to absorb it quietly and in solitude, into their very own reality. Each of these Magical Inner Journeys was given to me as a direct present from Spirit. I hope that you revel in experiencing them and facilitating them as a whole lot as I have. And A Word About Inner Voices Our internal voices are additionally regarded as our internal parts or persona aspects. I, in my view, like referring to mine as a Committee. I sincerely think of a huge convention desk in an office building, and everybody sitting around it are individual parts of ME that have something to say about what I do and who I am. You may want to also suppose of it as your inner family, and image them sitting around a huge dining room table. And of course, every family member has something to say, an opinion to give.

Mindfulness Mark Williams,Danny Penman,2012-11-13 The life-changing international bestseller reveals a set of simple yet powerful mindfulness practices that you can incorporate into daily life to help break the cycle of anxiety, stress, unhappiness, and exhaustion. Mindfulness promotes the kind of happiness and peace that gets into your bones. It seeps into everything you do and helps you meet the worst that life throws at you with new courage. Based on Mindfulness-Based Cognitive Therapy (MBCT), the book revolves around a straightforward form of mindfulness meditation which takes just a few minutes a day for the full benefits to be revealed. More importantly it also works for people who are not depressed but who are struggling to keep up with the constant demands of the modern world. MBCT was developed by the book's author, Oxford professor Mark Williams, and his colleagues at the Universities of Cambridge and Toronto. By investing just 10 to 20 minutes each day, you can learn the simple mindfulness meditations at the heart of MBCT and fully reap their benefits. The book includes links to audio meditations to help guide you through the process. You'll be surprised by how quickly these techniques will have you enjoying life again.
