Matiatia Paul Monin,2012 Matiatia Bay is the gateway to Waiheke Island. Lying beside the island's best natural harbour, it has been the landing place for Maori waka, settler barges, tourist yachts and commuter ferries today. This beautiful heritage site is threatened by development - a marina is proposed, and intensive parking. Establishing the significance of the past, historian Paul Monin tells Matiatia's story from early Maori occupation to the present day. Here in a fertile bay in the magnificent setting of the Hauraki Gulf is a microcosm of New Zealand's history. Charmingly written, MATIATIA: GATEWAY TO WAIHEKE includes a rich array of photographs and maps.

Globalization and the Gulf John W. Fox,Nada Mourtada-Sabbah,Mohammed Al Mutawa,2006-09-27 For centuries, the Arabian Gulf has been a crossroads where seafaring people and Bedouins alike travelled great distances transacting business. Events of the past few years, both good and bad, have directed the world's attention to the Arabian Peninsula, where a rich cultural tradition is rapidly incorporating the latest innovations from around the world. This is the process of globalization. New economies create enormous potential, but it will require great care for the people of the region to steer through a period of profound change. Political and economic interests intent on maintaining the flow of petroleum products on one hand, and people in the Gulf region who assess their won interests from quite a different perspective, on the other, exert pressures from conflicting directions.

Reconciling these interests in a time of rapid globalization poses enormous challenges. This timely volume brings together the work of scholars from both the Middle East and the West who have the expertise to evaluate the interaction of new ideas, new technologies and new economies. Brought together by the American University of Sharjah and the Sociological Association of the UAE, the contributors reflect on both the process of globalism and on the traditions of Gulf society and culture, offering views on how these trends interact within the global system.

Asian Migrant Workers in the Arab Gulf States Masako Ishii, Naomi Hosoda, Masaki Matsuo, Koji Horinuki, 2019-11-26 *Asian Migrant Workers in the Arab Gulf States* (edited by Masako Ishii, et al.) examines how nationals and migrants construct new relationships in the segregated socioeconomic spaces of the region

Global Gentrifications Lees, Loretta, Shin, Hyun Bang, Ernesto López Morales, 2015-01-26 This comprehensive book uses a rich array of case studies from cities in Asia, Latin America, Africa, Southern Europe, and beyond to highlight the intensifying global struggle over urban space and underline gentrification as a growing and important battleground in the contemporary world.

International Tourism Development and the Gulf Cooperation Council States Marcus L. Stephenson, Ala Al-Hamarneh, 2017-07-14 This book examines the challenges facing the development of tourism in the six member states of the

Gulf Cooperation Council (GCC): Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates (UAE). This region, which largely comprises the Arabian Peninsula, possesses some of the fastest growing economies in the world and is remarkably unique. It shares similar associations and affinities: tribal histories, royal kinship, political associations, Bedu cultural roots, Islamic heritage, rapid urbanization, oil wealth, rentier dynamics, state capitalist structures, migrant labour, economic diversification policies and institutional restructuring. Therefore, this volume takes the study of tourism away from its normative unit of analysis, where tourism in the region is being examined within the context of the Middle East and the wider Islamic and Arab world, towards an enquiry focusing on a specific geo-political territory and socially defined region. Although international tourism development in the region embodies a range of challenges, complexities and conflicts, which are deeply contextualized in this volume, the approach overall does not endorse the normative 'Gulf bashing' position that has predominated within the critical enquiries in the region. It presents a forward-looking and realistic assessment of international tourism development, examining development potentialities and constructive ways forward for GCC states and the region as a whole. This edited volume provides a real attempt to examine critically ways in which tourism and its development intersect with the socio-cultural, economic, political, environmental and industrial change that is taking place in the

region. By doing so, the book provides a theoretically engaged analysis of the social transformations and discourses that shape our contemporary understanding of tourism development within the GCC region. Moreover, it deciphers tourism development's role within the context of the GCC states undergoing rapid transformation, urbanization, ultra-modernization, internationalization and globalization. In addition to state-specific illustrations and destination case studies, the work provides insights into relatable themes associated with international tourism development in the region, such as tourism's relationship with religion, heritage and identity, the environment and sustainability, mobility and cross-border movements, the transport industry, image production and destination branding, mega-development and political stability and instability. The book combines theory with diverse case study illustrations, drawing on disciplinary knowledge from such fields as sociology, political economy and social geography. This timely and original contribution is essential reading for students, researchers and academics in the field of tourism studies and related subject areas, along with those who have regional interests in Middle East studies, including Gulf and Arabian Peninsula studies.

Women in Civil Society W. Krause, 2008-10-13 *Women in Civil Society: The State, Islamism and Networking in the UAE* investigates how women in an Arab Gulf country prove to play a key role in how civil society takes shape with and against one another through case studies on women in state-run

organizations, Islamic organizations, and networks.

The International Politics of the Persian Gulf Mehran Kamrava, 2011-06-29

For much of the contemporary history of the Middle East, the Persian Gulf has stood at the center of the region's strategic significance. At the same time, the Gulf has been wracked by political instability and tension. As far back as the late nineteenth and early twentieth centuries, Britain zeroed in on the Persian Gulf as a critical passageway to its crown jewel, India, and entered into protectorate agreements with local ruling families, thus bestowing on them international legitimacy and, eventually, the resources and support necessary to ascend to kingships. Today, the region is undergoing profound changes that range from rapid economic and infrastructural development to tumultuous social and cultural transformations. Far from eroding the area's political significance, these changes have only accentuated rivalries and tensions and have brought to the forefront new challenges to international security and stability. Together, the essays in this volume present a comprehensive, detailed, and accessible account of the international politics of the region. Focusing on the key factors that give the Persian Gulf its strategic significance, contributors look at the influence of vast deposits of oil and natural gas on international politics, the impact of the competing centers of power of Iran and Saudi Arabia, the nature of relationships among countries within the Persian Gulf, and the evolving interaction between Islam and politics. Throughout the collection,

issues of internal and international security are shown to be central. Drawing on the comprehensive knowledge and experience of experts in the region, *The International Politics of the Persian Gulf* shines a bright light on this area, offering insights and thoughtful analyses on the critical importance of this troubled region to global politics.

Routledge Handbook of Persian Gulf Politics Mehran Kamrava, 2020-05-31 The Routledge Handbook of Persian Gulf Politics provides a comprehensive and up-to-date analysis of Persian Gulf politics, history, economics, and society. The volume begins its examination of Ottoman rule in the Arabian Peninsula, exploring other dimensions of the region's history up until and after independence in the 1960s and 1970s. Featuring scholars from a range of disciplines, the book demonstrates how the Persian Gulf's current, complex politics is a product of interwoven dynamics rooted in historical developments and memories, profound social, cultural, and economic changes underway since the 1980s and the 1990s, and inter-state and international relations among both regional actors and between them and the rest of the world. The book comprises a total of 36 individual chapters divided into the following six sections: Historical Context Society and Culture Economic Development Domestic Politics Regional Security Dynamics The Persian Gulf and the World Examining the Persian Gulf's increasing importance in regional politics, diplomacy, economics, and security issues, the volume is a valuable resource for scholars, students, and policy makers interested in political

science, history, Gulf studies, and the Middle East.

Monetary Union in the Gulf Emilie Rutledge, 2008-07-30 At a time of momentous shifts in the balance of world economic forces epitomized by the current oil price boom, the weakening US dollar and the global credit crunch; the meteoric rise of the Arabian peninsula cannot be understated. Neither, therefore, can their planned monetary union. As key suppliers of the world's oil and gas the Gulf states have accumulated vast wealth: taken together their sovereign wealth funds are by far the world's largest and the influence of these funds is becoming increasingly apparent. This book provides a thorough analysis of the scheduled 2010 monetary union. Its findings are based on both primary research and a detailed empirical analysis of the region's economies spanning 1980-2006. It assesses the region against Optimal Currency Area criteria, the European Criteria, highlights outstanding preparations and considers the underlying economic and political factors that may aid or indeed delay the launch date. Critically this book argues that the present dollar-peg exchange rate regimes are no longer optimal. The future Gulf dinar is likely to seek a more independent path. The ramifications of this - a potential Islamic anchor currency and an alternative oil-invoicing currency - are also considered in some detail.

Boom Amid Gloom N. Janardhan, 2011 Five years of oil boom between 2003 and 2008 ushered an unparalleled sense of hope in the countries of the Gulf Cooperation Council (GCC). The prevailing mood was that it would be possible

to develop and implement visions of transformative and far-reaching change. This book explores issues set to shape the future of GCC countries in coming decades.

Tourist Destination Images and Local Culture Verena Schwaighofer, 2013-11-26
An authentic, unique and memorable destination image is of crucial importance to be competitive in the long-term. Verena Schwaighofer analyses the currently transferred image of the United Arab Emirates as a tourist destination and to what extent the traditional Arabian culture is integrated into the image strategies of image developers in this country. First of all, a detailed theoretical overview referring to various image types, the current image transfer including critical topics related to the religion of Islam, women's role in society, behaviour, body language and dress code and the open-mindedness of the United Arab Emirates regarding local traditions related to the religion of Islam, is given. In the empirical part, a mixed method, including a qualitative media analysis (focusing on print and new media of image developers as well as newspaper articles published by journalists in the United Arab Emirates and the surrounding countries) and qualitative expert interviews are selected as appropriate research methodology.

The Gulf Crisis Khalid Al-Jaber, Sigurd Neubauer, 2018-10-31 The Gulf Crisis marks a clear dividing line in the GCC's history reflecting a change in the

political, economic, security, social and media realities of the intra-GCC relationship. The question on everyone's mind: will this Crisis be the final nail in the coffin of the Gulf Cooperation Council after nearly four decades?

Media Law in the United Arab Emirates Matt J. Duffy, 2018-03-27 Derived from the renowned multi-volume International Encyclopaedia of Laws, this analysis of media law in the United Arab Emirates surveys the massively altered and enlarged legal landscape traditionally encompassed in laws pertaining to freedom of expression and regulation of communications. Everywhere, a shift from mass media to mass self-communication has put enormous pressure on traditional law models. An introduction describing the main actors and salient aspects of media markets is followed by in-depth analyses of print media, radio and television broadcasting, the Internet, commercial communications, political advertising, concentration in media markets, and media regulation. Among the topics that arise for discussion are privacy, cultural policy, protection of minors, competition policy, access to digital gateways, protection of journalists' sources, standardization and interoperability, and liability of intermediaries. Relevant case law is considered throughout, as are various ethical codes. A clear, comprehensive overview of media legislation, case law, and doctrine, presented from the practitioner's point of view, this book is a valuable time-saving resource for all concerned with media and communication freedom. Lawyers representing parties with interests in the United Arab Emirates will welcome this very

useful guide, and academics and researchers will appreciate its value in the study of comparative media law.

South Asian Migration to Gulf Countries Prakash C. Jain, Ginu Zacharia Oommen, 2017-09-19 South Asians constitute the largest expatriate population in the Gulf Cooperation Council (GCC) countries. Their contribution in the socio-economic, technological and educational development of GCC nations is immense. This book offers one of the first systematic analysis of South Asia–Gulf migration dynamics and its varied impact on countries such as India, Nepal, Bangladesh, Pakistan and Sri Lanka. It deals with public policy, socio-economic mobility, remittance policy, global financial crisis and labour issues. Bringing together essays from contributors from around the world, the volume reveals not only the multi-dimensionality of the migration process between the two regions, but also the diversity and the underlying unity of the South Asian countries. This book will be invaluable to scholars and students of migration studies, development studies and sociology as well as policy-makers, administrators, academics, and non-governmental organisations in the field.

The Sociology of Islam Tugrul Keskin, 2012-01-06 Sociological scholarship argues that it would be difficult to understand Islam without first understanding the theoretical and practical underpinnings of the social structure of Muslim societies which are embedded in the relationship between religion, the economy, politics and society.

Indian Migration to the Gulf Anisur Rahman, Sameer Babu M, Ansari PA, 2023-03-31 This book explores issues of rights, issues, and challenges faced by Indian migrant workers in the GCC countries. It focuses on the struggle of migrants in the state of origin and destination states and how the process of migration shapes the identity and existence of migrant workers. The essays in the volume focus on policy, rights, issues, and challenges faced by migrants as well as the long-term challenges posed by the COVID-19 pandemic. With contributions from academics and policymakers, this book will be of interest to scholars and researchers of migration and diaspora studies, public policy, and South Asian Studies.

The UAE after the Arab Spring Khalifa Al-Suwaidi, 2023-03-23 Why did the Gulf monarchies – and the UAE in particular - avoid the upheavals and challenges of the Arab uprisings? This book examines how the UAE survived the waves of regional unrest. It departs from attributing regime survival to rentier state theory and instead offers a more nuanced approach to understanding the pillars of regime legitimacy upon which the UAE now rests. In doing so, the book sheds light on the transformation of the UAE from a quietist state, which relied almost entirely upon an overseas security guarantor, to an assertive regional power in its own right. Written by an Emirati author who understands the internal dynamics of the country, the book examines the state's proactive foreign policy and the changing domestic and regional environment influencing its decisions. The book argues that the UAE

leadership encouraged a new national identity to evolve amid the pressures of modernity, particularly at a time when young Emiratis had access to information beyond government control via social media. This is also part of its shift away from a country based on a rentier economy to a situation where the citizens take more initiative, learn more skills, and increasingly enter the private sector to help the country prosper. This has given rise to a new Emirati identity that is politically conservative, economically neo-liberal and socially liberal. In providing an analysis of the policies of the UAE leadership before and after the Arab Spring, this book is a vital contribution to the literature on Emirati domestic and foreign policy and points to where the country might be headed.

China and the Persian Gulf Dr. Mordechai Chaziza, 2019-11-14 Since China announced the Belt and Road Initiative (BRI) in 2013, the Gulf States have regarded it as a means for diversifying their national economies in order to reduce dependence on oil revenues and to achieve their national development strategy. The Persian Gulf region has a significant role in the successful implementation of BRI. Emerging strategic, diplomatic and financial partnerships will enable China to control the flow of its exports to world markets. The BRI has five major goals: Policy coordination, facilities connectivity, free trade, financial integration, and people-to-people bonds. Facilities connectivity, which focuses on transportation and energy infrastructure, is the initiatives priority. The integration between the

national development plans of Gulf monarchies, the economic reconstruction plans of Iraq and Iran, and the new economic goals of Saudi Arabia, with Chinas Belt and Road vision have converged to bring forward opportunities. The implementation of the new Silk Road strategy will unleash a regional infrastructure boom by connecting China with Asia, Europe, and Africa by land and sea, boosting renminbi internationalization. Nevertheless, there are challenges that could complicate the envisaged bilateral partnerships. Saudi Arabia: The strategic synergy between the BRI and Saudi Vision 2030 has forged a joint economic development path, but external conflicts (Yemen, Iran) could derail plans. Iran: While Tehran has a special geographical status in West Asia, Washingtons decision to withdraw from the Iran nuclear agreement might create Sino-Iranian trade barriers. The UAE: In July 2018 bilateral relations were elevated to a comprehensive strategic partnership. The synergy between the BRI and UAE Vision 2021 is multifaceted trade, energy, infrastructure and logistics, financial services, military ties, tourism and cultural cooperation but very complex. Most of the Gulf States are governed by monarchies, are at the primary stage of industrialization, and are susceptible to US and European influence. The challenges Chinas ascendancy poses for the US, and the inevitable geopolitical fight back, in conjunction with Gulf regional turbulence, mean that the BRI project will face substantive challenges in the years ahead.
