**Disturbing Remains** Michael S. Roth, Charles G. Salas, 2001 In *Disturbing Remains*, ten extraordinary scholars focus on the remembrance

and representation of traumatic historical events in the twentieth century. The volume opens with essays by David William Cohen, Veena Das, and Philip Gourevitch. Their reflections on the narratives framing Robert Ouko's death in Kenya, Sikh-Hindu violence in India around the time of Indira Gandhi's assassination, and the 1994 genocide of Tutsis by Hutus in Rwanda offer fresh insights into the genesis and aftermath of these tragedies. The next four essays explore the expression of societal disaster in works of art and ritual. Lenin's image, Pablo Picasso's Guernica, balsa figurines of whites made by the Kuna of Panama, and Chinese fertility statuettes after Mao Zedong's Great Leap Forward are the subjects taken up by Leah Dickerman, Carlo Ginzburg, Carlo Severi, and Jun Jing. Disturbing Remains closes with three essays about the influence of the dead on the construction of shared identity. István Rév looks at how Hungarians have dealt with the 1956 revolution and its executed leader, and Jörn Rüsen and Saul Friedländer contemplate the public memory of the Holocaust in Germany and worldwide.

Asia represents some of the most beautiful and spectacular building achievements of the region. This study provides a holistic approach to the subject, suggesting common links and regional contrasts between types of water structures and their contexts, with a comprehensive interpretation of the history and meaning of water architecture in India, Nepal and Sri Lanka. Five types of water structures are identified. Their development is traced from simple to more complex forms, considering how these accommodate secular and religious functions, and present expressions of sacred and royal authority. This publication is the first reference work on the subject. Many of the structures discussed and illustrated here have never been published before. Its comprehensive approach will have a wide relevance for other South Asian disciplines.

**The Sikh View on Happiness** Kamala Elizabeth Nayar, Jaswinder Singh Sandhu, 2020-04-16 Sukhmani (The Pearl of Happiness) is a popular Sikh text by Guru Arjan, which inculcates the Sikh religious ethos and philosophical perspective on wellbeing and happiness. The book features a new translation of this celebrated Sikh text and provides the first in-depth analysis of it. The Sikh View on Happiness begins with an overview of the nature of suffering and the attainment of happiness in Indian religions. This provides the foundation for the examination of the historical, social, and religious context of the Sukhmani and its contribution to the development of the Sikh

tradition. In addition to exploring the spiritual teachings of the Sukhmani, Nayar and Sandhu draw upon the Sikh understanding of the mind, illness, and wellbeing to both introduce key Sikh psychological concepts and illustrate the practical application of traditional healing practices in the contemporary context. In doing so, they highlight the overlap of the teachings in the Sukhmani with concepts and themes found in Western psychotherapy, such as mindfulness, meaningful living, and resilience.

Jewellery, gemstones and textiles, weapons and armour, and paintings and contemporary photographs combine in an attempt to provide a comprehensive picture of Sikh art and culture. The religion of the Sikhs is also explained through paintings, calligraphy and the arts of the book.

Dictionary of Oriental Philosophy Ruth

Reyna, 1993 Illustrations: 31 Figures Description: The present work is a masterful compilation which, from its nature and scope, and from the method followed in its preparation, exhibits that it is not merely a dictionary, but it is in fact more

than that. Arranged alphabetically, this dictionary has been conceived on a large scale and written by a deft hand. The work is divided into two volumes. Volume I deals with India and the Middle East and contains 2250 titles, and volume II deals with China and Japan and has 1500 titles, and together they cover the vast field of Oriental philosophy, encompassing all human experiences and disciplines. Captured in the pages of this monumental work are the lives of the prophets, social and religious reformers, Asian philosophies and spiritual disciplines of the living faiths of the east. The dictionary is destined to be welcomed as an exhaustive work on comparative religion also, inasmuch as it covers the whole ground of Oriental philosophy and its tangents. The entire volume is a combination of scholarly knowledge and spiritual awareness; their importance therefore is both to scholars and seekers of truth. There is perhaps no other work on record that accomplishes both ends-the propounding of the custom of the peoples of the Orient and an insight into their spiritual ideals both ancient and modern. All in all, the Dictionary of Oriental Philosophy may be judged to have been written by a hand of master dialectician with perception and exactitude.
