It is the fate of genius to make discoveries by which other people profit why, who have we here? sure it can't be! yes it is what my dear Master, Sir Palamede! **Haunted Tower** Tyree Judy,2021-01-12 Ellie and Stacey's adventures Ellie and Stacey are out of town in this episode. Called in to investigate an old skyscraper situated in Atlanta, with offices and shops on twelve floors then with five floors given over to apartments. The building has become neglected with an oppressive atmosphere which affects everybody who lives and works there. The Penneford family owns the building and have lived on the top two floors since their ancestor built the building in the late 1800s. Now there's only a great niece in her late sixties and a great, great nephew his wife, twelve year old son and ten year old daughter left. Enter Ellie, Mr Pennefords wife is convinced the building is haunted and she's right but it's a haunting different from any Ellie and Stacey have investigated so far. First off they have no clues as to the identity of the ghosts or how many there may be (and there seem to be a lot) nor what is causing them to manifest and why they focus on the family. Ellie has never had so much interaction with the ghosts so fast normally they have to be coaxed or drawn out, not here, from the moment they step in the building the feelings of oppression and foreboding warm them this is not going to be an easy catch and release and they will need all their skill to come away unharmed with their clients safe, if that's possible. This is a multiple haunting on a scale Ellie is unused to and a ghost who may just prove to be too powerful to be stopped.

**Gothic Antiquity** Dale Townshend, 2019-09-26 *Gothic Antiquity: History, Romance, and the Architectural Imagination, 1760-1840* provides the first sustained scholarly account of the relationship between Gothic architecture and Gothic literature (fiction; poetry; drama) in the late eighteenth and early nineteenth centuries. Although the relationship between literature and architecture is a topic that has long preoccupied scholars of the literary Gothic, there remains, to date, no monograph-length study of the intriguing and complex interactions between these two aesthetic forms. Equally, Gothic literature has received only the most cursory of treatments in

art-historical accounts of the early Gothic Revival in architecture, interiors, and design. In addressing this gap in contemporary scholarship, Gothic Antiquity seeks to situate Gothic writing in relation to the Gothic-architectural theories, aesthetics, and practices with which it was contemporary, providing closely historicized readings of a wide selection of canonical and lesser-known texts and writers. Correspondingly, it shows how these architectural debates responded to, and were to a certain extent shaped by, what we have since come to identify as the literary Gothic mode. In both its 'survivalist' and 'revivalist' forms, the architecture of the Middle Ages in the long eighteenth century was always much more than a matter of style. Incarnating, for better or for worse, the memory of a vanished 'Gothic' age in the modern, enlightened present, Gothic architecture, be it ruined or complete, prompted imaginative reconstructions of the nation's past--a notable 'visionary' turn, as the antiquary John Pinkerton put it in 1788, in which Gothic writers, architects, and antiquaries enthusiastically participated. The volume establishes a series of dialogues between Gothic literature, architectural history, and the antiquarian interest in the material remains of the Gothic past, and argues that these discrete yet intimately related approaches to vernacular antiquity are most fruitfully read in relation to one another.
