

Head Or Hearth

David Duchemin

Head and Heart Fraser Watts, Geoff Dumbreck, 2013-08-26 Theologians and religious figures often draw a distinction between religion of the “head” and religion of the “heart,” but few stop to ask what the terms “head” and “heart” actually denote. Many assume that this distinction has a scriptural basis, and yet many Biblical authors used the word “heart” as a synonym for “mind.” In fact, there isn’t a strict separation of the two concepts until the modern period, as in Pascal’s famous claim that “the heart has its reasons that reason can not know.” Since then, many other philosophers and theologians have made a similar distinction. The fact that this distinction has been so persistent makes it an important area of study. *Head and Heart: Perspectives from Religion and Psychology* takes an interdisciplinary approach, linking the thinking of theologians and philosophers with theory and research in present-day psychology. The tradition of using framing questions that have been developed in theology and philosophy can now be brought into dialogue with scientific approaches developed within cognitive psychology and neuroscience. Though these scientific approaches have not generally used the terms “head” and “heart,” they have arrived at a similar distinction in other ways. There is a notable convergence upon the realization that humans have two modes of cognition at their disposal that correspond to “head” and “heart.” The time is therefore ripe to bring the approaches of theology and science in to dialogue—an important dialogue that has been heretofore neglected. *Head and Heart* draws on the unique expertise in relating theology and psychology of the University of Cambridge’s Psychology and Religion Research Group (PRRG). In addition to providing historical and theoretical perspectives, the contributors to this volume will also address practical issues arising from the group’s applied work in deradicalisation and religious education. Contributors include Geoff Dumbreck, Nicholas J. S. Gibson, Malcolm Guite, Liz Gulliford, Russell Re Manning, Glendon L. Moriarty, Sally Myers, Sara Savage, Carissa A. Sharp, Fraser Watts, Harris Wiseman, and Bonnie Poon Zahl.

Head, Heart & Hands Dennis P. Hollinger, 2009-09-20 As Christians, we are to love God with all of our being—heart, mind, soul and strength. But many of us tend to overemphasize one aspect or another, and as a result, our faith becomes imbalanced. Some of us have an intellectual faith but lack compassion or spiritual discipline. Others of us have a vibrant, heartfelt relationship with God but lack commitment to truth or doctrine. And many of us overlook translating our faith into service and ministry. In this book ethicist Dennis P. Hollinger presents a holistic, integrative vision for reuniting Christian thought, passion and action. He shows how individuals, churches and movements throughout history have focused on either the head, or the heart or the hands—often to the exclusion of other expressions. But by linking our intellect, emotions and actions, Hollinger points us toward a whole faith for the whole person, where each dimension feeds, nurtures and sustains the others.

A General Theory of Love Thomas Lewis, Fari Amini, Richard Lannon, 2007-12-18 This original and lucid account of the complexities of love and its essential role in human well-being draws on the latest scientific research. Three eminent psychiatrists tackle the difficult task of reconciling what artists and thinkers have known for thousands of years about the human heart with what has only recently been learned about the primitive functions of the human brain. A General Theory of Love demonstrates that our nervous systems are not self-contained: from earliest childhood, our brains actually link with those of the people close to us, in a silent rhythm that alters the very structure of our brains, establishes life-long emotional patterns, and makes us, in large part, who we are. Explaining how relationships function, how parents shape their child's developing self, how psychotherapy really works, and how our society dangerously flouts essential emotional laws, this is a work of rare passion and eloquence that will forever change the way you think about human intimacy.

Leading With Emotional Courage Peter Bregman, 2018-06-05 The Wall Street Journal bestselling author of 18 Minutes unlocks the secrets of highly successful leaders and pinpoints the missing ingredient that makes all the difference You have the opportunity to lead: to show up with confidence, connected to others, and committed to a purpose in a way that inspires others to follow. Maybe it's in your workplace, or in your relationships, or simply in your own life. But great leadership—leadership that aligns teams, inspires action, and achieves results—is hard. And what makes it hard isn't theoretical, it's practical. It's not about knowing what to say or do. It's about whether you're willing to experience the discomfort, risk, and uncertainty of saying or doing it. In other words, the most critical challenge of leadership is emotional courage. If you are willing to feel everything, you can do anything. Leading with Emotional Courage, based on the author's popular blogs for Harvard Business Review, provides practical, real-world advice for building your emotional courage muscle. Each short, easy to read chapter details a distinct step in this emotional "workout," giving you grounded advice for handling the difficult situations without sacrificing professional ground. By building the courage to say the necessary but difficult things, you become a stronger leader and leave the "should've's" behind. Theoretically, leadership is straightforward, but how many people actually lead? The gap between theory and practice is huge. Emotional courage is what bridges that gap. It's what sets great leaders apart from the rest. It gets results. It cuts through the distractions, the noise, and the politics to solve problems and get things done. This book is packed with actionable steps you can take to start building these skills now. Have the courage to speak up when others remain silent Be stable and grounded in the face of uncertainty Respond productively to opposition without getting distracted Weather others' anger without shutting down or getting defensive Leading with Emotional Courage

coaches you to build your emotional courage, exercise it effectively, and create an environment in which people around you take accountability to get hard things done.

From Your Head to Your Heart Bible Study Guide Maria Durso, 2017-03-17 ARE YOU BRAIN WASHED? This question has always had a negative connotation, but within this Bible Study Guide you will learn the importance of having your brain washed! Life is full of experiences that are stored in our brains that are a filter for how we see ourselves, the world we live in, our relationship with others, and most importantly how we see God! Scientists have discovered that we actually have two brains: the brain in our heads (the cranial brain-learn and remember), and the brain in our hearts (sense and feel). According to research, the brain in the head is connected to the brain in the heart. The two brains send messages to each other through thousands of neurons and tiny filaments, but the messages don't necessarily coincide. The Bible says in Proverbs 23:7 that as a man thinks in his heart, so is he. So, the truth in God's Word needs to work its way down (18 inches) from the brain in our head to the brain in our heart so that we can experience its life changing power. Included with the Bible Study Guide is a welcome video which you can view on MariaDurso.com. This study has been designed for individual use as well as applying it to a Small Group. Maria Durso is living proof that if anyone is in Christ, he is a new creation (2 Corinthians 5:17). Having come from a childhood devastated by loss and abuse she grew up to thinking she could mask her pain with drugs. Her lifestyle could have left her hopeless and alone-yet God kept and preserved Maria's life. Understanding firsthand the effects of abandonment, loneliness and rejection, she ministers to those whose hurt lies deep in the heart and works to minister to those who need hope. Armed with discernment, insight into the true character of God, honest about her own experience, and down to earth, Maria is an intercessor, teacher and powerful speaker. In 1975, immediately following the first most important walk Maria would ever take down a church aisle Maria took her second most important walk down the aisle and married her life-long love, Michael Durso. God continues to open doors for her to minister in conferences, seminars and retreats. Connect with Maria Durso at www.mariadurso.com. This study has been designed for individual use as well as applying it to a Small Group. To assist you in your study, the Bible Study Guide includes questions entitled Thoughts from the Heart at the end of each lesson. These exercises will hopefully challenge you to study further and apply God's Word to your personal life. In addition, there are Questions for Small Group Discussion, which are formulated to get your Small Group talking about the key issues in each lesson. Let's start to take the eighteen-inch journey from your head down into the deep valley of your heart, so you can slay the giants that are defying God's promises and blocking your blessings!

Reading the Bible Supernaturally John Piper, 2017-04-13 The Bible reveals glorious things. And yet we often miss its power because we read it the same way we read any

other book. In *Reading the Bible Supernaturally*, best-selling author John Piper teaches us how to read the Bible in light of its divine author. In doing so, he highlights the Bible's unique ability to reveal God to humanity in a way that informs our minds, transforms our hearts, and ignites our love. With insights into the biblical text drawn from decades of experience studying, preaching, and teaching Scripture, Piper helps us experience the transformative power of God's Word—a power that extends beyond the mere words on the page. Ultimately, Piper shows us that in the seemingly ordinary act of reading the Bible, something supernatural happens: we encounter the living God.

The Feeling Heart in Medieval and Early Modern Europe Katie Barclay, Bronwyn Reddan, 2019-12-02 The heart is an iconic symbol in the medieval and early modern European world. In addition to being a physical organ, it is a key conceptual device related to emotions, cognition, the self and identity, and the body. The heart is read as a metaphor for human desire and will, and situated in opposition to or alongside reason and cognition. In medieval and early modern Europe, the “feeling heart” – the heart as the site of emotion and emotional practices – informed a broad range of art, literature, music, heraldry, medical texts, and devotional and ritual practices. This multidisciplinary collection brings together art historians, literary scholars, historians, theologians, and musicologists to highlight the range of meanings attached to the symbol of the heart, the relationship between physical and metaphorical representations of the heart, and the uses of the heart in the production of identities and communities in medieval and early modern Europe.

Heart of Darkness Joseph Conrad, 2023-11-21 *Heart of Darkness* is often considered the world's best short novel. The book serves as a bridge between the 19th century and modernism, an adventure tale revolving around the ambiguity of themes such as truth, morality, and evil. Joseph Conrad witnessed the European exploitation of the Congo with his own eyes. He once sailed up the Congo River himself to locate a countryman at a trading station deep within the country – even though this man wasn't named Kurtz. The goal and enigma of the journey have become synonymous with this name, one of the most unforgettable fictional characters of our time. JOSEPH CONRAD [1857–1924] was born in Ukraine to Polish parents, went to sea at the age of seventeen, and ended his career as a captain in the English merchant navy. His most famous work is the novella *Heart of Darkness* [1899], adapted into a film by Francis Ford Coppola in 1979 as *Apocalypse Now*.

Blink Malcolm Gladwell, 2007-04-03 From the #1 bestselling author of *The Bomber Mafia*, the landmark book that has revolutionized the way we understand leadership and decision making. In his breakthrough bestseller *The Tipping Point*, Malcolm Gladwell redefined how we understand the world around us. Now, in *Blink*, he revolutionizes the way we understand the world within. *Blink* is a book about how we think without thinking, about choices that seem to be made in an instant—in the blink of an eye—that actually aren't as simple as they seem. Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? How do our brains really work—in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In *Blink* we meet the psychologist who has learned to predict whether a marriage will last, based on a few minutes of observing a couple; the tennis coach who knows when a player will double-fault before the racket even makes contact with the ball; the antiquities experts who recognize a fake at a glance. Here, too, are great failures of blink: the election of Warren Harding; New Coke; and the shooting of Amadou Diallo by police. *Blink* reveals that great decision makers aren't those who process the most information or spend the most time deliberating, but those who have perfected the art of thin-slicing—filtering the very few factors that matter from an overwhelming number of variables.

Atlas of the Heart Brené Brown, 2021-11-30 #1 NEW YORK TIMES BESTSELLER •

In her latest book, Brené Brown writes, “If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and be stewards of the stories that we hear. This is the framework for meaningful connection.” Don’t miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! In Atlas of the Heart, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown’s extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as on Brown’s singular skills as a storyteller, to show us how accurately naming an experience doesn’t give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, “I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves.”

The Heart of the Photograph David Duchemin, 2020-03-17

Learn to ask better, more helpful questions of your work so that you can create stronger and more powerful photographs.

Photographers often look at an image—one they’ve either already created or are in the process of making—and ask themselves a simple question: “Is this a good photograph?” It’s an understandable question, but it’s really not very helpful. How are you supposed to answer that? What does “good” even mean? Is it the same for everyone?

What if you were equipped to ask better, more constructive questions of your work so that you could think more intentionally and creatively, and in doing so, bring more specific action and vision to the act of creating photographs? What if asking stronger questions allowed you to establish a more effective approach to your image-making? In *The Heart of the Photograph: 100 Questions for Making Stronger, More Expressive Photographs*, photographer and author David duChemin helps you learn to ask better questions of your work in order to craft more successful photographs—photographs that express and connect, photographs that are strong and, above all, photographs that are truly yours.

From the big-picture questions—What do I want this image to accomplish?—to the more detail-oriented questions that help you get there—What is the light doing? Where do the lines lead? What can I do about it?—David walks you through his thought process so that you can establish your own. Along the way, he discusses the building blocks from which compelling photographs are made, such as gesture, balance, scale, contrast, perspective, story, memory, symbolism, and much more. *The Heart of the Photograph* is not a theoretical book. It is a practical and useful book that equips you to think more intentionally as a photographer and empowers you to ask more helpful questions of you and your work, so that you can produce images that are not only better than “good,” but as powerful and authentic as you hope them to be.

18 Minutes Peter Bregman, 2011-09-28 Based upon his weekly Harvard Business Review columns (which is one of the most popular columns on HBR.com, receiving hundreds of thousands of unique page views a month), 18 MINUTES clearly shows how busy people can cut through all the daily clutter and distractions and find a way to focus on those key items which are truly the top priorities in our lives. Bregman works from the premise that the best way to combat constant and distracting interruptions is to create productive distractions of one's own. Based upon a series of short bite-sized chapters, his approach allows us to safely navigate through the constant chatter of emails, text messages, phone calls, and endless meetings that prevent us from focusing our time on those things that are truly important to us. Mixing first-person insights along with unique case studies, Bregman sprinkles his charming book with pathways which help guide us -- pathways that can get us on the right trail in 18 minutes or less.

Standards of Mind and Heart Peggy Clohessy Silva, Robert A. Mackin, 2002-04-05

This is the remarkable story of the creation of a new kind of high school that truly aspires

to educate all students to high standards. Believing that a deeply personalized culture can prevent the senseless violence that has invaded many public schools, educators at Souhegan High School in Amherst, New Hampshire set out to create a safe, caring, and academically rigorous school. In this volume, Silva (a teacher) and Mackin (a principal) chronicle their experiences as they worked through the many challenges that ultimately resulted in this extraordinarily successful school. Featuring their honest reflections and the voices of other participants, this book: -- Portrays a real public high school (not a small alternative school) that is successfully implementing most of the reform practices recommended by national reform models. -- Demonstrates how schools can strike a balance between the need for stricter safety measures and the social and emotional needs of each student, thus avoiding violent outbursts in schools. -- Details the school's structure, curriculum, professional culture, and systems of accountability for all students in a heterogeneous, inclusionary setting. -- Describes the use of teaming, advisory groups, exhibitions, and senior projects. -- Provides a working model of the Breaking Ranks recommendations, including the importance of personalization and democracy in education.

Stop Asking Jesus Into Your Heart J. D. Greear, 2013-02-01 "If there were a Guinness Book of World Records entry for 'amount of times having prayed the sinner's prayer,' I'm pretty sure I'd be a top contender," says pastor and author J. D. Greear. He struggled for many years to gain an assurance of salvation and eventually learned he was not alone. "Lack of assurance" is epidemic among evangelical Christians. In *Stop Asking Jesus Into Your Heart*, J. D. shows that faulty ways of presenting the gospel are a leading source of the confusion. Our presentations may not be heretical, but they are sometimes misleading. The idea of "asking Jesus into your heart" or "giving your life to Jesus" often gives false assurance to those who are not saved—and keeps those who genuinely are saved from fully embracing that reality. Greear unpacks the doctrine of assurance, showing that salvation is a posture we take to the promise of God in Christ, a posture that begins at a certain point and is maintained for the rest of our lives. He also answers the tough questions about assurance: What exactly is faith? What is repentance? Why are there so many warnings that seem to imply we can lose our salvation? Such issues are handled with respect to the theological rigors they require, but Greear never loses his pastoral sensitivity or a communication technique that makes this message teachable to a wide audience from teens to adults.
