Historic Sites of South Africa Deirdré Richardson,2001 *Historic Sites of South Africa* highlights the cultural and architectural heritage of the country in all its diversity. As far as is known, it is the first such reference, compiled for the use of tourists as well as everyone interested in the origin of old buildings and sites of historic or cultural significance in their local environment. In compact, field-guide format, this book makes for a convenient travelling companion on any trip.

Public History and Culture in South Africa Ali Khangela Hlongwane,Sifiso Mxolisi Ndlovu,2019-04-11 The post-apartheid era in South Africa has, in the space of nearly two decades, experienced a massive memory boom, manifest in a plethora of new memorials and museums and in the renaming of streets, buildings, cities and more across the country. This memorialisation is intricately linked to questions of power, liberation and public history in the making and remaking of the South African nation. Ali Khangela Hlongwane and Sifiso Mxolisi Ndlovu analyse an array of these liberation heritage sites, including the Hector Pieterse Memorial and Museum, the June 16, 1976 Interpretation Centre, the Apartheid Museum and the Mandela House Museum, foregrounding the work of migrant workers, architects, visual artists and activists in the practice of memorialisation. As they argue, memorialisation has been integral to the process of state and nation formation from the pre-colonial era through the present day.

The History of South Africa Roger B. Beck,2013-11-12 South Africa's history stretches back to the beginnings of human existence. This book provides an overview to South Africa's multiple millennia of history, covering its long and often troubled past to its current status in the 21st century. A newly revised and thoroughly updated version of a popular Greenwood publication, *The History of South Africa: Second Edition* provides readers with readable, accessible information on the nation's prehistory, early history and colonial past, its unfortunate apartheid era, as well as new coverage of South Africa's more recent events in the 20th and 21st centuries. This work presents unique, extended coverage of South Africa's prehistory, beginning 3.5 million years ago and incorporating information gleaned from the most recent archaeological finds. The text reflects the most current historiography on African settlement and life before the arrival of Europeans, accurately describes the colonial era as a period of European hegemony and intense African resistance, and discusses in great detail the apartheid years and the events leading up to majority rule in 1994. This second edition also includes an updated timeline, new biographical sketches of notable people, and supplies recent print and electronic resources in the bibliography.

South Africa in World History Iris Berger,2009-03-27 *South Africa in World History* discusses the history of South Africa from the early centuries of the Common Era to the present-day and addresses broad themes of world history such as colonialism, white settlement, nationalism and reconciliation.

Historical Archaeology in South Africa Carmel Schrire,2018-12-13 This volume documents the analysis of excavated historical archaeological collections at the Cape of Good Hope, South Africa. The corpus provides a rich picture of life and times at this distant

outpost of an immense Dutch seaborne empire during the contact period. Representing over three decades of excavation, conservation, and analysis, the book examines ceramics, glass, metal, and other categories of artifacts in their archaeological contexts. An enclosed CD includes a video reconstruction plus a comprehensive catalog and color illustrations of the artifacts in the corpus. The parallels and contrasts this volume reveals will help scholars studying the European expansion period to build a richer comparative picture of colonial material culture.

Introduction to South Africa Gilad James, PhD, South Africa is a country located at the southernmost tip of Africa, and it has a population of around 58 million. The land is incredibly diverse, ranging from beaches and mountains to savannas and forests, and it is home to many different cultures and languages. South Africa has a rich history, with evidence of human habitation dating back over 100,000 years. In the 19th and early 20th centuries, the country was colonized by the British and the Dutch, which led to the oppression and segregation of the native population. This system, known as apartheid, was officially dismantled in the early 1990s when Nelson Mandela became the first black president of South Africa. Today, South Africa is a democratic country with a diverse economy that is largely driven by mining, agriculture, and tourism. The country is grappling with many of the same issues facing other developing nations, such as income inequality, unemployment, and social inequality. Despite these challenges, South Africa is a vibrant and dynamic nation with a rich cultural heritage and a bright future. The people of South Africa are determined to build a better future for themselves and their children, and they are working hard to make their country a more prosperous and just society.

From Monuments to Traces Rudy Koshar,2000-07-18 Koshar argues that in Germany, memory landscapes have taken shape according to four separate paradigms - the national monument, the ruin, the reconstruction, and the trace - which he analyzes in relation to the changing political agendas that have guided them over time.--BOOK JACKET.

The Management Of Cultural World Heritage Sites and Development In Africa Simon Makuvaza, 2014-03-28 Ever since the signing of the World Heritage Convention 40 years ago and ratified by 33 African countries, to date, only 43 cultural heritage sites have been successfully proclaimed as World Heritage Sites in Africa. These include archaeological and historical sites, religious monuments and cultural landscapes. This book is a re-evaluation of the nomination and management of cultural World Heritage sites in Africa from the late 1970s when the Island of Gorée of Senegal and the Rock-Hewn Churches of Ethiopia were first inscribed on the WHL until today. It considers whether a credible and well balanced WHL has been attained, especially in regards to the nomination of more sites in Africa. The book also examines the roles and contribution of various heritage organizations and African governments to the nomination and management of cultural World Heritage sites in Africa. Lastly, the volume also scrutinizes economic development, which may result from the nomination and successful management of cultural World Heritage sites in Africa.
