*Learning Cursive Writing* Melanie Bremner, 2019-01-04 Cursive writing can often be challenging for children when they first get started. With this fun workbook, your student can challenge himself/herself to see how many animal names they know and then learn how to write and spell them. 63 pages with animals you can also color in for an extra activity once the writing practice has been completed for each page. This book will be sure to keep your student engaged and learning in a fun interactive format. No more whining about having to do homework, your child should be looking forward to completing another page of this book even if they did just come home from their day school. Why don't you challenge your child? I bet there are animal names in here that you don't even know. See how fun it can be to learn something new. I enjoyed creating this book. After spending years trying to keep my learning disabled son focused on what was needed for him to learn each day, I was exhausted. Then I decided to create one of these animal name workbooks for him and sat down with him to talk about the animal of the day. It was fun. And my son stayed engaged. So, I decided to make some more. I know there are other children out there who are a little self-conscious of their setbacks and would be happy to have a fun workbook to explore.

**Environmental Education – 7** Renita Abbi, 2005 Environmental Education series consists of ten well-written textbooks printed on eco-friendly paper for classes 6-10. This series covers the Environmental Education curriculum approved by the Hon. Supreme Court. It attempts to go beyond the usual facts and help children absorb the new, while reinforcing what is already learnt. The interactive approach adopted by the series makes the children active participants in the learning process.

The Keeper And The Firefly GeAnn Powers, 2023-05-15 In a world where learning and reading are forbidden, the fairy princess Ariel is taking huge risks to explore the knowledge available among the elves she's befriended on the other side of the valley. As she becomes more entwined in their world, Keeper the patriarch of her new band of friends, warns Ariel of the dangerous path she's on and reveals a shocking truth about her own family. Ariel is left with a difficult choice. Should she return to the barbarian, illiterate security of her colony, or continue risking everything in her attempts to quench her awakened thirst for knowledge? In this captivating tale of alliances and self-discovery, Ariel and Keeper form an unlikely pact that will change their lives forever.

Positive Intervention for Pupils who Struggle at School Helen Sonnet, 2009-12-16 Positive Intervention for Pupils who Struggle at School provides the resources and information primary teachers need to ensure a happy and effective school experience for all children, particularly those who are seriously struggling. This tried and tested intervention is designed specifically for those children who have been through all the standard interventions, to no avail, and who are now in danger of being excluded. Explaining the thinking behind the suggested modified curriculum, this innovative book considers the reasons why certain children experience difficulties and looks at how this curriculum addresses their needs and enables them to develop personal, social and emotional skills. The activities are chosen to develop and enhance skills for learning, including listening, speaking, concentrating, a positive disposition and a willingness to take on new challenges. Helen Sonnet demonstrates how success has been achieved through this strategy and provides valuable information to help teachers to set up similar groups in their own schools, including how to: ensure firm foundations for the group select the children who will benefit most establish the structures and routine of a successful group assess the children's progress reintegrate children into their mainstream classes effectively. In line with government initiatives this important and effective intervention strategy can make the world of difference, giving teachers new, proven strategies to enable them to support children who are struggling in mainstream primary schools.
