Saved by a Song Mary Gauthier,2021-07-06 A handbook for compassion... a Must-Read Music Book." -Rolling Stone Country Generous and big-hearted, Gauthier has stories to tell and worthwhile advice to share. -Wally Lamb, author of I Know This Much Is True Gauthier has an uncanny ability to combine songwriting craft with a seeker's vulnerability and a sage's wisdom." -Amy Ray, Indigo Girls From the Grammy nominated folk singer and songwriter, an inspiring exploration of creativity and the redemptive power of song Mary Gauthier was twelve years old when she was given her Aunt Jenny's old guitar and taught herself to play with a Mel Bay basic guitar workbook. Music offered her a window to a world where others felt the way she did. Songs became lifelines to her, and she longed to write her own, one day. Then, for a decade, while struggling with addiction, Gauthier put her dream away and her call to songwriting faded. It wasn't until she got sober and went to an open mic with a friend did she realize that she not only still wanted to write songs, she needed to. Today, Gauthier is a decorated musical artist, with numerous awards and recognition for her songwriting, including a Grammy nomination. In *Saved by a Song*, Mary Gauthier pulls the curtain back on the artistry of songwriting. Part memoir, part philosophy of art, part nuts and bolts of songwriting, her book celebrates the redemptive power of song to inspire and bring seemingly different kinds of people together.

Why You Love Music John Powell,2016-06-14 A delightful journey through the psychology and science of music, *Why You Love Music* is the perfect book for anyone who loves a tune. Music plays a hugely important role in our emotional, intellectual, and even physical lives. It impacts the ways we work, relax, behave, and feel. It can make us smile or cry, it helps us bond with the people around us, and it even has the power to alleviate a range of medical conditions. The songs you love (and hate, and even the ones you feel pretty neutral about) don't just make up the soundtrack to your life -- they actually help to shape it. In *Why You Love Music*, scientist and musician John Powell dives deep into decades of psychological and sociological studies in order to answer the question Why does music affect us so profoundly? With his relaxed, conversational style, Powell explores all aspects of music psychology, from how music helps babies bond with their mothers to the ways in which music can change the taste of wine or persuade you to spend more in restaurants. *Why You Love Music* will open your eyes (and ears) to the astounding variety of ways that music impacts the human experience.

I Love Classical Music Marion Billet,2019 Little fingers will love pressing the sound buttons to listen to the beautiful music from a selection of beloved classical composers. Includes pieces from Mozart, Vivaldi, Strauss, Schubert, Tchaikovsky and Paganini.

Love Does Bob Goff,2012 Now a New York Times Bestseller As a college student he spent 16 days in the Pacific Ocean with five guys and a crate of canned meat. As a father he took his kids on a world tour to eat ice cream with heads of state. He made friends in Uganda, and they liked him so much he became the Ugandan consul. He pursued his wife for three years before she agreed to date him. His grades weren't good enough to get into law school, so he sat on a bench outside the Dean's office for seven days until they finally let him enroll. Bob Goff has become something of a legend, and his friends

consider him the world's best-kept secret. Those same friends have long insisted he write a book. What follows are paradigm shifts, musings, and stories from one of the world's most delightfully engaging and winsome people. What fuels his impact? Love. But it's not the kind of love that stops at thoughts and feelings. Bob's love takes action. Bob believes Love Does. When Love Does, life gets interesting. Each day turns into a hilarious, whimsical, meaningful chance that makes faith simple and real. Each chapter is a story that forms a book, a life. And this is one life you don't want to miss. Light and fun, unique and profound, the lessons drawn from Bob's life and attitude just might inspire you to be secretly incredible, too.

Endorsements: If this book does not make your heart beat faster, book the next flight to Mayo Clinic --Bill Hybels, Senior Pastor, Willow Creek Community Church, Chairman, Willow Creek Association Bob Goff is a one-man tsunami of grace, a hurricane of love. He doesn't just talk about change, he really is change, as Love Does chronicles in such a vivid way. Yet, Love Does doesn't leave you feeling like you want to celebrate its author, it awakens a sense deep within that you, too, have an outrageous role to play in God's unfolding story or rescue and repair. --Louie Giglio, Passion Conferences/Passion City Church An interesting and compelling story (with Young Life roots) that ends with a practical challenge and punch: 'love does' and God can use you to do it --Denny Rydberg, President, Young Life Every once in a while someone like Bob Goff shows up to remind us that some things matter a lot more than others. Love Does has a kind of 'north star' effect that will push you to refocus your life and energy on what is most significant. It doesn't just invite you to respond with your God-given potential, it invites you to become a part of what God can do beyond your potential. --Reggie Joiner, Founder and CEO of Orange We liked the book a lot. Mostly, the balloons on the cover. The rest was pretty good too. Lots of stories about how God helps us. --Aedan, Asher and Skye Peterson ages 13, 12 and 9 This may look like a book. It's not. It is an invitation to enter into the greatest adventure you have ever known--your life as it was meant to be lived. Hang on --Michael Hyatt, Author, Platform: Get Noticed in a Noisy World, MichaelHyatt.com Bob's ability to love people brings contagious hope and inspiration wherever he goes. For the Love of Music John Mauceri, 2019 With a lifetime of experience, profound knowledge and understanding, and heartwarming appreciation, an internationally celebrated conductor and teacher answers the questions: Why should I listen to classical music? How can I get the most from the listening experience? A protégé of Leonard Bernstein--his colleague for eighteen years--and an eminent conductor who has toured and recorded all over the world, John Mauceri helps us to reap the joys and pleasures classical music has to offer. Briefly, we learn the way a musical tradition born in ancient Greece, embraced by the Roman Empire, and subsequently nurtured by influences from across the globe, gave shape to the classical music that came to be embraced by cultures from Japan to Bolivia. Then Mauceri examines the music itself, helping us understand what it is we hear when we listen to classical music: how, by a kind of sonic metaphor, it expresses the deepest recesses of human

feeling and emotion; how each piece bears the traces of its history; how the concert experience--a unique one each and every time--allows us to discover music anew. Unpretentious, graceful, instructive, this is a book for the aficionado, the novice, and anyone looking to have the love of music fired within them.

How Music Works John Powell, 2010-11-03 Any readers whose love of music has somehow not led them to explore the technical side before will surely find the result a thoroughly accessible, and occasionally revelatory, primer.--Seattle Post-Intelligencer What makes a musical note different from any other sound? How can you tell if you have perfect pitch? Why do ten violins sound only twice as loud as one? Do your Bob Dylan albums sound better on CD vinyl? John Powell, a scientist and musician, answers these questions and many more in *How Music Works*, an intriguing and original guide to acoustics. In a clear and engaging voice, Powell leads you on a fascinating journey through the world of music, with lively discussions of the secrets behind harmony timbre, keys, chords, loudness, musical composition, and more. From how musical notes came to be (you can thank a group of stodgy men in 1939 London for that one), to how scales help you memorize songs, to how to make an oboe from a drinking straw, John Powell distills the science and psychology of music with wit and charm.
