In Meat We Trust Maureen Ogle,2013 Traces how wealthy and influential industry moguls and politicians shaped America into a culture of meat providers and consumers, from the rise of early meat-producing factories through contemporary mainstream brands, local suppliers, and organic counter-cuisines.

How to be a Space Explorer Lonely Planet Kids,2014-10-01 Everything young explorers needs to know to travel in space, covering what life in zero gravity is like, how to find your way around the solar system, and the all-important question of how to pee in a spacesuit!

In God We Trust Jean Shepherd,2010-10-27 A collection of humorous and nostalgic Americana stories—the beloved, bestselling classics that inspired the movie A Christmas Story Before Garrison Keillor and Spalding Gray there was Jean Shepherd: a master monologist and writer who spun the materials of his all-American childhood into immensely resonant—and utterly hilarious—works of comic art. In God We Trust: All Others Pay Cash represents one of the peaks of his achievement, a compound of irony, affection, and perfect detail that speaks across generations. In God We Trust, Shepherd's wildly witty reunion with his Indiana hometown, disproves the adage “You can never go back.” Bending the ear of Flick, his childhood-buddy-turned-bartender, Shepherd recalls passionately his genuine Red Ryder BB gun, confesses adolescent failure in the arms of Junie Jo Prewitt, and relives a story of man against fish that not even Hemingway could rival. From pop art to the World's Fair, Shepherd's subjects speak with a universal irony and are deeply and unabashedly grounded in American Midwestern life, together rendering a wonderfully nostalgic impression of a more innocent era when life was good, fun was clean, and station wagons roamed the earth. A comic genius who bridged the gap between James Thurber and David Sedaris, Shepherd may have accomplished for Holden, Indiana, what Mark Twain did for Hannibal, Missouri.

In FED We Trust David Wessel,2010-08-03 “Whatever it takes” That was Federal Reserve Chairman Ben Bernanke’s vow as the worst financial panic in more than fifty years gripped the world and he struggled to avoid the once unthinkable: a repeat of the Great Depression. Brilliant but temperamentally cautious, Bernanke researched and wrote about the causes of the Depression during his career as an academic. Then when thrust into a role as one of the most important people in the world, he was compelled to boldness by circumstances he never anticipated. The president of the United States can respond instantly to a missile attack with America’s military might, but he cannot respond to a financial crisis with real money unless Congress acts. The Fed chairman can. Bernanke did. Under his leadership the Fed spearheaded the biggest government intervention in more than half a century and effectively became the fourth branch of government, with no direct accountability to the nation’s voters. Believing that the economic catastrophe of the 1930s was largely the fault of a sluggish and wrongheaded Federal Reserve, Bernanke was determined not to repeat that epic mistake. In this penetrating look inside the most powerful economic institution in the world, David Wessel illuminates its opaque and undemocratic inner workings, while revealing how the Bernanke Fed led the desperate effort to prevent the world’s financial engine from grinding to a halt. In piecing together the fullest, most authoritative, and alarming picture yet of this decisive moment in our nation’s history, In Fed We Trust answers the most critical questions. Among them: • What did Bernanke and his team at the Fed know—and what took them by surprise? Which of their actions stretched—or even ripped through—the Fed’s legal authority? Which chilling numbers and indicators made them feel they had no choice? • What were they thinking at pivotal moments during the race to sell Bear Stearns, the unsuccessful quest to save Lehman Brothers, and the virtual nationalization of

AlG, Fannie Mae, and Freddie Mac? What were they saying to one another when, as Bernanke put it to Wessel: "We came very close to Depression 2.0"? • How well did Bernanke, former treasury secretary Hank Paulson, and then New York Fed president Tim Geithner perform under intense pressure? • How did the crisis prompt a reappraisal of the once-impregnable reputation of Alan Greenspan? In *Fed We Trust* is a breathtaking and singularly perceptive look at a historic episode in American and global economic history.

Thrust Lidia Yuknavitch,2023-06-27 INSTANT NATIONAL BESTSELLER THRUST IS: "Epic." —The New York Times "A triumph." —Elle "Stunningly beautiful." —The Daily Beast "Both of the moment and utterly timeless." —Chicago Review of Books "A book to take in wide-eyed." —Rebecca Makkai NAMED A BEST BOOK OF THE YEAR BY THE WASHINGTON POST As rising waters—and an encroaching police state—endanger her life and family, a girl with the gifts of a carrier travels through water and time to rescue vulnerable figures from the margins of history Lidia Yuknavitch has an unmatched gift for capturing stories of people on the margins—vulnerable humans leading lives of challenge and transcendence. Now, Yuknavitch offers an imaginative masterpiece: the story of Laisvé, a motherless girl from the late 21st century who is learning her power as a carrier, a person who can harness the power of meaningful objects to carry her through time. Sifting through the detritus of a fallen city known as the Brook, she discovers a talisman that will mysteriously connect her with a series of characters from the past two centuries: a French sculptor; a woman of the American underworld; a dictator's daughter; an accused murderer; and a squad of laborers at work on a national monument. Through intricately braided storylines, Laisvé must dodge enforcement raids and find her way to the present day, and then, finally, to the early days of her imperfect country, to forge a connection that might save their lives—and their shared dream of freedom. A dazzling novel of body, spirit, and survival, *Thrust* will leave no reader unchanged.

Those We Trust Marie Jones,2021-05-18 Broken and humiliated by her husband of ten years

leaving her unexpectedly, Sophia Meadows muddles through her daily routine-writing computer programs and rarely leaving the house. That is, until an old friend from university shows up on her door with an offer she can't refuse: a chance to get away and heal in the Scottish Highlands of Inverness by flat-sitting. Yet once she arrives, she soon discovers the offer is not what she bargained for: A police surveillance team is watching her every move and a mysterious man is after the contents of a safe hidden in a wall. After a break-in at the apartment, her path collides with DI Marcus Armstrong, the man in charge of the apartment surveillance. Sophia is swept into an investigation of fraud involving her university friend and into a sudden attraction with the handsome DI who finds himself drawn to her even though she's a suspect in his case. With evidence piling up against her and her friend and the attraction between her and Marcus growing stronger, Sophia is forced to confront her broken heart and find a way to clear her name. In a tangled web of secrets and clues, can she and the DI work through their attraction and learn to trust each other in time to stop a criminal and possibly save a life?
