Collapsed Empires José M. Faraldo,2020-07 The Russian revolution of October 1917, born of the devastation of the Great War, exerted its influence around the globe. Its massive consequences shaped the Twentieth Century and are still with us. Taking 1917 as a point of departure, this book focus on the consequences of imperial and state collapse after 1917 in spatial and chronological dialogue. The contributors examine how profound institutional change created narratives and representations of national memories. They explore the nationalist movements that shaped the new countries and bring to life the communist activists who helped to transform the old world as a tragedy of terrible dimensions unfolded.

Tactical Publishing Alessandro Ludovico,2024-01-16 How to level up to the next transformative phase of publishing—with a critical methodology that transcends the dichotomy of paper and digital media production. Publishing is experiencing one of the most transformative phases in its history. In *Tactical Publishing*, a sequel to *Post-Digital Print*, Alessandro Ludovico explores the forces driving this historical phase, highlighting the tremendous opportunities it presents. Our task, he believes, is to develop an alternative publishing system that transcends the dichotomy between paper and digital media. He focuses first on the two activities on which publishing is premised—reading and writing (with an emphasis on writing machines and post-truth in the latter)—and then deconstructs the concept, proposing alternative strategies inspired by recent practices and unconventional uses of technology. Ludovico shows how the radical and strategic use of print in the past can serve as the basis for our transition to the next phase of publishing. He argues that the new ecology of publishing should be based on three main elements: the stimulation of our senses, the role of software in forming the publishing infrastructure, and the importance of archives. During this transition from the current post-digital phase to the next phase, independent publishers and artists, as well as readers and machines, will enable new structures and actions that realize the potential of publishing and the preservation of content, thereby enriching social practices. The author also considers the crucial social role played by new forms of libraries, as artists and publishers shape the coming publishing world in its various manifestations. Combining analytical accounts of tactical strategies with examples from artworks and experimental practices, the book concludes with a manifesto for publishing in the twenty-first century and an appendix with a selection of one hundred publications representing the “periodic table” of future publishing.

Mejor no bromear con esto El Mundo Today,2022-11-16 Trece años comprometidos con la información veraz, verídica y verdadera dan para mucho. También para meterse en problemas. Motivados por la perspectiva que otorga el paso de los años, los fundadores y editores de El Mundo Today recuerdan en este libro las múltiples veces en que han incomodado al poder y han sido objeto de amenazas y furibundas críticas. Terrorismo, Casa Real, feminismo, Cataluña, pederastia... No han dejado pasar ni una, y esta selección es una muestra de ello. Una celebración de sus momentos estelares pero, sobre todo, una reflexión acerca de la posibilidad de hacer humor al filo de la demanda.

#FakeYou Simona Levi, 2019-12-11 Las fake news no son un fenómeno nuevo: los gobiernos, los partidos políticos, los medios de comunicación y las grandes corporaciones —o los monopolios de información equivalentes en cada época— han hecho siempre un uso interesado de ellas. ¿No es sospechoso, pues, que las políticas y las reformas normativas que se están proponiendo para combatir las nuevas tecnologías y, en cambio, no hagan lo mismo con quienes se han dedicado a producir noticias falsas desde siempre? ¿Por qué en lugar de cortar el problema de raíz pretenden imponer a los ciudadanos recortes de la libertad de expresión e información? *#FakeYou* expone investigaciones que desmontan los mitos en los que se respalda la ola de legislaciones liberticidas que sufrimos en la actualidad. Este libro se plantea como una herramienta de defensa contra los recortes de las libertades fundamentales y un arma contra las nuevas formas de manipulación, mentira y falsificación. Un proyecto dirigido por Simona Levi, que ha contado con la colaboración de Xnet y Robert Guixaró, además de Max Carbonell, Gemma Palau, Elizabeth Bodi y Gemma García, Guillem Martínez, Lorin Decarli y Tatiana Bazzichelli, Emanuele Cozzo y Luce Prignano, e incorpora material ilustrativo cedido por Mariluz Congosto. Lo que se necesita para luchar contra las fake news es más y mejor democracia y menos tecnofobia y criminalización de las libertades; más rendición de cuentas y verificación y menos impunidad, paternalismo desinformado y monopolio de los medios y los recursos informativos.
