**Communicative capacity** Bartels, Koen P.R.,2016-06-01 Participatory democracy has become an unshakable norm and its practice is widespread. Nowadays, public professionals and citizens regularly encounter each other in participatory practice to address shared problems. But while the frequency, pace and diversity of their public encounters has increased, communicating in participatory practice remains a challenging, fragile and demanding undertaking that often runs astray. This unique book explores how citizens and public professionals communicate, why this is so difficult and what could lead to more productive conversations. Using timely, original empirical research to make a thorough comparative analysis of cases in the United Kingdom, the Netherlands and Italy it shows policy makers, practitioners, students and academics the value of communicative capacity.

**Reframing Immigrant Resistance** Teresa Cappiali,2021-12-24 The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license. This book focuses on the political participation and grassroots mobilization of immigrants and racialized communities in the European context. Based on extensive data collected in Italy, it explores the role that alliances among pro-immigrant groups play in shaping political participation, asking why and how immigrant activists mobilize in hostile environments, why and how they create alliances with some white allies rather than others, and what might explain variations in forms of political participation and grassroots mobilization at the local level. Using social movement, critical race, and post-colonial theories, the author examines the ways in which both institutional and non-institutional actors, including immigrant activists, become involved and compete in the local arena over immigration and integration issues, and assesses the mechanisms by which both conventional and non-conventional forms of participation are made possible, or obstructed. By placing immigrant activists at the center of the analysis, the book offers a valuable and novel insider perspective on political activism and the claims-making of marginalized groups. It also demonstrates how pro-immigrant groups can play a role in racializing immigrant activists. A study of the effects on participation in social mobilization of coalitions, conflicts, and racialization processes among pro-immigrant groups and immigrant activists, this volume will appeal to scholars of sociology, political science, and political sociology with interests in migration, ethnic and racial relations, social movements, and local governance.

**Transnational Imaginations of Socialism** Teresa Malice,2022-12-31 Town twinning refers to the postwar phenomenon of administrative exchange between analogous municipalities. Cold War-related research has mostly interpreted it as an instrument to pursue European integration, or to solidify détente from below. However, municipalities were not only administrative, neutral actors, but also bearers of political content. This is particularly visible in the case of Italian towns located in the Western bloc, guided by socialist-oriented administrations, and their twin counterparts in the German Democratic Republic. This volume explores the connections initiated by such towns in the 1960s-1970s, focusing on socialist-specific conceptions which fueled the policies implemented by red municipalities, in managing local economies and social policies, but also in maintaining a lively and interconnected transnational microsociability among grassroots activists. Despite the increasing ideological divergences between Eastern and Western communists, and between Italian democratic communists and the more dogmatic and repressive, strictly pro-Soviet ones in the GDR, communication continued to flourish on the local level. The book explores what still linked the two worlds together, the bright side of socialism: in this case, a common symbolism related to the past, practical exchanges in the present dimension, and a shared future imagination and conception of the town on the basis of a socialist horizon, built around welfare and services for citizens and workers.

**Vatican II Notebook** Marie-Dominique Chenu,MD Chenu,2015-12-31 Chenu was a French Dominican friar, a renowned historian, and a theologian with extraordinary creative insight. He shaped the Dominican study center, Le Saulchoir, as its director and as an influential professor from the late 1920s until he was removed by the Vatican in 1942 (for writing a theological program for the school that sounded much like the future Pastoral Constitution on the Church in the Modern World). He influenced two generations of scholars with his rare combination of scientific excellence and pastoral wisdom. Fifty years after Vatican II, historians are still discovering documents and letters that offer important insights into the Council's meaning. This brief journal written by Marie-Dominique Chenu, masterfully edited by Alberto Melloni, is such a document. It reveals the decisive role Chenu played in several initiatives that shaped the Council's character; but, more importantly, it brings to light the dynamic networking of bishops and theologians that lay behind the Council's achievement of so much in so few years. Covering the years 1962-1963, Chenu's Notebook allows readers to feel the drama of the Council's opening period. At the Council, he promoted and drafted its great Message to the World that was the Council's first published statement. In it, many of Chenu's key intuitions became part of an official church statement about its hope for the future: attention to the 'signs of the times', the integration of science and technology into the Church's pastoral message, and commitment to justice and the care of the poor. His Vatican II Notebook is an exciting peek into great moments in a great man's life.

**International Arbitration** Gary B. Born,2015-03-12 This important casebook is based upon one of the leading books in the field Born's treatise, International Commercial Arbitration. It offers a comprehensive approach to international commercial arbitration (focused on the New York Convention and UNCITRAL Model Law), while providing comparative examples drawn from state-to-state and investment arbitration. An easy-to-use chronological structure follows the course of an international arbitration. Features: Thoroughly revised to reflect amendments to UNCITRAL Rules, ICC Rules and other institutional arbitration rules New sections addressing IBA Guidelines on Party Representation in International Arbitration Revised to reflect amendments to representative national arbitration legislation in France, Singapore and elsewhere Streamlined excerpts of cases and awards; added excerpts of new arbitral awards on selected topics.

**The Papacy and Ecclesiology of Honorius II (1124-1130)** Enrico Veneziani, 2023-03-07 A complete reappraisal of the papacy of Honorius II, highlighting the strategies to which this pontificate turned in order to govern ecclesiastical institutions and to deal with secular matters. The papacy of Honorius II (1124-1130) has often been overlooked by historians, usually considered uneventful, transitional and colourless. This book offers a complete reappraisal, drawing on a detailed examination of the surviving letters produced by the papal chancery to show that conversely, it was a vital and innovative pontificate. It argues that during what was a stabilising period for the papacy in an era of peace, Honorius and the chancery were able to enact the instruments and ecclesiological claims dictated by external threats and produced during previous papacies. In particular, it shows that by adapting the content and form of the letters it issued, Honorius's chancery, led by the official Haimeric, played a decisive role in extending the ecclesiological thinking of the papacy. Furthermore, these years paved the way for ideas which were further developed later in the twelfth century, especially the arguments created by the warring parties in the Schism of 1130 to legitimise their respective popes. This study thus presents a different view of Honorius' administration, highlighting the strategies to which the papacy turned in order both to govern ecclesiastical institutions and to deal with secular matters, when previous protocols and routines could no longer be relied upon.

**The Copernican Question** Robert Westman, 2011-07-28 In 1543, Nicolaus Copernicus publicly defended his hypothesis that the earth is a planet and the sun a body resting near the center of a finite universe. But why did Copernicus make this bold proposal? And why did it matter? The Copernican Question reframes this pivotal moment in the history of science, centering the story on a conflict over the credibility of astrology that erupted in Italy just as Copernicus arrived in 1496. Copernicus engendered enormous resistance when he sought to protect astrology by reconstituting its astronomical foundations. Robert S. Westman shows that efforts to answer the astrological skeptics became a crucial unifying theme of the early modern scientific movement. His interpretation of this long sixteenth century, from the 1490s to the 1610s, offers a new framework for understanding the great transformations in natural philosophy in the century that followed.
