Start with Why Simon Sinek, 2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. *START WITH WHY* asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. *START WITH WHY* shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

When Execution Isn't Enough Claudio Feser,2016-09-19 The definition of great leadership, backed by ground-breaking research When Execution Isn't Enough examines the essential leadership skills that go beyond simply executing strategies well. It examines the leadership skills that inspire excellence and drive growth. Great leaders think differently, but their secrets, values, and behaviors can't be bottled—or can they? Is leadership so contextual that it defies standardization? In this book, McKinsey's global head of leadership development draws on ground-breaking McKinsey research to uncover 20 distinct leadership traits. All are important, but some make all the difference in inspiring organizations to exceptional results and growth—and a select few create the vast chasm between strong and weak

organizations in terms of leadership effectiveness. Structured as a business parable, this book employs a rich cast of corporate characters to illustrate the critical behaviors of inspirational leadership and the outcomes that become possible. Attempting to nail down exactly what makes a leader inspirational is like trying to capture lightning in a bottle, but new McKinsey research has identified the behavioral leadership catalysts that inspire greatness. This book describes the behaviors to inspire that can be learned—to turn a good leader into a great leader. Understand the neuroscience of inspiration Tailor your inspirational approach to different leadership scenarios Initiate an inspiration cascade to influence people at scale The picture of leadership has changed over time. Today's great leaders are authentic, enthusiastic decision-makers with engaging visions, who are quick to communicate and take action. Less than half of all CEOs believe that their training investments will pay off, yet everyone agrees that leadership drives performance—where is the disconnect? It's in the belief that simple leadership behaviors equal results, forgetting that exceptional results only come from inspiration. When Execution Isn't Enough shows you how to attain the missing link of great leadership to bring exceptional results of your organization.

Inspiring Leadership Jonathan Perks MBE, 2013-04-30 Do you consider yourself

to be a successful leader, or do you aspire to be so? If so then this book is for you. Do you wish to lead your teams in the most effective and energising way? Are you a follower seeking to be well led? Are you in the business of helping others to improve their performance? If you answer yes to any of these questions then you'll find much to help you in these pages. From the authors own practical experience, from his observation of other leaders and from his wide research he found that people who have become highly respected usually display the eight characteristics described within the inspiring leadership philosophy. Employing these qualities is how they manage to get others to follow them willingly. You could do the same. A coaching client, Sarah Jane Mills, who critically reviewed a draft of this book, described the benefits as follows: This is a fresh approach to leadership and it is named perfectly. It brings together a wealth of different ideas and concepts under a very clear and simple set of 8 principles. This is about leadership based on relationship. It gives people permission to be inspiring leaders. You can analyse your own strengths, weaknesses, opportunities and threats using the compass and you will be given a set of tools to develop your skill so you become a better inspiring leader. If you focus on these principles you will affect others in a highly positive way.

The Diamond Effect Tony Dixon, Jason Trias Reyes, 2014-06-24 Great leaders come by from time to time. We see them in every walk of life inspiring others with their amazing example of humanity, courage, resolve and heroism. At times they appear to come out of nowhere, arriving on the scene just when they are needed most as a beacon of light, of hope. Inspiring leaders are compelled with optimism. They are knocked down, arrested, beaten, shot,

shamed and told to stop. Yet faced with what others would consider insurmountable challenges, these individuals choose not to simply speak, write, protest or fight, but to live the whole of their lives for a cause. Inspiration comes not from people alone. Inspiration is looking around and realizing we don't know everything about what is here much less what is out there. Inspiration stares back at you when gazing at the night sky in all of its glory. Inspiration is what drives people to work together in order to solve the great challenges our planet presents us. Inspiration is and forever will be something deeply personal that resonates with the emotions serving as a constant reminder that even though we are human, we can achieve the inhuman if we sufficiently commit ourselves.
