**One Life One Chance** Luke Richmond, 2018-02-19 Born to nomadic parents and humble beginnings, Luke Richmond grew up running wild and free in the Australian outback. After finishing school, he joined the Australian Army and served his country overseas as a qualified infantry soldier – an experience that sparked in him an unrelenting desire for adventure. But when he leaves the army Luke finds himself broke and adrift in London, caught up in the soulless world of drug and alcohol addiction. When he wakes up in a police cell with no memory of how he got there, he knows he has hit rock bottom, and makes the snap decision to turn his life around. Within days he is in Thailand, training his mind and body at a Muay Thai boxing camp in the jungles of Phuket. In suffering Luke finds his salvation, and he decides to make the most out of life by seeking adventure in remote corners of the world. Since then Luke has climbed the highest mountains on six continents, set a new world record for ocean rowing across the Atlantic, battled -60 degree temperatures in the Antarctic, witnessed death at high altitude, was held captive in the humid jungles of West Papua and has thrown himself from cliffs in the adrenalin-fueled world of BASE jumping. More than an awe-inspiring story of endurance and adventure, One Life One Chance will ultimately remind you that we only have one shot, so don't waste a second of it.

This volume, in direct accordance with technological developments that have facilitated information avalanche and (anonymous) communication, has required interdisciplinary research in areas such as: psychology, sociology, computer science, social media communication and legislation. The research aims to establish whether social media platforms, through the actions they facilitate, can pose risks and threats to national security and to identify premises in order to stimulate strategies that should be followed to avoid transforming various forms of online communication into a potentiating and generating factor of crime, radical or extremist opinions, mass manipulation, etc. At the same time, the research offers an alternative vision on approaching the concept of intelligence in the context of the development of social media networks

(SocMIInt) and promotes ways to improve and streamline how to achieve objectives that can be successfully applied, including in business intelligence. In this regard, a case study is conducted on the effects of CoVid-19 pandemic (SARS-CoV-2 coronavirus) from the perspective of law enforcement agencies. Although the individually exploitation of SocMIInt does not provide a comprehensive answer, it must be used in the initial stages of decision-making and effort-making, due to the low costs compared to other Int disciplines. The volume does not present a solution to current problems, but through its didactic, documentary and informative nature it offers professional support at high standards to analysts and managers in decision making.
