Sportainment. Facing a new dimension of sports Undine Handorf, 2016-08-04 Seminar paper from the year 2012 in the subject Communications - Broadcast and entertainment, grade: 1,0, , language: English, abstract: It doesn't matter if you are an enthusiastic fan of a soccer club, a professional worldclass athlete, the owner of a sports association or even "just" a person that follows the daily news about sport affairs: Sport has become one of the major topics of (almost) everybody's life in the twenty-first century. Besides, sport can be related to as many aspects of life as possible. Nowadays, sportive activities or even sport events are significant motivations for planning your holidays and that is why sport and tourism achieve high synergies together. Sport has also emerged as global mass entertainment, and is now one of the most powerful and far-reaching communications platforms in the world. Global sport events offer the capacity and possibility to reach vast numbers of people worldwide. By extension, high-performance athletes have become global as they sell themselves to the bright public. And as a result, they become powerful ambassadors, spokespeople and role-models. The creation of the term "sportainment" reflects the increasing importance of the entertaining sports industry. Therefore, the aim of this paper is to examine the relation between sports and entertainment, sports and tourism as well as entertaining sports and tourism. I am going to concentrate my focus on the following questions: - What is the importance of sports and how can it be related to tourism? - What is "sportainment" and how can its relevance be described in the twenty-first century? - How does "sportainment" influence tourism? - How does "sportainment" influence international sport events? Hence, the first two chapters build the theoretical framework of this paper. Chapter two examines the importance of sports and the rising appearance of sports as tourism. Chapter three explains the term "sportainment", gives examples and finally relates it to international tourism. Chapter four analyses the Olympic Winter Games of Vancouver 2010 as a global project towards an entertaining sport event and examines its tourism impacts.

*Sport and International Relations* ADRIAN BUDD, ROGER LEVERMORE, 2004-06 Sport plays a highly significant role in the lives of millions the world over, and yet the impact of this global phenomenon on the subject of international relations has been neglected. The contributors to this collection argue that sport remains both an underestimated and understudied aspect of international relations, and that the growth of its importance should be seen in the complex interdependencies and global systems of governance. The text examines: \* how the expansion of professional sport, and the revenues generated by mass media's links with sport have transformed the international political economy; \* how sport contributes to nation building and notions of identity; \* how sport is a significant facet of international diplomacy. International sport is far from being peripheral to international relations. This challenging and comprehensive introduction will be of interest to students and all those working in international relations and sport studies.

Gender, Media, Sport Susanna Hedenborg, Gertrud Pfister, 2017-10-02 Despite the position that sport occupies at the centre of public attention, and despite the billions of consumers and immense coverage which it attracts from around the globe, it seems that the media prioritise coverage of only a very small fraction of sporting events, and a few prominent athletes. It goes without saying that sport in the media is dominated by men - they are a large majority among athletes, consumers, journalists, and producers. This book will shed new light on the long discussed question of gendered sporting coverage, in an era when the Olympics can be dubbed the 'women's games'. Some of the contributions present new perspectives such as: the relationship between media and sport in Poland; media presentations of men and women in gender 'adequate' and 'inadequate' sports; competition between women and men participating in the same events; the presentation of celebrities; and the framing of doping within the context of gender relations. Furthermore, the book focuses not only on athletes, sports and events, but also on consumers, such as hooligans and their brand of masculinity, and on journalists, such as Mike Penner, who attempted to transgress gender boundaries. This book was originally published as a special issue of Sport in Society.

It was held under the auspices ofthe International Council ofSport and Physical Educa tion (ICSPE) and was organised by the Finnish member organisations, the Finnish Society for Research in Sport and Physical Education (organising association), Finnish Central Sport Federation (SVUL) and the Workers' Sport Federation (TUL). The aim ofthe Congress was to analyse the role of sport in advancing international understanding and to promote research in this fteld. In addition, the Congress wished to offer researchers and those involved in sporting activities an opportunity to exchange ideas about the themes under discussion. The aim of the Congress was to fmd the answers to the following questions: 1. What forms does international co-operation take in present-day competitive and top-level sport, sports for all and other forms of physical culture? What is its histo rica1 background and future? 2.
