Media Management and Live Experience Alex Connock, 2024-04-03 Global and authoritative, this textbook maps modern, live experience media, the categories that thrive on real-time engagement and human connection – even in the age of synthetic content, AI and the Metaverse. Sports and sports betting, festivals, comedy, concerts, tours and theme parks are covered – plus theatre, trade events, conventions, museums and galleries, and immersive media. Live media events included are Burning Man, Glastonbury, the Indian Premier League, the English Premier League, Olympics, NBA and Bundesliga – plus sell-out Taylor Swift tours, the World Cup, Super Bowl, Ryder Cup and Formula One. Business models in this media category start with ticketing and advertising – now amplified with ecommerce, affiliate marketing, subscription and gambling transactions. Deep dives ask: Why is Saudi Arabia investing billions into golf and football? Why is standup comedy big in Nigeria? How are Broadway and the West End evolving? What do immersive technologies like Abba Voyage and the MSG Sphere offer for the future? With class questions, a quiz, summaries and slides for each chapter, this is a guide and course structure for anyone at university level or in industry studying the media, music, entertainment, events, exhibitions, sports, social media or gambling industries.

Live Wise Scott Curtis Meischen, 2023-05-30 Every journey is best pursued by having an authentically wise guidebook to aid us in our understanding of (our ULR) how to wisely journey through life and reality. An authentically wise understanding (ULR understanding of life and reality) is informed both about how and why to travel, journey wisely. It is self-evident that truth and love matter to a life wisely lived, but it is not plainly evident whose explanation of life and reality (ELR) contains the very best explanation of constitutes enduring truth and authentic love. The God of the Bible said if left to ourselves, collectively we would be plagued by wars and rumors of wars, that famine and pestilence would plague our days. And we would also individually and in our intimate relationships as couples and families would find loving oneness much longed for but difficult to find and even more challengingly to sustain. Our much self-heralded humanly constructed ELRs, have not resulted in an enlightenment informed, progressively enriched existence but a reality persistently plagued by unity/chaos, clarity/confusion, peace/despair, and all life still finally ends in death. We were warned by the God of the Bible, we would come to suffer from a mind and heart condition similar to snow blindness termed reality blindness: better equipped to see analytically but yet persistently, congenitally spiritually blinded. Reality blindness is a congenital condition of humanity, a manifestation of being spiritually stillborn, if we elect to exist outside of a right standing with God. When all things are relative being equally true and false at the same time in the same relationship nothing is relevant: real gold is equal to fool's gold, momentary lust and enduring love are equally valid emotional expressions. Humanly sourced understanding results in a form of mental, emotional hypothermia: reality began at my birth, all meaning is temporary, and in death we return to nothingness. In our various hypothermic states of existence, we numb our inevitable despair by self-medications found in drugs, sex, achievement, entertainment, etc. or some lash out with a coping strategy of hurting themselves or others. But

wait! All is not lost. Our existence failure is not new nor unexpected nor unexplained. God created us with love hungry hearts only He can satisfy. God is both the great physician and ultimate parent who can both heal us spiritual today and gift us with an eternal relationship for all our tomorrows including a post-physical-death forever home. But you have to respond with a yes and to His offer of the Live Wise Solution: forgiveness and adoption. As directed by God, Live Wise is a Jesus sourced how-to guidebook for facing life and reality's complexities and messiness with the singularly valuable wisdom and love of God only found in God's ELRs: Jesus and the Bible. Initially God's offer is a gift of forgiveness of our sins and an outpouring of love and peace that only need be accepted. Stop. Think. Believe. You make the call. Live Wise.

Your Middle Years – Love Them. Live Them. Own Them. Paula Mee,Kate O'Brien,2016-03-04 Don't fear your middle years – embrace them feeling STRONG, VIBRANT and in CONTROL OF YOUR DESTINY!Authors PAULA MEE and KATE O'BRIEN had a lot of questions when they reached the menopause. While doctors were matter-of-fact and friends had light-hearted conversations about the changes occurring in their bodies, there was no road map for what can, if you're unprepared, be a turbulent transition. Your Middle Years provides just that.Combining the authors' joint expertise, it shows that midlife and the menopause years are NOT a stumbling block but an opportunity to embrace maturity, feeling energised, refreshed and ready to take on the next phase of your life with gusto.With advice on diet, beauty, sex, sleep, emotional health and more, Your Middle Years will empower you before, during and after the menopause, helping you to anticipate and manage the changes.

An Introduction to z/VM Single System Image (SSI) and Live Guest Relocation (LGR) Lydia Parziale,Anthony Bongiorno,Howard Charter,Jo Johnston,Volker Masen,Clovis Pereira,Sreehari Somasundaran,Srivatsan Venkatesan,IBM Redbooks,2016-03-31 IBM® z/VM® 6.2 introduces significant changes to z/VM in the form of multi-system clustering technology allowing up to four z/VM instances in a single system image (SSI) cluster. This technology is important, because it offers clients an attractive alternative to vertical growth by adding new z/VM systems. In the past, this capability required duplicate efforts to install, maintain, and manage each system. With SSI, these duplicate efforts are reduced or eliminated. Support for live guest relocation (LGR) allows you to move Linux virtual servers without disruption to the business, helping you to avoid planned outages. The z/VM systems are aware of each other and can take advantage of their combined resources. LGR enables clients to avoid loss of service due to planned outages by relocating guests from a system requiring maintenance to a system that remains active during the maintenance period. Together, the SSI and LGR technologies offer substantial client value, and they are a major departure from past z/VM practices. This IBM Redbooks® publication gives you a broad understanding of the new SSI architecture and an overview of LGR. We show an LGR example that shows a typical SAP user environment. In our example, the SAP Application Server Central Instance resides on a Linux on System z® guest and an IBM DB2® 10 database server runs on z/OS®. This book is written for IT architects, who design the systems, and IT specialists, who build the systems.

Sport Beyond Television Brett Hutchins,David Rowe,2012-04-27 Television is no longer the only screen delivering footage and news to people about sport. Computers, the Internet, Web, mobile and other digital media are increasingly important technologies in the production and consumption of sports media. Sport Beyond Television analyzes the changes that have given rise to this situation, combining theoretical insights with original evidence collected through extensive research and interviews with people working in the media and sport industries. It locates sports media as a pivotal component in online content economies and cultures, and counteracts the scant scholarly attention to sports media when compared to music, film and publishing in convergent media cultures. An expanding array of popular sports media – industry, user, club, athlete and fan produced – is now available and accessible in networked digital communications environments. This change is confounding the thinking of major sports organizations that have lived off the generous revenue flowing from exclusive broadcast contracts with free-to-air and subscription television networks for the last five decades. These developments are creating commercial and policy confusion, particularly as sports audiences and the advertising market fragment in line with the proliferation of niche channels and sources of digital sports media. Chapters in this title examine the shift from broadcast to online sports media markets, the impact of social networking platforms like Twitter and Facebook, evolving user and fan practices, the changing character of sports journalism, and the rise of sports computer gaming. Each chapter traces the socio-cultural implications of trends and trajectories in media sport.

Ongoing Research in Jawed Fish Immunity: Structural and Functional Studies at the Protein and Cellular Levels

Monica Imarai, Brian Dixon, 2020-06-04 Knowledge of jawed fish immune systems obtained in the last 15 years has been mostly obtained through the sequencing of genomes of different fish species and from the use of high-throughput techniques such as transcriptomic analysis and RNA sequencing, which has allowed characterization of immune gene responses at the transcriptomic level. Although these have been important tools for exploring the complexities of the immune responses of fish species, the next generation of knowledge requires the use of new tools and methods capable of unveiling the diversity of immune cells and molecules in jawed fish, the network of interactions and responses, and the mechanisms leading to immune protection against pathogens. For more than 10 years, many laboratories have been engaged in developing antibodies against key molecules of jawed fish immune systems in several different species because the lack of sequence conservation of most immune genes makes it impossible to use the large panel of antibodies against mammalian molecules for recognition of fish molecules. The numerous genes encoding cytokines and receptors have now been used to make recombinant proteins available, allowing studies of the complex network of cytokine and receptor functions central to fish immune responses. From many laboratories, new and interesting knowledge about immune cells, their functions and interactions can be studied with the availability of new tools and methods have begun to provide a clear understanding fish immunity at the protein and cellular levels. This Research Topic gives a comprehensive overview of the current knowledge of jawed fish immune responses with a particular emphasis on structural and functional studies at the protein and cellular levels.

Okanagan Grouse Woman Lottie Lindley, 2017-03-01 Published through the Recovering Languages and Literacies of the Americas initiative, supported by the Andrew W. Mellon Foundation In this book of Native American language research and oral traditions, linguist John Lyon collects Salish stories as told by culture-bearer Lottie Lindley, one of the last Okanagan elders whose formative years of language learning were unbroken by the colonizing influence of English. Speaking in the Upper Nicola dialect of Okanagan, a Southern Interior Salish language, Lindley tells the stories that recount and reflect Salish culture, history, and historical consciousness (including names of locales won in battle with other interior peoples), coming-of-age rituals and marriage rites, and tales that attest to the self-understanding of the Salish people within their own history. For each Okanagan Salish story, Lyon and Lindley offer a continuous transcription followed by a collaborative English translation of the story and an interlinear rendition with morphological analysis. The presentation allows students of the dialect, linguists, and those interested in Pacific Northwest and Interior Plateau indigenous oral traditions

unencumbered access to the culture, history, and language of the Salish peoples. With few native speakers left in the community, Okanagan Grouse Woman contributes to the preservation, presentation, and--with hope--maintenance and cultivation of a vital indigenous language and the cultural traditions of the Interior Salish peoples.

Global Sport Business Hans Westerbeek, 2013-09-13 *Global Sport Business: The Community Impact of Commercial Sport* involves a range of pressing issues that come with the arrival of sport as a commodity in the world economy. It can be argued that, throughout the past two centuries, sport has always been recognized as both a frivolous pursuit of spending leisure time with friends and family, and as an activity that has substantial commercial value to be mined by entrepreneurs. However, only during the most recent wave of globalization, spurred by technological advancements that have led to achieving global reach in regard to potential customers, has sport entered a global marketplace that offers tremendous financial rewards for those who manage to control international sport organizations and events. In this book, global sport business is viewed from a number of different perspectives including a value chain approach to describing the sport industry; the ever increasing impact of the international media on sport business; how globalization influences the style of (sport) management; how social capital can be generated through sport business; and the emergence of social sport business. Overall, the different contributors to the book reflect on how sport's global (and as such commercial) attractiveness can, and often will impact locally, on communities of people and individuals. This book was published as a special issue of *Sport in Society*.

Arabic as a Minority Language Jonathan Owens, 2013-03-12 *CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE* brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

Hardcore Health: Live Young! Robert Yonover, Adam Crowe, Jennifer Armstrong, 2019-09-06 We don't just want to live a long time. We want to live young! We want to enjoy life, be active, look good, travel, make love and socialize. Robert Yonover, PhD, attacks the problem of aging with personally researched techniques and practical advice from today's medical experts. Jennifer Armstrong, M.D., Advanced Skincare and Surgery Medcenter, Newport Beach, CA, shares guidelines for keeping skin young. Adam Crowe, PDC, permaculture consultant, herbalist and organic farmer, gives practical advice on growing bursting-with-nutrition food. Katie Amato, BS, MA Public Health, shares healthy and delicious recipes. *Hardcore Health-Live Young!* is a wellness and health book that attacks the problem of aging by staying healthy, fighting age and disease with diet and lifestyle, and living young. We seem to be bifurcating

as a society into those who learn about how to be healthy and take care of themselves and those who choose instead to simply live the commercialized low-nutrient, high-toxin, sedentary lifestyle. Since you are reading this book, I suspect you are one of the former. Not only have the guidelines to healthy living presented in this book been shown effective, but having practiced this myself virtually my whole life, I have had direct personal experience watching what happened to my friends and family according to the choices they made...Do you want a shorter life burdened with disease and fatigue? Or do you want a life of vitality and adventure? The choice is yours, –Joseph Pizzorno, ND, author of the Encyclopedia of Natural Medicine (2,000,000 copies in six languages), the internationally acclaimed Textbook of Natural Medicine, The Toxin Solution.

Lakota Texts Regina Pustet, 2021-04 Lakota Texts is a treasure trove of stories told in the original language by modern Lakota women who make their home in Denver, Colorado. Sometimes witty, often moving, and invariably engaging and fascinating, these stories are both autobiographical and cultural. The stories present personal experiences along with lessons the women have learned or were taught about Lakota history, culture, and legends. The women share aspects of their own lives, including such rituals as powwows, the sweatlodge, and rites of puberty. The women also include details of the older Lakota world and its customs, revered myths, more recent stories, and jokes. In addition to the valuable light Lakota Texts sheds on the lives of modern Lakota women, these stories also represent a significant contribution to American Indian linguistics. Regina Pustet has meticulously transcribed and translated the stories in a detailed, interlinear format that makes the texts a rich source of information about modern Lakota language itself.

Re-imagining Diffusion and Adoption of Information Technology and Systems: A Continuing Conversation Sujeet K. Sharma, Yogesh K. Dwivedi, Bhimaraya Metri, Nripendra P. Rana, 2020-12-16 This two-volume set of IFIP AICT 617 and 618 constitutes the refereed proceedings of the IFIP WG 8.6 International Working Conference Re-imagining Diffusion and Adoption of Information Technology and Systems: A Continuing Conversation on Transfer and Diffusion of IT, TDIT 2020, held in Tiruchirappalli, India, in December 2020. The 86 revised full papers and 36 short papers presented were carefully reviewed and selected from 224 submissions. The papers focus on the re-imagination of diffusion and adoption of emerging technologies. They are organized in the following parts: Part I: artificial intelligence and autonomous systems; big data and analytics; blockchain; diffusion and adoption technology; emerging technologies in e-Governance; emerging technologies in consumer decision making and choice; fin-tech applications; healthcare information technology; and Internet of Things Part II: diffusion of information technology and disaster management; adoption of mobile and platform-based applications; smart cities and digital government; social media; and diffusion of information technology and systems

Using z/VM v 6.2 Single System Image (SSI) and Live Guest Relocation (LGR) Lydia Parziale, Edi Lopes Alves, Susy Heisser, Rob Hunt, Jo Johnston, Volker Masen, Srivatsan Venkatesan, IBM Redbooks, 2012-10-31 In this IBM® Redbooks® publication, we expand upon the concepts and experiences described in An introduction to z/VM Single System Image (SSI) and Live Guest Relocation (LGR), SG24-8006. An overview of that book is provided in Chapter 1, Overview of

SSI and LGR on page 1. In writing this book, we re-used the same lab environment used in the first book, but expanded it to include IBM DB2® v10 on Linux on System z®, two IBM WebSphere® Application Server environments, and added a WebSphere application, used for performance benchmarking, which provided a workload that allowed us to observe the performance of the WebSphere Application Server during relocation of the z/VM® 6.2 member that was hosting the application server. Additionally, this book examines the use of small computer system interface (SCSI) disks in the z/VM v6.2 environment and the results of using single system images (SSI) and live guest relocation (LGR) in this type of environment. In the previous book, a detailed explanation of relocation domains was provided. In this book, we expand that discussion and provide use cases of relocation domains in different situations. Finally, because the ability to back up and restore your data is of paramount importance, we have provided a discussion about how to use one tool, the IBM Backup and Restore Manager for z/VM, which can be used in the new z/VM6.2 environment. We provide a brief overview of the tool and describe the changes in the installation process as a result of using single system image clusters. We also demonstrate how to set up the configuration file, and how to back up and restore both a user and an identity. This publication is intended for IT architects who will be responsible for designing the system and IT specialists who will have to build the system.
