*iProperty* William Barrett, Christopher Price, Thomas Hunt, 2008-01-07 In today's turbulent global economy, companies establish competitive advantage by creating the most exciting ideas and taking them to market. To sustain this competitive advantage and thrive long term, innovative companies must use intellectual property to protect their valuable ideas. *iProperty* explores the intellectual property strategies and tactics used by successful companies to protect ideas. It answers the question, If I'm serious about strategically deploying intellectual property in a way that benefits my bottom line, what should I do on Monday morning to make that happen? Too often, books dealing with strategy remain high-level and vague, while intellectual property books frequently bog the reader down in the intricacies of patent laws and regulations. Avoiding these extremes, *iProperty* emphasizes the concrete details involved in actual implementation and provides executives, managers and attorneys with practical advice for developing and executing a strategic intellectual property plan that will yield a measurable

return on investment.

*A Worldwide Guide to Retirement Destinations* Louise Hudson, Simon Hudson, 2019-10-01 This guide provides information on retiree destinations around the world, all based on research conducted by the authors and hands-on testimonies from each region. It consists of 10 chapters, starting with a general overview of retiree migration patterns, which examines the factors retirees consider when deciding on a destination. The following nine chapters each cover one particular region of the world that is attracting retirees. Mini-profiles of retiree migrants in each chapter include anecdotes and experiences from diverse destinations. The reader will hear, for example, from an American luxuriating on a Spanish island; a Brit building homes in the mountains and coast of BC, Canada; a New York filmmaker reinventing in Cuenca, Ecuador; and British skiers retiring to “encore careers” in the French Alps. Chapters also include “destination profiles”—short vignettes that analyze retirement from the destination perspective, again based on personal interviews with key stakeholders from a national, regional and local perspective.
