The News from Ireland Maurice Walsh,2011-03-24 The Anglo-Irish war of 1919-1921 was an international historical landmark: the first successful revolution against British rule and the beginning of the end of the Empire. But the Irish revolutionaries did not win their struggle on the battlefield - their key victory was in mobilising public opinion in Britain and the rest of the world. Journalists and writers flocked to Ireland, where the increasingly brutal conflict was seen as the crucible for settling some of the key issues of the new world order emerging from the ruins of the First World War. On trial was the British Empire's claim to be the champion of civilisation as well as the principle of self-determination proclaimed by the American president Woodrow Wilson. The News from Ireland vividly explores the work of British and American correspondents in Ireland as well as other foreign journalists and literary figures. It offers a penetrating and persuasive assessment of the Irish revolution's place in a key moment of world history as well as the role of the press and journalism in the conflict. This important book will be essential reading for anyone interested in Irish history and how our understanding of history generally is shaped by the media.

An Irish Empire? Keith Jeffery,1996 Eight essays examine the experience and role of the Irish in the British empire during the 19th and 20th centuries, based on the understanding that, Ireland being less integrated, it differed from that of the other Celtic nations submerged in the United Kingdom. They discuss film, sport, India, the Irish military tradition, Irish unionists, Empire Day in Ireland from 1896 to 1962, Northern Irish businessmen, and Ulster resistance and loyalist rebellion. Broadcasting in Irish Iarfhlaith Watson,2003 Watson (sociology, U. College, Dublin) argues that the Irish language plays an important role in national identity in Ireland, and shows how changes in broadcasting in the country coincide with changes in national identity. He begins with radio in the 1920s, and proceeds through the founding of an Irish-language television station in 1996 to the present. Distributed in the US by ISBS. Letters from Ireland During the Famine of 1847 Alexander Somerville,1994 Somerville's account of the Irish Famine was first published in 1852, but was contained within a much longer three-volume work on free trade, titled *The Whistler at the Plough*, and has remained relatively unknown to historians. Among its strengths are its descriptions of rural hardship, its efforts to understand why Ireland was suffering, its personal account of the famine, its use of verbatim evidence, and the author's empathy with the Irish and English poor. Why are Ireland's Principal Political Parties so Similar? Constantin Huesker,2014-07-07 Essay from the year 2011 in the subject Politics - International Politics - Region: Western Europe, grade: 70%, 1,5, Dublin City University, course: Introduction to Modern Ireland, language: English, abstract: Tom Garvin introduces his book “The Evolution of Irish Nationalist Politics” from 2005 with the following appraisal: “The political parties of the Irish Republic are somewhat exotic entities. The country’s party system, and its style of popular politics in general, are untypical of Western liberal democracies in many ways.” He is proved right when looking at the classical political model and Ireland’s party structure. The general political spectrum that “divides political ideologies on the basis of their beliefs” is not applicable to the Irish political landscape. One can neither find a clearly left-wing nor a genuine right-wing party. Instead, two big and nearly equal conservative parties prevail: Fine Gael and Fianna Fáil. For many years these parties dominate the Dáil winning together over 50% of the seats every election. Since their foundation in the early 20th century the parties share basically the same political platform and represent therefore just an alternative to each other. The Irish population constantly favoured centre-right politics and consequently other political camps were generally left by the roadside: in 2007, for instance, the Labour Party and the Green Party together won only 26 out of 166 seats. Another factor for Ireland’s flat political landscape is the lack of cleavages within the Irish society. Not only due to “exceptional ethnic and religious uniformity, [...] [based on] the role of the Catholic Church in social and political life” but also due to Ireland’s late industrialisation, traditional and homogeneous voting was and still is more influential than in other western democracies. The three factors, introduced above and explained in detail below, are not the exclusive reasons for Ireland’s unique political landscape. Instead, the whole party structure matured over the past 100 years. It is therefore important to regard the process as a whole, to better understand the evolution of the current situation.
