The Career Book Jane Downes,2012-01-10 Instead of immediately focusing on what to do, the first section of the book ('Principles') asks detailed, probing questions about you. Knowing yourself and what makes you tick is the first step to getting the career you want. Using the unique 'Ego Styles Theory', which the author has used to great success with her own clients, the book can identify the ways in which you could be blocking your own success in life and career.

Literary Research and Irish Literature Greg J. Matthews,2008-12-04 *Literary Research and Irish Literature: Strategies & Sources* explores primary and secondary research resources relevant to the study of Irish literary authors, works, genres, and history. Sources covered include general literary research guides; union library catalogs; print and online

bibliographies; manuscripts and archives; microfilm and digitization projects; scholarly journals; periodicals, newspapers, and reviews; and electronic and Web resources. To ease comparison and evaluation of references, each chapter addresses how to choose and utilize research methods and tools to yield the most relevant information. This guide also examines the strengths and weaknesses of core and specialized electronic and print research tools and standard search techniques and _when appropriate_ covers the historical and cultural contexts and usability issues of unique reference sources. This volume, number 5 in the series, raises trenchant issues in Irish literary scholarship, such as the problem of defining what Irish literature is; gaps in criticism and secondary literature devoted to Irish literature; neglected areas of scholarly inquiry, including Irish literature by women and lesser-known writers; and the rewards of interdisciplinary research. It concludes with a brief consideration of a scenario illustrating how a scholar might use strategies and sources covered in the text to solve a research problem.

Artificial Intelligence and Cognitive Science Lorcan

Wherever the Firing Line Extends Ronan

McGreevy, 2016-06-02 The First World War was the biggest conflict in Irish history. More men served and more men died than in all the wars before or since that the Irish fought in. Often forgotten at home and written out of Irish history, the Irish soldiers and their regiments found themselves more honoured in foreign fields. From the first shot monument in Mons to the

plaque to the Royal Irish Lancers who liberated the town on Armistice Day 1918, Ronan McGreevy takes a tour of the Western Front. At a time when Ireland is revisiting its history and its place in the world, McGreevy looks at those places where the Irish made their mark and are remembered in the monuments, cemeteries and landscapes of France and Flanders.

Internet Law Michael O'Doherty, 2020-07-30 Shortlisted for DSBA Law Book of the Year Award 2020 The law in Ireland regarding causes of action involving the internet is a rapidly growing area of law and litigation. This book examines issues such as privacy, data protection, defamation, data protection, crime, intellectual property and employment, all through the prism of online behaviour. This book examines key pieces of legislation such as the E-Commerce Directive, GDPR, and Defamation Act 2009; forthcoming legislation such as the Digital Content Directive and proposed Irish legislation to combat harmful online content. With Ireland being the European base of many international IT and tech firms such as Google, Facebook, LinkedIn, Amazon and Twitter, it is anticipated that the Irish courts will be the forum for many important cases in the near future. Internet Law provides a comprehensive overview of the state of the law in Ireland, EU Member States, and other common law countries such as Canada, Australia and New Zealand. And in such a fast-developing area of law, the book also anticipates many of the issues that will face courts in the near future. Key cases that this book considers include: Data protection: Google Spain [2014] – an in depth review of what exactly this case established, and the manner in which it has been interpreted in subsequent case law. Lloyd v Google [2019] – in which the English Court of Appeal made a significant finding about the availability of damages for non-pecuniary loss arising from the breach of a

person's data protection rights. Defamation: *Monroe v Hopkins* [2017] - the first UK case to consider at length defamation on Twitter, with an in-depth analysis of meaning, identification and how to assess the degree of publication via that medium. *Eva Glawischnig-Piesczek v Facebook* [2019] - a significant recent decision of the CJEU on the liability of social media platforms for content posted by its users. Copyright: *Sony Music v UPC* [2018] - a Court of Appeal judgment on the duties of internet service providers to restrict the illegal downloading of copyright material by its customers. *Land Nordrhein-Westfalen v Renckhoff* [2018] - a recent decision of the CJEU on the nature of copyright protection attaching to photographs which are uploaded to the internet. Trade Marks: *Interflora Inc v Marks and Spencer plc* [2011] - a decision of the CJEU which analyses the rights of an advertiser to use the trade mark of a rival company when promoting its services on the Google Ads service. Employment: *Barbulescu v Romania* [2017] - a significant CJEU decision which sets out the restrictions to an employer's right to monitor the electronic communications of its employees. Privacy/ Harassment: *CG v Facebook* [2016], in which the Northern Ireland Court of Appeal considered the tort of harassment via social media, and the potential liability of Facebook for comments made by a user following notification of the alleged harassment. Evidence: *Martin & Ors v Gabriele Giambrone P/A Giambrone & Law* [2013]- one of several cases to consider the admissibility of evidence taken by a defendant from a plaintiff's social media account in order to question the latter's testimony.

Spying on Ireland Eunan O'Halpin,2008-04-17 Irish neutrality during the Second World War presented Britain with significant challenges to its security. Exploring how British agencies identified and addressed these problems, Eunan O'Halpin casts fresh light on the significance of both espionage and cooperation between agencies for developing wider relations between the two

countries.

Parties, Politics, Peace Carrie Manning,Ian O. Smith,Ozlem Tuncel Gurlek,2023-06-29 This pathbreaking book uncovers the important, underappreciated role of armed opposition groups turned political parties in shaping long-term patterns of politics after war. Based on an empirically grounded and theoretically informed retrospective on nearly 30 years of post-conflict democratic state-building efforts, it examines whether this practice has contributed to peace and finds that engaging post-rebel parties in electoral politics has proven to be a viable long-term strategy for bringing political stability, that disparate post-rebel parties from different political contexts invest heavily in electoral politics, and that few post-rebel parties actively seek return to civil conflict as a solution after becoming a political party. This book will be of key interest to scholars, students, and practitioners in democracy, governance, elections, political parties, post-conflict peacebuilding, and more broadly to international relations, comparative politics, and regional politics.

Muscular Nationalism Sikata Banerjee,2012-04-30 Concerned chiefly with views and events of the 19th and 20th centuries. Discusses deviations from a putative ideal of femininity characterised by chastity and inactivity.

AMSTAT News ,2005

Messengers of Hindu Nationalism Walter Andersen,Shridhar D. Damle,2019-06-15 The Rashtriya Swayamsevak Sangh (RSS) is a Hindu nationalist volunteer organization. It is also the parent of India's ruling Bharatiya

Janata Party. Prime Minister Modi was himself a career RSS office-holder, or pracharak. This book explores how the RSS and its affiliates have benefitted from India's economic development and concurrent social dislocation, with rapid modernization creating a sense of rootlessness, disrupting traditional hierarchies, and attracting many upwardly mobile groups to the organization. India seems more willing than ever to accept the RSS's narrative of Hindu nationalism--one that seeks to assimilate Hindus into a common identity representing true 'Indianness'. Yet the RSS has also come to resemble 'the Congress system', with a socially diverse membership containing a distinct left, right and center. The organization's most significant dilemma is how to reconcile the assault from its far right on cultural issues like cow protection with condemnations of globalization from the left flank. Andersen and Damle offer an essential account of the RSS's rapid rise in recent decades, tracing how it has evolved in response to economic liberalization and assessing its long-term impact on Indian politics and society.

Under the Raj Sumanta Banerjee, 1998 Like other pre-colonial socio-economic formations, the profession of prostitution underwent a dramatic change in Bengal soon after the British take-over. *Under the Raj* explores the world of the prostitute in nineteenth century Bengal. It traces how, from the peripheries of pre-colonial Bengali rural society, they came to dominate the center-stage in Calcutta, the capital of British India--thanks to the emergence of a new clientele brought forth by the colonial order. Sumanta Banerjee examines the policies the British administration implemented to revamp the profession to suit its needs, as well as to screen its practitioners in a bid to protect its minions in the army from venereal diseases. He also analyzes the class structure within the prostitute community in nineteenth century Bengal, its complex relationship with the Bengali bhadralok society--and, what is more important and fascinating for modern researchers in popular culture--the voices of the

prostitutes themselves, which we hear from their songs, letters, and writings, collected and reproduced from both oral tradition and printed sources.

Media Law in Ireland Eoin Carolan, Ailbhe

O'Neill, 2019-04-26 From fake news to foreign affairs, the media continues to be one of the dominating forces of modern life. Now in its second edition, *Media Law in Ireland* provides a comprehensive overview of one of the most dynamic and rapidly changing areas of the law. The way in which people consume media has changed and developed immensely in recent years. New platforms, and new ways of creating and consuming content are revolutionising the way information is spread around the world. With each new platform comes a new set of challenges and complexities, as they break away from the traditional media model. Many of the cases developing in these areas have been high-profile, divisive, and controversial, from issues surrounding freedom of expression to the challenges of privacy in a digital age. This book will throw light on the formidable legal complexities involved in the new media in a clear and accessible manner. This new edition covers many of the developments in the area in the eight years since it was originally published. Among the developments covered are: the Digital Switchover, the adoption of the EU electronic communications reform package, and the Consumer and Competition Protection Act 2014. This book will be ideal for solicitors and barristers who practice in the area of media law, as well as postgraduate students, and media professionals.

Biodiesel Greg Pahl, 2008 For anyone who is trying to keep up with the extremely rapid developments in the biodiesel industry, the second edition of *Biodiesel: Growing a New Energy Economy* is an invaluable aid. The breathtaking speed with which biodiesel has gained acceptance in the marketplace in the past few years has been exceeded only by the proliferation of biodiesel production facilities around the United States--and the world--

only to confront new social and environmental challenges and criticisms. The international survey of the biodiesel industry has been expanded from 40 to more than 80 countries, reflecting the spectacular growth of the industry around the world. This section also tracks the dramatic shifts in the fortunes of the industry that have taken place in some of these nations. The detailed chapters that cover the industry in the United States have also been substantially rewritten to keep abreast of its many new developments and explosive domestic growth. An expanded section on small-scale, local biodiesel production has been added to better represent this small but growing part of the industry. Another new section has been added to more fully explore the increasingly controversial issues of deforestation and food versus fuel, as well as GMO crops. The second edition concludes with updated views on where the industry is headed in the years to come from some of its key players.

Digital Authoritarianism in the Middle East Marc Owen Jones, 2022-07-06 You are being lied to by people who don't even exist. Digital deception is the new face of information warfare. Social media has been weaponised by states and commercial entities alike, as bots and trolls proliferate and users are left to navigate an infodemic of fake news and disinformation. In the Persian Gulf and the wider Middle East, where authoritarian regimes continue to innovate and adapt in the face of changing technology, online deception has reached new levels of audacity. From pro-Saudi entities that manipulate the tweets of the US president, to the activities of fake journalists and Western PR companies that whitewash human rights abuses, Marc Owen Jones' meticulous investigative research uncovers the full gamut of tactics used by Gulf regimes and their allies to deceive domestic and international audiences. In an age of global deception, this book charts the lengths bad actors will go to when seeking to impose their ideology and views on citizens around the world.
