Global Perspective of Information Technology Management Tan, Felix B.,2001-07-01 Managing information technology (IT) on a global scale presents a number of opportunities and challenges. IT can drive the change in global business strategies and improve international coordination. At the same time, IT can be an impediment to achieving globalization. IT as an enabler of and inhibitor to globalization raises interesting questions. Global Perspective of Information Technology Management provides a collection of research works that address relevant IT management issues from a global perspective. As the world economy becomes more interdependent and competition for business continues to be more globally oriented, it has, likewise, become necessary to address the issues of IT management from a broader global focus.

When the Luck of the Irish Ran Out David J. J. Lynch,2010-11-09 Few countries have been as dramatically transformed in recent years as Ireland. Once a culturally repressed land shadowed by terrorism and on the brink of economic collapse, Ireland finally emerged in the late 1990s as the fastest-growing country in Europe, with the typical citizen enjoying a higher standard of living than the average Brit. Just a few years after celebrating their newly-won status among the world's richest societies, the Irish are now saddled with a wounded, shrinking economy, soaring unemployment, and ruined public finances. After so many centuries of impoverishment, how did the Irish finally get rich, and how did they then fritter away so much so quickly? Veteran journalist David J. Lynch offers an insightful, character-driven narrative of how the Irish boom came to be and how it went bust. He opens our eyes to a nation's downfall through the lived experience of individual citizens: the people responsible for the current crisis as well as the ordinary men and women enduring it.

Implementation of the Armed Forces Covenant in Northern Ireland Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee, 2013-07-17 In this report the Northern Ireland Affairs Committee says the UK Government must identify any shortfalls in the provision of services to the Armed Forces Community in Northern Ireland, and report on how these will be met. The Committee also calls for closer engagement between the UK Government and Northern Ireland Executive on support for the Armed Forces Community. The inquiry found that due to devolution, variations exist across the regions of the UK as to how health, housing and education services are provided. There are some specific benefits for the armed forces community that exist in Great Britain but are not available in Northern Ireland, such as improved access to IVF treatment, priority in accessing NHS healthcare, additional priority in accessing social housing, and certain educational entitlements.
