**Paroimia: Brusantino, Florio, Sarnelli, and Italian Proverbs From the Sixteenth and Seventeenth Centuries** Daniela D'Eugenio,2021-11-15 Proverbs constitute a rich archive of historical, cultural, and linguistic significance that affect genres and linguistics codes. They circulate through writers, texts, and communities in a process that ultimately results in modifications in their structure and meanings. Hence, context plays a crucial role in defining proverbs as well as in determining their interpretation. Vincenzo Brusantino's *Le cento novella* (1554), John Florio's *Firste Fruits* (1578) and *Second Fruits* (1591), and Pompeo Sarnelli's *Posilecheata* (1684) offer clear representations of how traditional wisdom and communal knowledge reflect the authors' personal perspectives on society, culture, and literature. The analysis of the three authors' proverbs through comparisons with classical, medieval, and early modern collections of maxims and sententiae provides insights on the fluidity of such expressions, and illustrates the tight relationship between proverbs and sociocultural factors. Brusantino's proverbs introduce ethical interpretations to the one hundred novellas of Boccaccio's *The Decameron*, which he rewrites in octaves of hendecasyllables. His text appeals to Counter-Reformation society and its demand for a comprehensible and immediately applicable morality. In Florio's two bilingual manuals, proverbs fulfill a need for language education in Elizabethan England through authentic and communicative instruction. Florio manipulates the proverbs' vocabulary and syntax to fit the context of his dialogues, best demonstrating the value of learning Italian in a foreign country. Sarnelli's proverbs exemplify the inherent creative and expressive potentialities of the Neapolitan dialect vis-à-vis languages with a more robust literary tradition. As moral maxims, ironic assessments, or witty insertions, these proverbs characterize the Neapolitan community in which the fables take place.

**A Dictionary of English and Italian Equivalent Proverbs** Teodor Flonta,2011-10-29 This dictionary assembles 2,513 English proverbs and their Italian equivalents. Equivalent proverbs are those which express the same concept, be it literally, such as “Love is blind” = “L’amore è cieco,” or with completely different words, such as “Every cloud has a silver lining” = “Non tutto il male viene per nuocere.” The Dictionary is a very useful reference tool for scholars of the two languages, for researchers working in various associated fields such as linguistics, literature, folklore, anthropology, psychology, sociology, history, and for workers in newer areas such as advertising and contemporary media. The Dictionary is also of interest to diplomats and politicians who try to improve their communication by sharing ideas formulated in some common meaningful expressions; it will assist interpreters and translators, and teachers and students for whom it is important to understand not only what the target culture expresses in the same way as their own, but also what is formulated in a different way. The Dictionary is also of benefit to non-professionals who, for the sheer enjoyment of it, wish to savour the wisdom, wit, poetry and the colourful language of proverbs.
