

# Jet Asia Pacific

Emilie Sanchez

**The Asia-Pacific Airline Industry** Sumner J. La Croix, David Jonathan Wolff, 1995 Includes: The Ascent of Asian Airlines (losses, cost-cutting, & consolidation in the global industry; entry, expansion, & profits in Asia); Bilateral Relations (5th freedom rights; 5th freedom rights & the U.S.-Japan Aviation Treaty; the future of bilateral agreements in Asia); Moving Beyond the Bilateral Regime (U.S. & Asian views on aviation liberalization; Asia-Pacific Economic Cooperation (APEC) & civil aviation; from restricted bilateral to open skies arrangement; & Asia-Pacific aviation & the WTO). Photos.

*Aircraft & Aerospace Asia-Pacific* ,2003

**Air Transport in the Asia Pacific** Assoc Prof David T Duval, 2014-11-28 Air transport in the Asia Pacific has undergone significant transformation in the last three decades. What was once a region in the shadow of larger and more prosperous continents such as North America and Europe is now at the forefront of expansion in commercial air-service networks, frequency and capacity, and the overall growth in the contribution of air transport to economies on regional and, in many cases, individual country levels. Despite this, it represents an area that is generally under-

represented in the commercial air-transport academic literature. Air Transport in the Asia Pacific seeks to fill this gap. Against this context, the aim of the volume is to offer a contemporary snapshot of current academic research into commercial air transport in the Asia Pacific. While one volume cannot realistically address the complete range of identifiable issues, this book provides timely, specific and research-based studies authored by leading academics and practitioners.

*Asia Pacific Air Transport* Christopher Charles Findlay, Lin Sien Chia, Karmjit Singh, 1997 The air transport industry is one of the most rapidly growing in the Asia Pacific region. However, the airlines of the region face a number of challenges. These include not only a number of commercial issues but also the reform of the policy environment. How will consumers be affected as the industry and the regulators respond? These challenges and questions are examined in this timely and authoritative book on the air transport industry and its future direction. A separate edition for Australia and New Zealand is available from Australia Japan Research Centre.

**Airlines of Asia Since 1920** Ronald Edward George Davies, 1997 The third volume in a work recording the history of world's airlines, this book follows on from *Airlines of the USA Since*

1914 and Airlines of Latin America Since 1919.

The Proceedings of the 2018 Asia-Pacific International Symposium on Aerospace Technology (APISAT 2018) Xinguo Zhang, 2019-06-08 This book is a compilation of peer-reviewed papers from the 2018 Asia-Pacific International Symposium on Aerospace Technology (APISAT 2018). The symposium is a common endeavour between the four national aerospace societies in China, Australia, Korea and Japan, namely, the Chinese Society of Aeronautics and Astronautics (CSAA), Royal Aeronautical Society Australian Division (RAeS Australian Division), the Korean Society for Aeronautical and Space Sciences (KSAS) and the Japan Society for Aeronautical and Space Sciences (JSASS). APISAT is an annual event initiated in 2009 to provide an opportunity for researchers and engineers from Asia-Pacific countries to discuss current and future advanced topics in aeronautical and space engineering.

*Shaping Air Transport in Asia Pacific* Tae Hoon Oum, Chunyan Yu, 2019-06-04 This title was first published in 2000: A comprehensive assessment of the markets and outlook for the air transport industry in the Asia-Pacific region. The book examines options for improvement of the regulatory system and industry

structure, drawing on experience within and outside of the region. It includes the short- and long-term effects of the current economic crisis on Asian airlines and air transport markets and differs from other works due to its description and analysis of all major aspects of the Asian air transport industry and airlines.

### **Air Transport in the Asia Pacific David Timothy**

Duval, 2016-03-16 Air transport in the Asia Pacific has undergone significant transformation in the last three decades. What was once a region in the shadow of larger and more prosperous continents such as North America and Europe is now at the forefront of expansion in commercial air-service networks, frequency and capacity, and the overall growth in the contribution of air transport to economies on regional and, in many cases, individual country levels. Despite this, it represents an area that is generally under-represented in the commercial air-transport academic literature. *Air Transport in the Asia Pacific* seeks to fill this gap. Against this context, the aim of the volume is to offer a contemporary snapshot of current academic research into commercial air transport in the Asia Pacific. While one volume cannot realistically address the complete range of identifiable issues, this book provides timely, specific and research-based studies authored by leading

academics and practitioners.

*Aircraft & Aerospace Asia-Pacific* ,2005

*The Proceedings of the 2021 Asia-Pacific International Symposium on Aerospace Technology (APISAT 2021), Volume 1*  
Sangchul Lee,Cheolheui Han,Jeong-Yeol Choi,Seungkeun Kim,Jeong Ho Kim,2022-08-30 This proceeding comprises peer-reviewed papers of the 2021 Asia-Pacific International Symposium on Aerospace Technology (APISAT 2021), held from 15-17 November 2021 in Jeju, South Korea. This book deals with various themes on computational fluid dynamics, wind tunnel testing, flow visualization, UAV design, flight simulation, satellite attitude control, aeroelasticity and control, combustion analysis, fuel injection, cooling systems, spacecraft propulsion and so forth. So, this book can be very helpful not only for the researchers of universities and academic institutes, but also for the industry engineers who are interested in the current and future advanced topics in aerospace technology.

Arms, Transparency, and Security in South-East Asia Bates

Gill,J. N. Mak,1997 This report, jointly sponsored by SIPRI and the Maritime Institute of Malaysia (MIMA), draws together the work of eight experts on armaments and Asia-Pacific security affairs to

present analysis and extensive data on arms- and defence-related transparency mechanisms in South-East Asia. It also includes a de facto arms trade register for South-East Asia covering the period 1975-96. The book will prove useful to security analysts and policy makers seeking analysis of and practical approaches to transparency and confidence building in South-East Asia.

**Flying High** Gary Clyde Hufbauer, 1996

*Airline Economics in Asia* Xiaowen Fu, James

Peoples, 2018-11-30 Covers low-cost carrier growth in Japan, competition against full service hub carriers in the Middle East, aviation market liberalization in Central Asia, high-speed-rail and airline competition in China, air transport and tourism in Asia and Australia, airline performance and outsourcing, airports development, and airport-airline cooperation.

**Holocene Climate Changes in the Asia-Pacific Region**

Liangcheng Tan, Hai Xu, Yehouda Enzel, 2021-03-08

*Mr SIA* Ken Hickson, 2014-10-28 Introducing the life and times of a legend in international aviation – Lim Chin Beng – the man they called Mr SIA. Absorbing the life and work of Lim Chin Beng is like watching a fly past of airlines and aircraft old and new. In

this book, his past comes to meet you in many forms – designs, shapes, figures, photographs, episodes, places, people and you discover the connections with business, society and international aviation today and into the future. Here's a man who was instrumental in taking the very basic components of a business – like a potter taking the clay – and creating what has become one of the world's leading brands, Singapore Airlines. But this airline specialist, trained as an economist, had more jobs to do. His broad range of interests – arts and sports, property and tourism – led to him being called on to do his national service for Singapore. He was Ambassador to Japan for two terms and trade negotiator, chairman of the Singapore Tourism Board, Changi Airport International, Singapore Airshow, Singapore Press Holdings, Ascott Group, and ST Aerospace. Described as a quiet achiever and a visionary, this modest gentleman was not afraid to make bold decisions and take risks, even to the extent of setting up a budget airline, Valuair. Here was one man, who in his time, played many parts, on the world's stage and at home. Contents:Foreword by JY PillayForeword by Chew Choon Seng Lim Chin Beng: His Story at a GlanceDelivery TimesRaffles InspiredDesigner DaysLively LiveryTall on TalentSingapore GirlMeaningful MentoringPiloting
