18-Tom Swift and His Thermo-Ion Jetpack (HB) Victor Appleton II, 2016-09-16 The 18th book of the series. Like many people, Tom Swift-and his father, Damon-have dreamed of the days when the personal jet backpacks we've heard about since the 1940s become reality. When a movie director from Hollywood comes to Tom to create the real thing-he demands reality in his science fiction films with special effects-it intrigues the young inventor enough to see what he might create. It's a lot harder than it first appears! He must convince the director that his plans to have a 1940's period piece with leather jackets and bullet-nosed SCUBA tank-shaped rockets has to be updated to match what he believes might be deliverable as a real device. The suit is hijacked by the stuntman and ends up shooting him into space making necessary a search and rescue mission. In the end, it is up to Bud Barclay to save the day and fly the suit for the film. But, a sudden attack might be sending him on a collision course with death. Can Tom rescue his best friend and save the movie?

Jetpack Dreams Mac Montandon, 2008-10-28 Jetpack Dreams chronicles the colorful pop history and science of that most amazing and mysterious of machines, the jetpack. While exploring our collective fascination with flight, the tale takes readers from the first flimsy, shoulder-mounted wings to Bill Suitor's 1984 Olympic flight in front of billions of viewers around the world; from a gruesome jetpack-driven murder in Houston in the mid-1990s to the secret laboratories and government facilities of today. Journalist Mac Montandon also explores Hollywood's fascination with the subject, from the 1949 serial King of the Rocket Men to Lost in Space, The Jetsons and The Rocketeer to the cultural jetpack phenomenon represented by Buck Rogers, James Bond, and Boba Fett. He travels the world to meet jetpack enthusiasts who are readying their own personal flying machines for takeoff. Ultimately, it's the search for an answer to two simple questions: Where is the jetpack that was promised to him, and to all of us, years ago? And if it's out there, can he catch a ride?

Where's My Jetpack? Daniel H. Wilson,2018-03-27 It's the twenty-first century and let's be honest-things are a little disappointing. Despite every World's Fair prediction, every futuristic ride at Disneyland, and the advertisements on the last page of every comic book, we are not living the future we were promised. By now, life was supposed to be a fully automated, atomic-powered, germ-free Utopia, a place where a grown man could wear a velvet spandex unitard and not be laughed at. Where are the ray guns, the flying cars, and the hoverboards that we expected? What happened to our promised moon colonies? Our servant robots? In *Where's My Jetpack?*, roboticist Daniel H. Wilson takes a hilarious look at the future we always imagined for ourselves. He exposes technology, spotlights existing prototypes, and reveals drawing-board plans. You will learn which technologies are already available, who made them, and where to find them. If the technology is not public, you will learn how to build, buy, or steal it. And if doesn't yet exist, you will learn what stands in the way of making it real. With thirty entries spanning everything from teleportation to self-contained skyscraper cities, and superbly illustrated by Richard Horne (101 Things to Do Before You Die), *Where's My Jetpack?* is an endlessly entertaining, one-of-a-kind look at the world that we always wanted. Daniel H. Wilson, Ph.D, has a degree in Robotics from Carnegie-Mellon. He is the author of *How to Survive a Robot Uprising*. He lives in Portland, Oregon.

Tom Swift and His Thermo-Ion Jetpack Victor Appleton II,Thomas Hudson,2016-08-19 In novel 18 of this series, Tom Swift gets the call to put his inventive brains to work for Hollywood. A producer for one of the studios wants to resurrect the old movie series that featured a hero using a flying rocket pack. But, when Tom convinces him that roaring flames and something looking like a pair of fire extinguishers isn't going to work, he agrees to set his serial in the near future. That just leaves Tom with the task of creating a wearable, flyable backpack that can fly for a half hour at a time, be absolutely safe for the stunt man to pilot, and look really incredible. Forces are at work to steal such a technology from both Tom and another company in California that tried making something like it a year earlier. And, it turns out to be an old enemy of the Swifts behind it all. Now, with pressure put on him by the US Government and constant nagging requests to get the backpack delivered to the movie set, Tom must satisfy many people, keep the plans and actual device safe, and still get his and Bud's wife out to Hollywood to meet some stars.

Why Things are & why Things Aren't Joel Achenbach,1996 WHAT IS REALITY, ANYWAY? FUNNY YOU SHOULD ASK. Washington Post columnist Joel Achenbach refuses to take I don't know for an answer. In *Why Things Are*, he gave you a world of answers in a nutshell. Well, once again it's time to get cracking. Just ask Achenbach, who's out to crack every mystery in the book. After all, why stop asking why when there's no end of questions left to be asked? * Why is the Oval Office oval? * Why is it so darn hard to lose weight? * Why did Napoleon keep his hand tucked in his vest? * Why is Muzak everywhere even though people claim they dislike elevator music? * Since we're mostly made of water, why don't we slosh around more? * Why are people so obsessed with talking, thinking, and hearing about sex? * Why is the interior of the Earth still hot after 4.6 billion years of letting off steam (and lava)? Why doesn't this thing ever cool off? Truly outrageous and outrageously true. That's the name of Joel Achenbach's game in this wildly original collection of questions and answers. If you have a taste for the unusual, here's a book that's just as fun as a box of assorted chocolates--but far less fattening.
