PsychoBabbleJabble Kurt D LaRose,2021-02-09 This book will likely irritate every reader at some point. One chapter is so bold it intones the good of a mother who kills her children. The chapter does not say the murderous mother was a good woman, or that she did a good thing; it doesn't say that her actions should be without penalty or consequence. The chapter suggests, basically, in a metaphoric and anecdotal ending, that the mother loves the ones she killed. PsychoBabbleJabble is full of these kinds of challenges; this book is written and designed to tackle human judgment. My work as a therapist, a clinician, and as a helper in different settings, and in different states even (I am licensed in Florida, the District of Columbia, and Missouri), plus with my hypnosis training, all of these play a role in this writing. The reader will see and experience the maneuvering of words, each used to explain and help promote understanding in how people's judgments are formed. Many judgments are those that I like to call 'terminal thoughts.' For some reason or another, certain thoughts are seemingly non-negotiable to the holder of them. With terminal thoughts in mind (we all have them), I'm able to, using my writing, go with the reader using their various lines of thinking, as if their beliefs are absolutely true. Then, near each chapter ending, I include an alternative and new perspective, where a question about the once absolute belief is now wedged toward and in between a different belief. 'Wedged,' meaning a small detail of alternative thought is strategically placed juxtaposition to a terminal thought, that the reader once used (or uses still, maybe) to hold up a rationale supporting 'truth.' By each chapters end, the belief is jolted loose a tiny bit, hopefully. It is in that jolting, where a belief becomes finally questioned and questionable. This text contains my best writing and some of my best clinical recall. All of my training is included in some way in every part of this text; the hypnosis training kicks my writing up a notch. Here, using people's RIGHTNESS as an ally in shaping a new belief, I contradict the old truth while valuing it, in key and passionate areas of what might be called life and the people that make it so. That's what I'd say this book hopes to do – to jolt loose, just a little bit those absolute judgments we as humans may unknowingly, without ill intent, and possibly mistakenly hold as settled.

I Feel a Little Jumpy Around You Naomi Shihab Nye,Paul B. Janeczko,2010-05-11 An award-winning anthology of paired poems by men and women. In this insightful anthology, the editors grouped almost 200 poems into pairs to demonstrate the different ways in which male and female poets see the same topics. How women see men, how boys see girls, and how we all see the world—often in very different ways, but surprisingly, wonderfully, sometimes very much the same.

The Battle for the Bs Blair Davis,2012-04-06 The emergence of the double-bill in the 1930s created a divide between A-pictures and B-pictures as theaters typically screened packages featuring one of each. With the former considered more prestigious because of their larger budgets and more popular actors, the lower-budgeted Bs served largely as a support mechanism to A-films of the major studios—most of which also owned the theater chains in which movies were shown. When a 1948 U.S. Supreme Court antitrust ruling severed ownership of theaters from the studios, the B-movie soon became a different entity in the wake of profound changes to the corporate organization and production methods of the major Hollywood studios. In *The Battle for the Bs*, Blair Davis analyzes how B-films were produced, distributed, and exhibited in the 1950s and demonstrates the possibilities that existed for low-budget filmmaking at a time when many in Hollywood had abandoned the Bs. Made by newly formed independent companies, 1950s B-movies took advantage of changing demographic patterns to fashion innovative marketing approaches. They established such genre cycles as science fiction and teen-oriented films (think *Destination Moon* and *I Was a Teenage Werewolf*) well before the major studios and also contributed to the emergence of the movement now known as underground cinema. Although frequently proving to be multimillion-dollar box-office draws by the end of the decade, the Bs existed in opposition to the cinematic mainstream in the 1950s and created a legacy that was passed on to independent filmmakers in the decades to come.

Passing Stranger Louis S. Rubin, 2016-11-15 *Passing Stranger* is a historical novel about Ivan Vasilyevich Turchaninoff, a colonel in the Czars Imperial Army. Being dissatisfied with the life of serfdom Russia, he and his wife emigrate to the United States six years before the Civil War. At the outbreak of the war, Ivan, now John Basil Turchin, joins the Union Army and valiantly serves under President Abraham Lincoln, a man he greatly admires. The intrigues of parlor discussions provide settings for the emotions and feelings of the people who lived through the horrors of the conflict and provides a human touch to a momentous event in United States history. Through Turchin's eyes and ears, we see an unfolding of our nation's history in a very personal and profound manner. This novel provides an unusual perspective on the Civil War through one who played a decisive role in the conflict.

Jump Commander Mark J. Alexander, John Sparry, 2010-04-19 The thrilling memoir of the legendary army colonel and paratrooper—the only airborne officer to lead three different battalions into combat during WWII. In his distinguished service during World War II, Col. Mark James Alexander took command of three separate battalions of parachute infantrymen within the 82nd Airborne Division. A legend in his own time, he fought in North Africa, Sicily, Italy, and France. Even after sustaining serious wounds in Normandy, he insisted on playing a role in the Battle of the Bulge. Alexander's exploits in Italy, from capturing hundreds of prisoners in Sicily to holding ground against German counterattacks in Salerno, won him a reputation known from the lowest private to Airborne generals Gavin and Ridgway. At Normandy, Lt. John "Red Dog" Dolan called him "the finest battalion commander I ever served under," after witnessing his leadership through the bloody battle for La Fièvre Bridge and Causeway. This memoir is based on the transcription of hundreds of hours of recorded interviews made by Alexander's grandson, John Sparry, over a period of years late in his life. Providing valuable insight into the beloved commander who led three of the most storied battalions in the US Army, *Jump Commander* also contains a wealth of new detail on 82nd Airborne operations and unique insight into some of the most crucial battles in the European Theater.

The 84th Infantry Division in The Battle of Germany Lt. Theodore Draper, 2019-12-06 The 84th Division in the Battle of Germany, November 1944 – May 1945, first published in 1946, is the account of the combat experiences of the noted "The Railsplitter Division" of the U.S. Army in the later days of World War II. Based on numerous interviews conducted immediately after each movement or encounter with the enemy, the book provides an in-depth look at the experiences of U.S. infantrymen as they moved into Germany in the face of often fierce resistance and muddy and freezing conditions. The Division fought at the Battle of the Bulge, was in the lead to cross the Roer and Rhine Rivers and the taking of the large city of Hannover, quickly followed by the successful crossing of the Elbe River. Along the way, the Division captured more than 70,000 German soldiers, liberated several concentration and internment camps, and met-up with Russian forces advancing from the east to form a critical part of the Allied victory. Included are 18 pages of maps and nearly 80 photographs and illustrations.

Broken Heroes Glen Inglis, 2008-04-20 A blackout cripples New York City two nights before Christmas. Stuck in the pitch black, the patrons of the Polo City Diner are about to meet Lester Velasquez, a prominent crime figure bent on finding millions of dollars worth of sapphires that he believes one of them is carrying. He will resort to any means necessary to find them.

Wavelength Harold O. Hutchison, 2015-10-21 Tim Roberts is a genius in his own right. He is a computer programmer who has just invented a device that can read people's minds and project them into words and pictures. It's not until the device records a brutal murder that he realizes that his own life is also in grave danger. Now, he is on the run and everyone wants his invention. The FBI wants it, the Russians want it, and the shadowy owners of the research lab where Tim works want it back. They are all willing to kill for it. This may well become the Pandora's box.

The Opening Battles Kevin Campbell, 2016-06-10 Author Kevin Campbell in this work examines in detail the swirling cavalry fight at Brandy Station. He also gives a lucid, well-written account of the debacle that befell Robert H. Milroy and his ill-fated division at Winchester and Carters Woods. Those battles, bloody in their own right, were soon relegated to the back pages when the horrific Battle of Gettysburg began dominating the press and the postwar reminiscences of the veterans. We can learn much from this new work, with its treasury of pertinent eyewitness accounts and clear prose. His skill in digging through the regimentals, official records, diaries, and other materials is evident, as well as his ability to interweave them into a cohesive narrative that brings the battles, personalities, and long hours of marching to light.

At the Water's Edge Theodore L. Gatchel, 2013-07-31 Conventional military wisdom holds that the amphibious assault against a defended beach is the most difficult of all military operations--yet modern amphibious landings have been almost universally successful. This apparent contradiction is fully explored in this first look at 20th-century amphibious warfare from the perspective of the defender. The author, Col. Theodore L. Gatchel, USMC (Ret.), examines amphibious operations from Gallipoli to the Falkland Islands to determine why the defenders were unable to prevent the attackers from landing or to throw them back into the sea after they had fought their way ashore. He places the reader in the defenders' shoes as such epic battles as Normandy, Iwo Jima, and Inchon are planned and fought, and then uses these cases to explain why the defenders were unable to successfully defend against enemy landings. A practitioner, teacher, and student of amphibious warfare, Colonel Gatchel follows those explanations with speculations on how a defender today might try to stop a landing and on the implications of such actions for future amphibious operations.
