Kids' TV Grows Up Jo Holz, 2017-09-29

In the early days of television, suburban families welcomed TV into their homes as an electronic babysitter that would also teach their children about the world. Children's programming soon came to play a key role in the development of mass culture, promoting the shared interests, norms and vocabulary through which children interact with peers and define themselves as a cohort. This social history examines the forces driving the development of children's television in the U.S., from its inception to the present. Analyses of iconic programs reveal how they influenced our concept of childhood.

The Elephant In The Living Room Dimitri A.

Christakis, Frederick J. Zimmerman, 2006-08-22 The nation's top child development experts examine the effects of television on children and their groundbreaking research will startle many Television is the elephant in the living room of our culture. American children watch television an average of 3 hours per day, and many parents sheepishly

concede that they rely on television as an electronic babysitter. But TV is not necessarily harmful to kids. The authors present groundbreaking scientific evidence that television can be a powerful and effective tool—for entertainment, for education, and for socialization. The secret is for parents to learn how to use television as a tool, not a crutch. With a detailed explanation of the effects of television viewing on kids' emotional, mental, and physical development, plus tips to enable parents to act on this new knowledge, they'll soon be able to turn TV into a positive force in their child's life. The authors share: • which popular shows increase your child's reading ability—and which may delay speech development • which televised sports boost girls' self-image—and which ones could cause eating disorders • the best and worst programming for every age, from toddler to teen

The Big Turnoff Ellen Currey-Wilson, 2007-04-20 A whimsical and wise parenting memoir describes how one television-addicted mother, vowing to become a better parent than her own, launched a campaign to kick the TV habit and remove the boob tube from her son's everyday life.

The TV Kid Betsy Byars, 1998-01-01 Lennie is addicted to television. Even reruns are more exciting than real life, and Lennie likes to pretend he's the one experiencing the drama. But Lennie's daydreams lead him into a real situation that could cost him his life—and suddenly he's in trouble more terrifying and dangerous than anything he's ever seen on TV. Byars infuses the story with her special magic. Lennie is a likable, funny, moving, and always entertaining character. -Publishers Weekly

Unplug! 101 Ways to Pull Your Kids Away from Television Wanda Kanten Hartfield,2003 This is a book full of ideas to help lure your kids away from the enticing glow of television and into the world creativity and imagination. It's motivational and practical - a good resource for anyone who works with kids - parents, teachers, grandparents, homeschoolers, group leaders, and baby-sitters. Prefaced by a chapter of statistics and references to current thought on children and television viewing. 101 activities, supported with catchy graphics & easy instructions, are offered for kids varying in age up to preteens, by former television producer and teacher of Romper Room - the

longest running children's TV show in the country - from 1953 to the late nineties. Today, television is the number one activity for both kids and adults. Studies show that children devote up to 42 hours per week viewing television (depending on what study you're willing to accept). A recent study by the Journal of Science, March 29, 2002, concludes that the more time kids spend watching television, the more likely they are to behave aggressively in future. Kids would be better off if they watched LESS THAN one hour a day on average, said lead author Jeffrey Johnson of Columbia University.

Alison Bryant, 2014-04-08 The Children's Television Community presents a cutting-edge analysis of the children's television community—the organizations, major players, and approaches to programming—and gives an overview of the history, current state, and future of children's programming. God's Easter Miracle Lee Ann Mancini, 2017-02 In God's Easter Miracles, the sea kids learn that Easter isn't about the Easter bunny or candy. It's about Jesus Christ giving up His life for all of us, and how we are to sacrifice ourselves for others. Paul, who is autistic, struggles with relationships, Jimmy doesn't want to share, and Lenny clings to life due to a terrible boat accident. On Easter Sunday, the children witness the power of their prayers. Their Sunday School teacher, Miss Linda, tells the children, Truly, God has blessed us with many Easter miracles. Lenny was healed, and Jimmy asked Jesus into his heart. Even Paul has a miraculous change of heart. A true lesson of becoming more like Jesus is learned in this beautiful Easter story of love and grace.
