Aries: The Primal Triad Sara Shipman, What kind of Aries are you? Are you as active, assertive or argumentative as your Sun sign suggests, or do you feel as if, somehow, you don't match up to what an Aries is supposed to be? The good news is, you are more than just your Sun sign. All human beings are complex and, in astrology, that complexity is largely created by the combination of your Sun sign with your Moon and Rising sign. Think of those words. Motivation. Power. Soul. What inspires you? Why do you express yourself? Why do behave in particular ways? What animates you? How do you express your emotional energy? In this book, I look at how astrology weaves its magic for Aries by looking at how your Sun sign works in combination with all of the Moon signs and Rising signs. I'll also take a look at how your Sun shines brightest according to it's house location in your birth chart. So, if you are a solar Aries, this book will help you to understand your basic Aries character. You will learn how your Aries solar traits can be positively developed. You'll discover how your Sun sign's traits combine with the characteristics of your Moon sign, and you will learn how you can best express your Aries character through the medium of your Rising sign. Understanding how your Sun, Moon and Rising sign work together is a great way of getting to know yourself. When you become familiar with the balance of signs that make up the Primal Triad - and how they interact with each other - you will discover why you approach life in the way that you do; you will understand where your innermost feelings are coming from and, most important of all, you will discover exactly what the universe is trying to teach you. If you're an Aries - or you want to know more about someone who is - this book is a must read for you. Bad Birthdays Sarah Christensen Fu, 2014-04-01 The Truth Behind Your Crappy Sun Sign This is a book for anyone who is irritated by the disconnect between the perky promises and mindlessly cheerfully affirmations that apply to a specific sun sign and the crappy week that ensues. It is the ultimate corrective to the plethora of happy sappy horoscope books and inane astrology columns that appear in daily newspapers around the world. Revealing the truth (whether you like it or not) about your star sign, *Bad Birthdays* uncovers the true quirks, oddities, and unpleasanties that characterize your unlucky sign of the zodiac and rule your destiny. When it comes to love, do you think that watery Pisces are naturally romantic lovers? Think again—if you're unfortunate enough to have a relationship with a Plagued Pisces or a Contemptible Cancer, you're in trouble. Reference the relationship sections to rate your compatibility with other star signs, or at least highlight where the cracks are going to show. With special sections detailing the unlucky personalities with whom you share your birthday, as well as unfortunate events that might have happened on your birthday, *Bad Birthdays* contains all you'll never need to know about your sign. So whether you're a Cursed Capricorn, a Tragic Taurus, or a Lousy Libra, we're all doomed to a destiny that is far less peachy than everyday astrologers would have us believe.

Unlock the Zodiac Sasha Fenton,2019-07-01 Some people believe they are absolutely typical of their sun sign, while others see little of themselves in the descriptions given in most astrology books. Written for beginners as well as astrology students, this informative volume explains why one sun sign can include many different personalities. There are many possible astrological reasons for the diversification within each sign, but this book demonstrates two main factors that are easy for a complete beginner in astrology to understand and to use: decans and dwads. The system presented here is simple and effective and does not require learning the complexities of chart interpretation. Each sign of the zodiac can be divided into three sections called decans, and each decan can be divided into four dwads. These divisions can lead to many variations in personalities of people born under a specific sign, including those between twins. Determine your decan and dwad on the easy-to-use tables provided, then see what their interpretations say about your life. Find out how to progress your sun sign to check out trends and events for any year of your life. After you've evaluated yourself, you can enjoy doing the same for your family and friends. Although perfect for beginners, the simplicity of this approach makes it a handy tool for working astrologers and includes information on gender, elements, and qualities and how they relate to the sun sign.
