Learning a Musical Instrument Richard Crozier,2016-08-31 This book is a useful guide for adult learners who are thinking of taking up a musical instrument for the first time or who want to pick up from where they left off as children. The author helps the reader to answer such questions as which instrument they should choose, the level of difficulty involved in learning and the likely costs. The book discusses the various benefits of taking up music for fun and general well-being. The author provides practical information about the most commonly taught instruments as well as some of the more unusual ones, and includes useful contact information to help readers to take their interest further. This book will help all aspiring musicians to make a truly informed choice.

The Physics of Musical Instruments Neville H. Fletcher,Thomas D. Rossing,2013-11-09 While the history of musical instruments is nearly as old as civilisation itself, the science of acoustics is quite recent. By understanding the physical basis of how instruments are used to make music, one hopes ultimately to be able to give physical criteria to distinguish a fine instrument from a mediocre one. At that point science may be able to come to the aid of art in improving the design and performance of musical instruments. As yet, many of the subtleties in musical sounds of which instrument makers and musicians are aware remain beyond the reach of modern acoustic measurements. This book describes the results of such acoustical investigations - fascinating intellectual and practical exercises. Addressed to readers with a reasonable grasp of physics who are not put off by a little mathematics, this book discusses most of the traditional instruments currently in use in Western music. A guide for all who have an interest in music and how it is produced, as well as serving as a comprehensive reference for those undertaking research in the field.

**HOW to READ MUSIC for Beginners and First-Timers** Andrew Paul,2020-05-24 HOW TO READ MUSIC for beginners & First-timers. (A Practical Approach To Learning How To Play Musical Instruments) Also known as sight music reading, this simply indicates or refers to the first time an individual tries to read written musical lyrics (whether in notes or in plain English) mainly for the purpose of playing it. These musical notes are mostly written in what is called music sheets.As a beginner in the practice of music reading, one of the challenges that you are prone to face is knowing whether you are playing the music correctly or not and not just music some noise with sound. Taking the playing of piano and guitar as a case study, to decipher this you must give rapt attention to the written sheets and the placing of your fingers on the keyboard of the piano. Don't be too carried away at first with seeing some persons who have become experts in this field of play and are playing these musical instruments without looking at any written script, they have played their dues. So it is your time!Take it one step at a time, and you will get there with continuous practice and zeal. Another key challenge you may encounter is reading, playing and listening to your play at the same time. This could be very draining!-Introduction To Music & Sound.-Knowing Your Musical Components.-Differentiating Between The Staff, The Grand-Staff & Base.-Piano Playing (Knowing Your Key Signatures).However, this book will guide you on the basic principles on how you could best start up your music reading and playing carrier. If you find it however difficult in doing it yourself (DIY), you can as well ask a more professional musical expert for guidance.Happy reading.

*Get to Know Your Tongue Drum. 62 Simple Songs for Absolute Beginners* Helen Winter, The steel tongue drum (aka tong drum, tank drum, gluck-o-phone, hapi drum, mandala, or lotus drum) and the handpan (aka hank drum, UFO drum, zen drum) are percussion musical instruments designed to help you focus on your feelings, sensations, and body. You don't need classical music training or knowledge of music theory to play them. The main purpose is relaxation, meditation, and traveling through your inner world. Playing traditional music notes is difficult for people who have no musical knowledge. You need to know the rhythmic value of each note, its place on the staff, note duration, and its combination with other notes. To be aware of all this simultaneously demands music experience and advanced skills. Nevertheless, even if you have never studied music, you can begin to play complicated melodies, and also experiment with your tongue drum in a meditative way. No previous training or skills are necessary to enjoy these fascinating instruments. It is impossible to play them incorrectly. Anyone can play them: those who want to develop a good sense of rhythm and an ear for music, those who are seeking relaxation after a hard day at work, those who have always had an interest in learning how to play a musical instrument, and those who want to introduce something unusual into their lives and explore their inner selves. All songs in this book have been written without using the classic music score system because it is for absolute beginners who cannot read sheet music. We collect very simple and well-known songs and melodies with easy rhythms. You can begin to play just now using circles that contain either a number, without having to consider note duration, key, or time signatures. These numbers correspond to those on the keys of your tongue drum. So you just need to follow the numbers. We use circles with numbers because most modern tongue drums have numbers engraved or painted on their keys. We do not show the note duration - we just group the circles closer to each other to show the rhythms. You can experiment with a duration on your own. Because most tongue drums include and are tuned to involve the notes of the main octave, all songs from this book are possible to play in one octave. This book includes very simple, popular children's and folk songs, but even well-known children's songs played on the drum will create an unusual magical sound. Attention: Songs have been transposed for a DIATONIC range. Some melodies might be changed and simplified. Contents: Alphabet Song A Hunting We Will Go A Sailor Went to Sea Acka Backa Are You Sleeping Baa Baa Black Sheep Baby Bumble Bee Bell Horses Bim Bum Biddy Bobby Shafto Brahms

Includes information on the evolution of the orchestra -- from medieval consorts, baroque and classical orchestras, through to the modern symphony orchestra we know today. Explores other forms such as folk music, brass and military bands, country music, jazz bands, big bands and pop groups.

Music Lessons Stephanie Stein Crease, 2006-07 Providing guidance for parents who want their children to enjoy learning to play a musical instrument, this resource teaches parents the best ways to encourage children's musical talents. Key guidance is provided for the trickiest hurdles of all: helping children learn how to practice and navigating their impulse to quit by encouraging them to take pride in their progress despite the frustrations of the learning process. Commonly taught methods--including Suzuki, Kodaly, Dalcroze training, and the Orff approach--and instrument selection are discussed in detail, as are tips for choosing the right teacher. Up-to-date resources and references for youth orchestras, national and regional organizations, outreach programs, and school advocacy organizations, and supplementary materials for various ages and stages of ability, are provided.

*30 Simple Songs for ChromaNotes Musical Instruments: Music for Beginners* Helen Winter, This book was written to help the absolute beginner, whether child or adult learn to play in a simple and easy way that requires no knowledge of reading music. If you are a beginner, playing by note can be difficult. It is easier to follow color-coded circles with note letters. Important! The keys' color of your musical instrument must be the same as the color of the scheme below. The color chromatic scale in this book corresponds to the popular Chroma-Notes® color system. C (Do) - Red D (Re) - Orange E (Mi) - Yellow F (Fa) - Light Green G (Sol) - Aquamarine A (La) - Purple B (Ti) - Dark Pink C8 (Do) - Red There are 3 levels in this book. Level 1. Play by a color circle. Each song here is written with color circles and letter notes inside. The circles are grouped by rhythm. The duration of the whole, dotted half, and half notes are depicted by the arches after the circles (2, 3, or 4 beats). Level 2. Get acquainted with the musical staff. Learn the places of each note on a staff. No note durations (note length) here. Level 3. Play by a classic note on a musical staff. Here is the "adult" musical notation: clef, duration, rests, and connection of the notes, but the helpful color circles and letters are still above the notes. Each song was adapted for the newbie, just 8 notes (one octave). At the end of the book, you will also find simple puzzles that will make reading notes easier. Contents Level 1 Hot Cross Buns London Bridge is Falling Down The Wheels on the Bus Mary Had a Little Lamb Row, Row, Row your Boat Old MacDonald Had a Farm Are You Sleeping?
