Politische Kommunikationsräume im Internet Ricarda Drüeke, 2014-06-30 Welche Öffentlichkeiten gibt es im Internet? Auch im World Wide Web werden Fragen gesellschaftlicher und kultureller Teilhabe, Identität und Partizipation verhandelt, wie sich insbesondere an Migrationsdebatten zeigt. Ricarda Drüeke entwickelt ein Modell politischer Kommunikationsräume, um das Wirken von Öffentlichkeiten im Internet zu erfassen. Die Stärken der Verbindung von Öffentlichkeits- und Raumtheorien werden auf der Basis eines weiten Politikbegriffs ausgespielt: Sie zeigen sich anhand der quantitativen und qualitativen Analyse einer Migrationsdebatte im Internet, die vielfältige Diskussionen um Inklusion und Exklusion aus einem gemeinsamen politischen Raum »Österreich« ausgelöst hat.

The Fog (Harbingers) Alton Gansky, 2017-08-01 In beautiful San Diego, California, Tank and the team are attending a party when a supernatural mist unlike any other rolls over the city. There are things in the fog. Ugly things. Vicious things that kill whatever they find. When one team member realizes the fog is bringing death, will the ultimate sacrifice have to be made?

Ressorts im Zeitalter von Medienwandel und Boulevardjournalismus Dagmar

Rankl,2013-12-03 Printmedien werden von mehreren Seiten mit dem Medienwandel konfrontiert: Boulevardisierung als Folge der Kommerzialisierung durch den Rückgang der intermediären Träger, Online-Journalismus als Herausforderung für den traditionellen Journalismus und die Wahrung der Funktion als demokratiepolitisches Instrument der Kontrolle und Kritik in einer funktional differenzierten Gesellschaft mit einem einhergehenden Prozess des stetigen Medienwandels. Dagmar Rankl untersucht anhand dieser Phänomene die Themenwahl auf den Titelblättern und -seiten von zwei österreichischen Printmedien. Ressortzuteilungen, Leitartikel und die Verwendung von Bildern sollen die Eignung der Themenwahl als Qualitätskriterium hinterfragen.

The Economic Policy of Austria-Hungary During the War in Its External Relations
Gusztáv Gratz, Richard Schüller, 1928

Bradstreet's Weekly, 1918

Fixed Ideas of Money Tobias Straumann, 2010-06-14 Most European countries are rather small, yet we know little about their monetary history. This book analyses for the first time the experience of seven small states (Austria, Belgium, Denmark, The Netherlands, Norway, Sweden, and Switzerland) during the last hundred years, starting with the restoration of the gold standard after World War I and ending with Sweden's rejection of the Euro in 2003. The comparative analysis shows that for the most part of the twentieth century the options of policy makers were seriously constrained by a distinct fear of floating exchange rates. Only with the crisis of the European Monetary System (EMS) in 1992-3 did the idea that a flexible exchange rate regime was suited for a small open economy gain currency. The book also analyses the differences among small states and concludes that economic structures or foreign policy orientations were far more important for the timing of regime changes than domestic institutions and policies.
