South Temple Street Landmarks Bim Oliver, 2017-01-30 From the earliest days of settlement, South Temple was Salt Lake's most prestigious street. In 1857, William Staines built the Devereaux House, Salt Lake's first of many mansions. The once-bustling Union Pacific Depot eventually found itself increasingly isolated. Downtown's gleaming copper landmark overcame numerous hurdles before its construction was finally finished, and the Steiner American Building helped usher in acceptance of Modernist architecture. Evolving to reflect its continued prominence, in 1975, the thoroughfare's core became the city's first local historic district, and in 1982, it made the National Register of Historic Places. Author and historian Bim Oliver celebrates the changing landmarks along these famous eighteen blocks.

Women's Legal Landmarks Erika Rackley, Rosemary Auchmuty, 2018-12-27 Women's Legal Landmarks commemorates the centenary of women's admission in 1919 to the legal profession in the UK and Ireland by identifying key legal landmarks in women's legal history. Over 80 authors write about landmarks that represent a significant achievement or turning point in women's engagement with law and law reform. The landmarks cover a wide range of topics, including matrimonial property, the right to vote, prostitution, surrogacy and assisted reproduction, rape, domestic violence, FGM, equal pay, abortion, image-based sexual abuse, and the ordination of women bishops, as well as the life stories of women who were the first to undertake key legal roles and positions. Together the landmarks offer a scholarly intervention in the recovery of women's lost history and in the development of methodology of feminist legal history as well as a demonstration of women's agency and activism in the achievement of law reform and justice.

Canadian Literary Landmarks John Robert Colombo, 1984-01-01 Here is a list of three dozen of the top literary locales in the country. The selection of sites is necessarily subjective, yet it attempts to represent geographical, historical, social, and cultural concerns as well as strictly literary interests.

Had this list been prepared by the editors of Michelin Guide, they would have added asterisks or stars to the entries: * Interesting. ** Worth a detour. *** Worth a journey. It is the opinion of the author of Canadian Literary Landmarks that all thirty-six sites are Worth a journey. It is recognized that the average person is unlikely to visit No. 1, not to mention No. 36, but as these sites happen to be the first and last entries in the book, they mark a convenient and symbolic beginning and ending. (No. 1 being L'Anse aux Meadows, Epaves Bay, Nfld. and No. 36 being the North Pole, NWT).

Natural Landmarks of Arizona David Yetman, 2021-11-02 Natural Landmarks of Arizona celebrates the vast geological past of Arizona's natural monuments through the eyes of a celebrated storyteller who has called Arizona home for most of his life. David Yetman shows us how Arizona's most iconic landmarks were formed millions of years ago and sheds light on the more recent histories of these landmarks as well. These peaks and ranges offer striking intrusions into the Arizona horizon, giving our southwestern state some of the most memorable views, hikes, climbs, and bike rides anywhere in the world. They orient us, they locate us, and they are steadfast through generations. Whether you have climbed these peaks many times, enjoy seeing them from your car window, or simply want to learn more about southwestern geology and history, reading Natural Landmarks of Arizona is a fascinating way to learn about the ancient and recent history of beloved places such as Cathedral Rock, Granite Dells, Kitt Peak, and many others. With Yetman as your guide, you can tuck this book into your glove box and hit the road with profound new knowledge about the towering natural monuments that define our beautiful Arizona landscapes.

Performing the jumbled city Olivia Casagrande, 2022-08-30 Performing the jumbled city is a complex artefact beyond its own materiality. Linked to a dedicated website hosting additional audio-visual materials, the book acts as a connecting device allowing an exchange between texts, audio-visual materials, and original artworks, situating it in the emerging field of multi-modal ethnography. From this stance, and as an edited collection co-authored with urban indigenous artists and activists, it interrogates the ways in which knowledge is built and shared. The book is constructed as a particular kind of edited collection, shifting between different authorships. The resulting interaction between individual and collective essays draws together scholars' and activists' perspectives in a rich exchange between textual, visual and dramatic sections, for the book is organised around the original script of the site-specific performance Santiago Waria, and the related exhibition MapsUrbe. Making a claim for creation, rather than recuperation, the essays contained in the book put forward alternative imaginations that disrupt the social and material landscape of the (post)colonial city, defying the spatialities usually assigned to colonised bodies and subjects. As such, and actively engaging with current debates through collective writing by indigenous people raising questions in terms of decolonisation, the book stands as both an academic and a political project, interrogating the relationship between activism and academia, and issues of representation, authorship, and knowledge production.

The Conservation Movement: A History of Architectural Preservation Miles

Glendinning, 2013-01-17 Winner of the 2016 Antoinette Forrester Downing Award presented by the Society of Architectural Historians. In many cities across the world, particularly in Europe, old buildings form a prominent part of the built environment, and we often take it for granted that their contribution is intrinsically positive. How has that widely-shared belief come about, and is its continued general acceptance inevitable? Certainly, ancient structures have long been treated with care and reverence in many societies, including classical Rome and Greece. But only in modern Europe and America, in the last two centuries, has this care been elaborated and energised into a forceful, dynamic ideology: a 'Conservation Movement', infused with a sense of historical destiny and loss, that paradoxically shared many of the characteristics of Enlightenment modernity. The close inter-relationship between conservation and modern civilisation was most dramatically heightened in periods of war or social upheaval, beginning with the French Revolution, and rising to a tragic climax in the 20th-century age of totalitarian extremism; more recently the troubled relationship of 'heritage' and global commercialism has become dominant. Miles Glendinning's new book authoritatively presents, for the first time, the entire history of this architectural Conservation Movement, and traces its dramatic fluctuations in ideas and popularity, ending by questioning whether its recent international ascendancy can last indefinitely.

Landmark Staff of the Washington Post, 2010-04-27 The Washington Post's must-read guide to the health care overhaul What now? Despite the rancorous, divisive, year-long debate in Washington, many Americans still don't understand what the historic overhaul of the health care system will—or

won't—mean. In *Landmark*, the national reporting staff of *The Washington Post* pierces through the confusion, examining the new law's likely impact on us all: our families, doctors, hospitals, health care providers, insurers, and other parts of a health care system that has grown to occupy one-sixth of the U.S. economy. *Landmark's* behind-the-scenes narrative reveals how just how close the law came to defeat, as well as the compromises and deals that President Obama and his Democratic majority in Congress made in achieving what has eluded their predecessors for the past seventy-five years: A legislative package that expands and transforms American health care coverage. *Landmark* is an invaluable resource for anyone eager to understand the changes coming our way.

LANDMARK STATUS Alan Rolnick,2007-08-30 It's the battle of the Century Club in *Landmark Status*, as rivals vie for the right to bury a run-down Miami bar and raise a fabulous condo on its grave. Lawyer Benjy Bluestone couldn't care less, but can't resist beautiful broker Delia Torres, even though she's fronting for a crew that's trouble from the ground up. Soon, high rollers and lowlifes are tangling in Miami's courtrooms and backrooms, careening around in a subtropical nuthouse where all roads lead to Opa-locka and an explosive secret threatens to blow the deal sky high. Move over, Carl Hiaasen! This brilliantly funny romp through the 'real' Miami will have you howling with laughter and booking your trip to South Beach. Core Conservatism: Edmund Burke's Landmark Definition Graham R. Catlin, 2020-03-04 CORE CONSERVATISM: Edmund Burke's Landmark Definition asserts the classic view that Edmund Burke defined the foundations of modern conservative thought. It does so by citing extensively the historic evidence provided by Burke himself in his *Reflections on the Revolution in France*. CORE CONSERVATISM defies the revisionist doubts of academic historians like Dr Emily Jones in her 2019 paperback, "Edmund Burke and the invention of Modern Conservatism 1830-1914". CORE CONSERVATISM makes the full text of Edmund Burke's classic statement of Conservative thinking accessible and more comprehensible by providing • A Structure and Contents index to the 96,000 word text written originally as a continuous letter without any chapters or headings • A universal number referencing system for the 400 paragraphs of the original text • An Introduction for those with no previous knowledge of Edmund Burke or his *Reflections* • A 10,000 word summary of Edmund Burke's political philosophy, citing extensively from Edmund Burke's own *Reflections* • The author's personal distillation of Edmund Burke's thinking in his *Reflections* to 3 Primary Principles and 10 key tenets of modern Conservative doctrine CORE CONSERVATISM is essential reading for both convinced Conservatives and for students of politics and history. It highlights the critical role of Christianity in the formation of Conservative thinking in the English speaking nations and challenges the Materialistic worldview of today's western intelligentsia.

Landmark Essays on Aristotelian Rhetoric Richard Leo Enos, Lois Peters Agnew, 2020-11-25 There is little doubt that Aristotle's Rhetoric has made a major impact on rhetoric and composition studies. This impact has not only been chronicled throughout the history of rhetoric, but has more recently been contested as contemporary rhetoricians reexamine Aristotelian rhetoric and its potential for facilitating contemporary oral and written expression. This volume contains the full text of Father William Grimaldi's monograph studies in the philosophy of Aristotle's Rhetoric. The eight essays presented here are divided into three rubrics: history and philosophical orientation, theoretical perspectives, and historical impact. This collection provides teachers and students with major works on Aristotelian rhetoric that are difficult to acquire and offers readers an opportunity to become active participants in today's deliberations about the merits of Aristotelian rhetoric for contemporary teaching and research.

Twenty-One Landmark European Films 1939-1999 Bert Cardullo, 2015-04-01 The essays in this insightful film-analysis text show cover twenty-one of the best European films made between the coming of World War II and the end of the twentieth century, showing what makes each of them outstanding. These essays are clear and readable—that is, sophisticated and meaty yet not overly technical or jargon-heavy. They will make perfect introductions to their respective films as well as important contributions to the field of film studies in general. Written with university students in mind, these essays cover some of the central films treated—and central issues raised—in today's cinema courses and provide students with practical models to help them improve their own writing and analytical skills. A list of questions for discussion is included, to trigger further thinking among film buffs and to help educators prepare for class. The book is aimed at students, teachers, and cinephiles with an interest in European cinema in particular and cinema studies in general, as well as at those

educated readers with an interest in the practice of film analysis and criticism. The only competition comes from Stanley Kauffmann's relatively brief *Ten Great Films* (136 pp., 2012). The current work offers twenty-one illustrated essays (Kauffmann's book contains no images) and focuses on Europe. (The countries represented are France, Italy, England, Hungary, Belgium, Sweden, Scotland, Denmark, Russia, Spain, Germany, Scotland, and Finland.) *Twenty-One Landmark European Films, 1939-1999* overlaps with Kauffmann's book only in the case of *L'avventura*, though the two approach this film from vastly different angles. Moreover, the book provides a complete critical apparatus—notes, bibliographies, credits, and filmographies, whereas Kauffmann's has none. This book could be one of the primary texts for courses in film analysis, to accompany a work like Timothy Corrigan's *A Short Guide to Writing about Film* (8th edition, 2011). It would also be a suitable supplementary or secondary text in such courses as 'Introduction to Film' or 'Film Appreciation'; 'Western European Cinema'; 'History of Film' or 'Global Cinema'; and 'Film Directors' or 'Film Style and Imagination.'
