This important book centers race and voice in the desegregation discourse, examining and reconceptualizing the meaning of "equal education." Featuring the unique perspectives of

Black school leaders, Horsford provides a critical race analysis of how racism has undermined the integration ideal and the subsequent schooling of Black children. Most importantly, the book discusses how meaningful education reform must be grounded in a moral activist vision of equal education through a cross-racial commitment to racial literacy, realism, reconstruction, and reconciliation in our schools and society. With an engaging style that invites us on a journey of discovery, *Learning in a Burning House* presents new insights into Black education and proposes leadership and policy solutions that can be immediately adopted to improve urban education.

**Young Children Learning** Barbara Tizard, Martin Hughes, 1984  
This fascinating account of an unusual research project challenges many assumptions about how young children learn and how best to teach them. In particular it turns upside-down the commonly held belief that professionals know better than parents how to educate and bring up children; and it throws doubt on the theory that working-class children underachieve at school because of a language deficit at home. The second edition of this bestselling text includes a new introduction by Judy Dunn. Fascinating account of an unusual research project challenges many assumptions about how young children. **A House for Everyone** Jo Hirst, 2018-05-21 At lunchtime, all of Tom's friends gather at school to work together building their house.

Each one of them has a special job to do, and each one of them has a different way of expressing their gender identity. Jackson is a boy who likes to wear dresses. Ivy is a girl who likes her hair cut really short. Alex doesn't feel like 'just' a boy, or 'just' a girl. They are all the same, they are all different - but they are all friends. A very simple story that challenges gender stereotypes and shows 4 to 8 year olds that it is OK to be yourself. An engaging story that is more than just an educational tool; this book will assist parents and teachers in giving children the space to explore the full spectrum of gender diversity and will show children the many ways they can express their gender in a truly positive light.
