The Sword of Truth, Boxed Set I, Books 1-3 Terry Goodkind, 1998 **The Sword of Truth, Boxed Set I, Books 1-3** Wizard's First Rule, Stone of Tears, and Blood of the Fold **Book 1: Wizards First Rule** The masterpiece that started The New York Times bestselling epic Sword of Truth In the aftermath of the brutal murder of his father, a mysterious woman, Kahlan Amnell, appears in Richard Cypher's forest sanctuary seeking help . . . and more. His world, his very beliefs, are shattered when ancient debts come due with thundering violence. In a dark age it takes courage to live, and more than mere courage to challenge those who hold dominion, Richard and Kahlan must take up that challenge or become the next victims. Beyond awaits a bewitching land where even the best of their hearts could betray them. Yet, Richard fears nothing so much as what secrets his sword might reveal about his own soul. Falling in love would destroy them--for reasons Richard can't imagine and Kahlan dare not say. In their darkest hour, hunted relentlessly, tormented by treachery and loss, Kahlan calls upon Richard to reach beyond his sword--to invoke within himself something more noble. Neither knows that the rules of battle have just changed . . . or that their time has run out. This is the beginning. **One book. One Rule. Witness the birth of a legend.** **Book 2: Stone of Tears An Epic of Awesome Power** Kahlan has at last gained the one goal she had always thought was beyond her grasp ... love. Against all odds, the ancient bonds of secret oaths, and the dark talents of men long dead, Richard has won her heart. Amid sudden and disastrous events, Richard's life is called due to satisfy those treacherous oaths. To save his life, Kahlan must forsake Richard's love and cast him into the chains of slavery, knowing there could be no sin worse than such a betrayal. Richard is determined to unlock the secrets bound in the magic of ancient oaths and to again be free. Kahlan, alone with the terrible truth of what she has done, must set about altering the course of a world thrown into war. But even that may be easier than ever winning back the heart of the only man she will ever love. **Book 3: Blood of the Fold An Epic of Two Worlds** In a world as rich and real as our own, Richard Rahl and Kahlan Amnell stand against the ancient forces which besiege the New World-- forces so terrible that when last they threatened, they could only be withstood by sealing off the Old World from whence they came. Now the barrier has been breached, and the New World is again beset by their evil power. War and treachery plague the world, and only Richard and Kahlan can save it from an armageddon of unimaginable savagery and destruction. Terry Goodkind, author of the brilliant bestsellers Wizard's First Rule and Stone of Tears, has created his most masterful epic yet, a sumptuous feast of magic and excitement replete with the wonders of his unique fantasy vision.

The Life and Legend of E. H. Harriman Maury Klein,2003-06-19 To Americans living in the early twentieth century, E. H. Harriman was as familiar a name as J. P. Morgan, John D. Rockefeller, and Andrew Carnegie. Like his fellow businessmen, Harriman (1847-1909) had become the symbol for an entire industry: Morgan stood for banking, Rockefeller for oil, Carnegie for iron and steel, and Harriman for railroads. Here, Maury Klein offers the first in-depth biography in more than seventy-five years of this influential yet surprisingly understudied figure. A Wall Street banker until age fifty, Harriman catapulted into the railroad arena in 1897, gaining control of the Union Pacific Railroad as it emerged from bankruptcy and successfully modernizing every aspect of its operation. He went on to expand his empire by acquiring large stakes in other railroads, including the Southern Pacific and the Baltimore and Ohio, in the process clashing with such foes as James J. Hill, J. P. Morgan, and Theodore Roosevelt. With its new insights into the myths and controversies that surround Harriman's career, this book reasserts his legacy as one of the great turn-of-the-century business titans. The Legend of Robert Mugabe Amire Nerongo,

The Legend Of The Secret Saga Estee Shoesmyth, 2023-08-01 Over twenty years in the writing, the three books in The Legend of The Secret Saga series evolved to be an fascinating magical story unlike any other, as they poetically weave together a strange epic tale. THE AUTHOR, Estee Shoesmyth, is a tangible figment of her own unbridled paradoxical imagination and the fantasy fiction pseudonym of eclectic American artist, Suzanne T. Dietz. The Legend Of The Secret Saga is the complete epic trilogy in one colorful volume. There is no other story like it in The Real World! The fantastical epic tale opens in Book One, which is When Begin Began. Celestial Scribe, Angel Daria pens the following words: To Whom It May Concern: When this immense historical accounting commenced, I surely did not anticipate that the nature of this story would ever veer off the straight and narrow path. Instead, it proceeded to travel along the strangest winding ways. And so, I followed it most dutifully — with my pen in hand. Once upon a time, an anonymous philosopher on The Ultimate Earth aptly intellectualized, 'There are always three sides to every story: your side, the other side, and the truth.' The story presented to you here may seem like nothing more than a collection of my own fantastical delusions. Surely, it could not be that which I, myself, have ever witnessed! In that case, it would certainly not make it to be truth. However, it is ... by my best accounting ... the strange but true enough telling of a deliberately long-lost story from somewhere far out on the other side of Who-Knows-Where. That's just the beginning! In Book Two, The Murky Middle, the story dims to very, very dark with the introduction of a terribly wicked magician's sorcery. Through magic, he enters into a spirit world and adamantly decided to stay there. From that secret domain he meets another and the two, in cahoots, do some deliberately evil damage that stretches out from that invisible place right into the

unsuspecting folks who live day to day in The Real World. Those folks do not stand a chance to escape being affected by the magician's insidious determination to capture them all. Eventually, Adam and Eve are reincarnated into The Real World on a specific mission, years beyond the peak of that magician's vicious reign. By then, the worse had evidently devolved into the worst that ultimately leads through to Book Three, The End Of The End. This story is utterly fascinating. Its twisting and turning through that which may be somewhat recognizable is more tangled up into the fantastical that is addictive to read onward to find out what happens next. All throughout there is mystery, magic, love, hate, obsessiveness, rejection, maliciousness, brilliance, stupidity, sickness, healing, forgiveness, revenge, romance, weirdness, wonderment, heavy heartedness, humor, life, death, and reincarnation. All along, there is that concept of eternity being a time lasting for Forever. Which, according to all reports in The Real World, Forever is a long, long time. The Legend Of The Secret Saga is the complete epic trilogy in one colorful volume. There is no other story like it in The Real World. Not from When Begin Began, throughout The Murky Middle, and all the way to The End Of The End. It is a story that is a Fairytale and a Fantasy. Magical and Mythical. Poetic and Artistic. The Legend Of The Secret Saga is fantastical and not as expected it might be!

Edith Cavell and her Legend Christine E. Hallett, 2018-11-23 This book examines the myriad identities and portrayals of Edith Cavell, as they have been constructed and handed down by propagandists, biographers and artists. Cavell was first introduced to the British public through a series of Foreign Office statements which claimed to establish the "facts" of her case. Her own voice, along with those of her family, colleagues and friends, were muted, as a monolithic image of a national heroine and martyr emerged. The book identifies two main areas of tension in her commemoration: firstly, the contrast between complexity of her own behaviour and motivations and the simplicity of the "Cavell Legend" that was constructed around her; and, secondly, the mismatch between the attempts

of individuals and professional organisations to commemorate her life and work, and the public construction of a “heroine” who could be of value to the nation state.

Ethics in the Arthurian Legend Melissa Ridley Elmes, Evelyn Meyer, Elizabeth Archibald, Nichole Burgdorf, 2023-07-11 An interdisciplinary and trans-historical investigation of the representation of ethics in Arthurian Literature. From its earliest days, the Arthurian legend has been preoccupied with questions of good kingship, the behaviours of a ruling class, and their effects on communities, societies, and nations, both locally and in imperial and colonizing contexts. Ethical considerations inform and are informed by local anxieties tied to questions of power and identity, especially where leadership, service, and governance are concerned; they provide a framework for understanding how the texts operate as didactic and critical tools of these subjects. This book brings together chapters drawing on English, Welsh, German, Dutch, French, and Norse iterations of the Arthurian legend, and bridging premodern and modern temporalities, to investigate the representation of ethics in Arthurian literature across interdisciplinary and transhistorical lines. They engage a variety of methodologies, including gender, critical race theory, philology, literature and the law, translation theory, game studies, comparative, critical, and close reading, and modern editorial and authorial practices. Texts interrogated range from Culhwch and Olwen to Parzival, Roman van Walewein, Tristrams Saga, Sir Gawain and the Green Knight, and Malory's Morte Darthur. As a whole, the approaches and findings in this volume attest to the continued value and importance of the Arthurian legend and its scholarship as a vibrant field through which to locate and understand the many ways in which medieval literature continues to inform modern sensibilities and institutions, particularly where the matter of ethics is concerned.
