North America Kevin Hillstrom,Laurie Collier Hillstrom,2003-08-26 A concise yet thorough overview of the environmental issues, problems, and controversies facing the vast and diverse continent that is North America. North America, tells the story of this environmental awakening and the continuing problems that the continent faces. It tackles the tough issues, the complex problems, and the political controversies of the North American environment. According to some estimates, one out of every nine barrels of oil used in the world every day is consumed by a North American motorist. In 1996, World Wildlife Fund Canada estimated that the country was losing wilderness to development at a rate of more than one acre every 15 seconds. Today, this pace of destruction has been faulted for eroding much of the continent's fabulous natural wealth, and new emphasis is being placed on finding a more appropriate balance between development and conservation.

The EIS Book Charles H. Eccleston,2013-12-13 Poor Environmental Impact Statement (EIS) practice leads to poorly planned projects, and ultimately poor environmental protection. Written by recognized NEPA authority Charles H. Eccleston, The EIS Book: Managing and Preparing Environmental Impact Statements supplies focused direction on preparing an EIS, highlighting best professional practices (BBP) and lessons learned from case law that provide valuable direction for preparing legally defensible documents. The book is not about preparing bigger or more complicated EISs—but better ones. Beginning with fundamental topics and advancing into successively more advanced

subjects, Eccleston describes EIS preparation as a comprehensive framework for planning future actions, rather than merely a document preparation procedure. He supplies direction for preparing defensible analyses that facilitate well-planned projects and improved decision-making. Discusses EIS document requirements including the Council of Environmental Quality’s NEPA regulations and related guidelines, EPA guidance and requirements, presidential executive orders, and case law Covers how to perform a legally sufficient cumulative impact assessment and how to evaluate greenhouse emissions and climate change Details a step-by-step approach for navigating the entire EIS process that includes all pertinent process requirements from issuing the notice of intent, through public scoping, to issuing the final record of decision (ROD) Includes analytical requirements for preparing the EIS analysis and guidance for performing various types of analyses Provides tools, techniques, and best professional practices for preparing the EIS and performing the analysis Presents a case study that reinforces key EIS regulatory requirements, and integrates lessons learned from this case study with appropriate regulatory requirements The book gives readers a firm grasp of the process for preparing an EIS, including all key regulatory requirements that a legally sufficient EIS document must satisfy. No other book synthesizes all such requirements and guidance into a single source for easy and rapid access.

Wanderland Jini Reddy,2020-04-30 SHORTLISTED FOR THE 2021 STANFORD DOLMAN TRAVEL BOOK OF THE YEAR AWARD SHORTLISTED FOR THE 2020 WAINWRIGHT PRIZE FOR UK NATURE WRITING

Alone on a remote mountaintop one dark night, a woman hears a mysterious voice. Propelled by the memory and after years of dreaming about it, Jini Reddy dares to delve into the 'wanderlands' of Britain, heading off in search of the magical in the landscape. A London journalist with multicultural roots and a perennial outsider, she determinedly sets off on this unorthodox path. Serendipity and her inner compass guide her around the country in pursuit of the Other and a connection to Britain's captivating natural world. Where might this lead? And if you know what it is to be Othered yourself, how might this colour your experiences? And what if, in invoking the spirit of the land, 'it' decides to make its presence felt? Whether following a 'cult' map to a hidden well that refuses to reveal itself, attempting to persuade a labyrinth to spill its secrets, embarking on a coast-to-coast pilgrimage or searching for a mystical land temple, Jini depicts a whimsical, natural Britain. Along the way, she tracks down ephemeral wild art, encounters women who worship The Goddess, falls deeper in love with her birth land and struggles – but mostly fails – to get to grips with its lore. Throughout, she rejoices in the wildness we cannot see and celebrates the natural beauty we can, while offering glimpses of her Canadian childhood and her Indian parents' struggles in apartheid-era South Africa. *Wanderland* is a book in which the heart leads, all things are possible and the Other, both wild and human, comes in from the cold. It is a paean to the joy of roaming, both figuratively and imaginatively, and to the joy of finding your place in the world.
