*The Missing Generation* Mo Y Ma,2018-07-30 This book was written for the missing generations of 1960 and 1970, during which a lot of young people had been deprived of their right of education, employment, freedom of residence, and not to mention free speech, even lovemaking. In the last phase of Cultural Revolution, in order to clean up the mess of political struggle, Mao Zedong sent the vast majority of students to the farmland to accept so-called reeducation from poor peasants. The young people in Guangdong province, especially in Guangzhou City, were luckier than in other provinces because they were close to Hong Kong and had chances to risk their lives to escape. The lucky ones had chances to climb up Mount Wutong and walk down the Swallow Cliff to enter the New Territories in Hong Kong by climbing over barbed wires and swimming across the Deep Bay in the west or Mirs Bay in the east; it was the turning point of their lives. However, the bad-luck fugitives would break their legs when stepping in the wild boar trap, lose their lives with poisonous snakebites, become meals for the sharks, or drowned in the sea; they had sacrificed their precious lives for freedom. How could the local people with inherent freedom feel the unforgettable joy to set the feet successfully on the free land New Territories and deeply inhale the fresh air there? How could most people understand the feeling of sorrow and helplessness to face brothers or friends dying tragically and unable to help with their hands? The deceased had been long gone and the survivors moved on. There always is worship in heart during Qingming or Chongjiu memorial days, but how can a chicken, a pot of wine, a bouquet of flowers, or a bundle of incense be enough to express the lifelong grief? I hope this book will give survivors a little precious memory and the deceased an eternal remembrance.

*Tough As Fine Silk: Escape from Beijing* Uta Christensen,2012-04-01 Tough as Fine Silk is a fast-paced, intricate and subtly alluring tale of love, betrayal and a journey through China's colorful, fascinating and monumental history. Michael Sorensen, a young Californian, has a serendipitous as well as frightening encounter on China's Great Wall. A beautiful young Chinese woman, Li Juan, trips on a steep stairway above him and falls literally into his arms. If he hadn't caught her, Juan could have been killed. Michael works in Beijing as an electronics engineer. Juan is the star attraction at Beijing's elegant Blue Moon night club. The club owners' most precious asset is Juan – gorgeous, sociable, self-educated and independent. Juan decides to leave the Blue Moon for a day job to spend more time with Michael. Shortly thereafter, with seeming intent, a hit-and-run accident totals Michael's car. He is shaken, but unharmed. Hearing about the accident, Juan is terrified. After some contemplation, she believes that her former bosses may mean Michael harm and her as well. The couple flees Beijing. Leaving everything behind, they embark on a long train journey to Guangzhou that takes them through China's ancient and recent past. With greater distance from Beijing, the couple feels safer and falls passionately in love. Ultimately it is Juan, embodying her unfathomable country, who causes events to take unexpected and traumatic turns.

**A Diplomat in Guangzhou (Canton)** Samuel Wong,2007-05-09 Guangzhou, a gateway to China, is the best-kept secret for most Western traders, yet it is more dynamic and substantial as a trading center than Shanghai and Beijing. In addition to showing the ins and outs of import practices in China, the author recounts what it was like to live and work in one of the busiest cities in Asia. He shows the advantages of knowing Chinese language and culture, and ways to develop and cultivate an indigenous business network. Readers interested in trading with China will find practical tips on how to live and work successfully in China in this book.

While stoically dealing with racial abuse in a country where Africans are known as black ghosts, he is too timid to engage in the money-making schemes available to students. Yet he remains haunted by the weight of his mother's expectations, encapsulated by the image of the African fish eagle. But the best he can do is a safe job in a bar run by the enigmatic Wang. Things take a dramatic turn when Chinese students pour into the streets in an orgy of violence to drive Africans out of town. Dan's first impulse is to escape to Zimbabwe but the pressure from his family and the love for his girlfriend Lai Ying force him to stay put. **Rise of the Consumer in Modern China** Wang Ning, 2012-12-01 A unique and far-reaching study of China's contemporary social changes from the perspectives of consumption and consumerism. China has undergone profound social changes, with far-reaching consequences on all walks of life since reform began thirty years ago. To fully understand China's transformation, the landscape must be surveyed from the perspective of consumption, where you can find many intrinsic links between seemingly unrelated aspects of social reform. The Rise of the Consumer in Modern China is the result of a seven-year research campaign conducted by leading Chinese academic Wang Ning. Detailed and comprehensive, it cites numerous policy documents and source material generated from interviews, alongside data, expert commentary and conclusions. The transformation from asceticism to consumerism is a vital factor when considering China's economic and social reforms. Authoritative and richly detailed, this important new book offers a revealing and unique insight into a key aspect of China's opening up. During the most recent thirty years not only have there been revolutionary changes in consumer behavior, furthermore the role of consumption in driving the evolution of society has become un-ignorable. It is vital to study and analyze the changes in Chinese consumption before and after China's opening-up from a sociological perspective. This key book explores the Chinese urban consumption system and the evolution of the ideological concept of consumption by examining a huge number of governmental documents and records.

*No Price Too Great* Lee Solomon, 2010-08 In often raw emotional terms, *No Price Too Great* tells the story of a Chinese businesswoman and an American lawyer who met and fell in love while they lived in separate worlds. The book illustrates the difficulties, hopes, dreams, fears, and the sometimes crushing and overpowering emotions experienced when trying to bring three people from two totally different cultures into one family. Author Lee Solomon deals openly and candidly with differences in age, race, and culture between two lovers both before and after they became husband and wife impacted their lives. It also shows the prejudice that exists in surprising places and in surprising ways, even within the same race. Ultimately the book tells the story of a love that would not be denied: the story of an American man, a Chinese woman, and a Chinese girl whose bond became so strong that nothing could keep them from becoming a family. Within this beautiful love story is the compelling and touching story about a teenage Chinese girl who had never known a father. It tells how she came to love and accept a round eyed man who lived on another continent as her own father, and how he in turn came to love her as his own daughter. It also tells how in the end it was their devotion to each other and to the woman they both loved that helped overcome the most difficult obstacle they faced before they could finally fulfill their lifelong dream of having a warm and loving family.

**Learning from SARS** Institute of Medicine, Board on Global Health, Forum on Microbial Threats, 2004-04-26 The emergence of severe acute respiratory syndrome (SARS) in late 2002 and 2003 challenged the global public health community to confront a novel epidemic that spread rapidly from its origins in southern China until it had reached more than 25 other countries within a matter of months. In addition to the number of patients infected with the SARS virus, the disease had profound economic and political repercussions in many of the affected regions. Recent reports of isolated new SARS cases and a fear that the disease could reemerge and spread have put public health officials on high alert for any indications of possible new outbreaks. This report examines the response to SARS by public health systems in individual

countries, the biology of the SARS coronavirus and related coronaviruses in animals, the economic and political fallout of the SARS epidemic, quarantine law and other public health measures that apply to combating infectious diseases, and the role of international organizations and scientific cooperation in halting the spread of SARS. The report provides an illuminating survey of findings from the epidemic, along with an assessment of what might be needed in order to contain any future outbreaks of SARS or other emerging infections.
