Design Noir Anthony Dunne, Fiona Raby, 2001 Dunne and Raby investigate the real physical and cultural effects of the digital domain, demonstrating that mobile phones, computers and other electronic objects such as televisions profoundly influence people's experience of their environment. Their ideas have important implications for architecture and design. In this, their first major book, they introduce their extraordinary new way of thinking about objects, space and behaviour to a broad audience. The book is divided into three sections: 1. Manifesto, introducing the authors' ideas about electromagnetic space. 2. Conversations, in which Dunne and Raby talk to a variety of designers, architects and artists about the impact electronic technology has on their practice. 3. Placebo, presenting the intriguing results of a project involving Dunne and Raby's working furniture prototypes, including a chair that lets the sitter know when radiation is passing through his body.

Living the Low Carb Life Pocket Carb Counter Jonny Bowden, 2004-12-30 From the author of the bestselling *Living the Low Carb Life* (more than 100,000 copies sold) comes an indispensable reference to help dieters maintain their controlled-carbohydrate lifestyle—both in the kitchen and on the go. To stay on a low-carb regimen, dieters—and others just trying to eat healthily—need facts: what's a good side dish to have with that fish? Is it okay to order that delicious-sounding special at the restaurant? Certified nutrition specialist and bestselling author Jonny Bowden provides the information, in a handy, portable pocket guide to making smart carb-conscious food choices. It contains the net carb, calorie, protein, fat, and fiber counts for more than 2,000 foods, as well as nutritional data for the new low-carb products on the market. Plus, there's valuable information on sugar alcohols, essential Omega fats, the glycemic index and blood sugar levels, and Bowden's own expert individual food recommendations. Jonny Bowden, M.A., C.N.S., is a certified nutrition

specialist, a former personal trainer, and the resident nutrition and weight loss expert on ivillage.com. Author of Living the Low-Carb Life, Bowden also makes frequent appearances on television and radio shows, runs a busy nutrition consulting practice in Los Angeles, and can be reached via his website, JonnyBowden.com.

Lived Life: the Counter Double Bluff DaMond Davis, 2017-02-01 No one said it would be easy, but we all have to do it. We all are bound to repay our debts, some pay sooner than others. Candis, the hardcore professionalist, takes no prisoners and cares only for one person; Herself. She does what she wants and when she wants - no questions asked, no strings attached and she doesn't care whose feelings are hurt in the process. Sydney is a young woman who has lived for her son and herself after the tragic accident that killed her boyfriend. She has always done what needs to be done, and being a single mother has compelled her to push her limits. She is not living the life she desired, but she's making it work for her family. Lance, the all-American, provides the male

perspective to lived life. He shows what happens when you have a perfect family and a tragedy happens. His resilience is admirable and gives us the one most vital element for survival, Hope. The stories of these characters are meant to add value to your experiences and hopefully give you something to draw strength from as you navigate through life. Some of them may entertain you, some may stir your deepest emotion; either way, this is lived life and we are yet to live it. The stories are a captivating and genuine depiction of one's life, the choices made and delectable passions. I want you to know that you are not alone, and many of the people in these stories, just like you, didn't stop where they started. They continued to progress and mature. Please enjoy. Read with empathy, fear, and love, and find hope in the reality of lived life.

After Sundown Mark Morris, 2020-10-20 NOMINATED FOR A SHIRLEY JACKSON AWARD AND BRITISH FANTASY AWARD This rich and masterful collection of horror highlights both up-and-coming and established authors in an interesting twist on the standard anthology [...] Highly recommended for longstanding horror fans and those readers who may not think horror is for them. There is something for everyone in this one. — Booklist This new anthology contains 20 original horror stories, 16 of which have been commissioned from some of the top names in the genre, and 4 of which have been selected from the 100s of stories sent to Flame Tree during a 2-week open submissions window. It is the first of what will hopefully become an annual, non-themed horror anthology of entirely original stories, showcasing the very best short fiction that the genre has to offer. Dispatches from the Sweet Life William Powers, 2018-08-01 Many fantasize about dramatically changing their lives — living in accordance with their ideals rather than the exigencies of job, bills, and possessions. William Powers actually does it. In his book *Twelve by Twelve*, Powers lived in an off-grid tiny house in rural North Carolina. In *New Slow City*, he and his wife, Melissa, inhabited a Manhattan micro-apartment in search of slow in the fastest city in the world. Here, the couple, with baby in tow, search for balance, community, and happiness in a small town in Bolivia. They build an adobe house, plant a prolific orchard and organic garden, and weave their life into a community of permaculturists, bio-builders, artists, and creative businesspeople. Can this Transition Town succeed in the face of encroaching North American capitalism, and can Powers and the other settlers find the balance they're seeking? *Dispatches from the Sweet Life* is compelling, sobering, thought-provoking, and, no matter the outcome, inspiring.

Brief Narrative Practice in Single-Session Therapy Scot J. Cooper, 2024-03-21 *Brief Narrative Practice in Single-Session Therapy* emphasizes collaboration, meaning making, and relational ethics in single-session conversations. Chapters provide a thorough orientation to the therapy and address the diverse circumstances clinicians face in these conversations. Separating from many long-held

traditions in therapy, this book explores a guiding framework and the accompanying micro-skills that therapeutic conversations demand. In these pages, readers will learn how to recalibrate their listening habits and talk differently about problems in ways that help them quickly hear and generate possibilities. All those who provide psychotherapy, counselling, and coaching in time-constrained contexts will find this book useful and engaging, including those working in crisis and call-in settings, walk-in clinics, medical centres, and live-in contexts where change conversations are brief.

Biographica Scoticana: Or a Brief Historical Account of the Lives, Characters, and Memorable Transactions of the Most Eminent Scots Worthies, Noblemen, Gentlemen, Ministers, and Others, 1781

The Fate of Phenomenology William McNeill, 2020-08-16 It can be easily argued that the radical nature and challenge of Heidegger's thinking is grounded in his early embrace of the phenomenological method as providing an access to concrete lived experience (or "factual life," as he called it) beyond the imposition of theoretical constructs such as "subject" and "object," "mind" and "body." Yet shortly after the publication of his groundbreaking work *Being and Time*, Heidegger appeared to abandon phenomenology as the method of philosophy. Why? Heidegger was conspicuously quiet on this issue. Here, William McNeill examines the question of the fate of phenomenology in Heidegger's thinking and its transformation into a "thinking of Being" that regards its task as that of "letting be." The relation between phenomenology and "letting be," McNeill argues, is by no means a straightforward one. It poses the question of whether, and to what extent, Heidegger's thought of his middle and late periods still needs phenomenology in order to accomplish its task—and if so, what kind of phenomenology. What becomes of phenomenology in the

course of Heidegger's thinking?

Stochastic Geometric Mechanics Sergio Albeverio, Ana Bela Cruzeiro, Darryl Holm, 2017-11-17
Collecting together contributed lectures and mini-courses, this book details the research presented in a special semester titled "Geometric mechanics - variational and stochastic methods" run in the first half of 2015 at the Centre Interfacultaire Bernoulli (CIB) of the Ecole Polytechnique Fédérale de Lausanne. The aim of the semester was to develop a common language needed to handle the wide variety of problems and phenomena occurring in stochastic geometric mechanics. It gathered mathematicians and scientists from several different areas of mathematics (from analysis, probability, numerical analysis and statistics, to algebra, geometry, topology, representation theory, and dynamical systems theory) and also areas of mathematical physics, control theory, robotics, and the life sciences, with the aim of developing the new research area in a concentrated joint effort, both from the theoretical and applied points of view. The lectures were given by leading specialists in different areas of mathematics and its applications, building bridges among the various communities involved and working jointly on developing the envisaged new interdisciplinary subject of stochastic geometric mechanics.

Deep Care Angela Hume, 2023-11-14 The story of the radical feminist networks who worked outside the law to defend abortion. Starting in the 1970s, small groups of feminist activists met regularly to study anatomy, practice pelvic exams on each other, and learn how to safely perform a procedure known as menstrual extraction, which can empty the contents of the uterus in case of pregnancy using equipment that can be easily bought and assembled at home. This “self-help” movement grew into a robust national and international collaboration of activists and health workers determined to ensure access to reproductive healthcare, including abortion, at all costs—to the point of learning how to do the necessary steps themselves. Even after abortion was legalized in 1973 with *Roe v. Wade*, activists continued meeting, studying, and teaching these skills, reshaping their strategies alongside decades of changing legal, medical, and cultural landscapes such as the legislative war against abortion rights, the AIDS epidemic, and the rise of anti-abortion domestic terrorism in the 1980s and 90s. The movement’s drive to keep abortion accessible led to the first clinic defense mobilizations against anti-abortion extremists trying to force providers to close their doors. From the self-help movement sprang a constellation of licensed feminist healthcare clinics, community programs to promote reproductive health, even the nation’s first known-donor sperm bank, all while fighting the oppression of racism, poverty, and gender violence. *Deep Care* follows generations of activists and clinicians who orbited the Women’s Choice clinic in Oakland from the early 1970s until 2010, as they worked underground and above ground, in small cells and broad coalitions and across political movements with grit, conviction, and allegiances of great trust to do what they believed needed to be done—despite the law, when required. Grounded in interviews of activists sharing details of their work for the first time, Angela Hume retells three decades of this

critical, if under-recognized story of the radical edge of the abortion movement. These lessons are more pertinent than ever following the Supreme Court's 2022 Dobbs v. Jackson decision and the devastation to abortion access nationwide.
