James M. Rippe

Improving Women's Health Across the Lifespan Michelle Tollefson, Nancy Eriksen, Neha Pathak, 2021-10-24 The book is an evidence-based source of information on women's health issues for health professionals already practicing lifestyle medicine, as well as an entry level textbook for those new to the field of lifestyle medicine. The collective expertise of each of the editors along with content provided by leaders within the American College of Lifestyle Medicine fills a much-needed void within the specialty of Lifestyle Medicine and is for providers of women's health globally.

Encyclopedia of Health and Aging Kyriakos S. Markides, 2007-04-13 The Encyclopedia of Health and Aging presents state-of-the-art research and ready-to-use facts on health and aging. This one-volume resource captures some of the excitement of the research in the field in terms of new findings as well as conceptual developments guiding research, practice, and policy. With more than 200 entries, it covers the biological, psychological, social, and economic aspects of health and aging and impacts within the health-care system. This Encyclopedia also focuses heavily on geriatrics with respect to geriatric syndromes and common diseases of aging.

Routledge Handbook of Wine Tourism Saurabh Kumar Dixit, 2022-11-25 Wine tourism or enotourism or oenotourism or winery tourism or vinitourism is a special interest tourism that empowers local culture and spawns business opportunities for the local community. The comprehensive Routledge Handbook of Wine Tourism offers a thorough inquiry into both regular and emerging issues of wine tourism. Modern wine tourism extends beyond the mere cultivation of grapes and the production and selling of wine. The Routledge Handbook of Wine Tourism examines the complex interplay of market profiling, sustainable regional development, and innovative experiential marketing constructs which, when successful, contribute to the growth and sustainable evolution of global wine tourism. This handbook examines how the success of various enotourism events such as vineyard visits, winery tours, wine festivals and wine trails can stimulate the development of wine-producing regions and territories. Incorporating the latest philosophies and research themes, this handbook will be an essential reference for students, researchers, academics and industry practitioners of hospitality and tourism, gastronomy, management, marketing, cultural studies, development studies, international business and for encouraging dialogue across disciplinary boundaries.

Integrative Geriatric Medicine Mikhail Kogan, 2017-12-05 This work summarizes a patient-centered, wholistic approach to medical care of the elderly. Deeply rooted in life style interventions such as nutrition, movement therapies, and mind-body and spirituality approaches integrative geriatrics allows patients to have different path to their healthcare, one that utilizes pharmaceuticals and invasive procedures only when safer integrative approaches are not available or not effective.--[Source inconnue].

Exploring Lifespan Development Laura E. Berk, 2022-07-26 Exploring Lifespan Development, Fourth Edition, the essentials version of Development Through the Lifespan, Seventh Edition by best-selling author Laura E. Lifestyle Medicine, Second Edition James M. Rippe, 2013-03-15 There is no doubt that daily habits and actions exert a profound health impact. The fact that nutritional practices, level of physical activity, weight management, and other behaviors play key roles both in the prevention and treatment of most metabolic diseases has been recognized by their incorporation into virtually every evidence-based medical guideline. Despite this widespread recognition, physicians and other healthcare workers often cannot find a definitive and comprehensive source of information on all of these areas. Designed for physicians and other health care workers, Lifestyle Medicine, Second Edition brings together evidence-based research in multiple health-related fields to assist practitioners both in treating disease and promoting good health. Sections cover nutrition and exercise, behavioral psychology, public policy, and management of a range of disorders, including cardiovascular disease, endocrine and metabolic dysfunction, obesity, cancer, immunology and infectious diseases, pulmonary disorders, and many more.

Integrative Weight Management Gerard E. Mullin, Lawrence J. Cheskin, Laura E. Matarese, 2014-05-03 Integrative Weight Management: A Guide for Clinicians intends to educate physicians and nutritionists about the wide ranges of approaches to weight control from non-traditional sources. The options for weight management in conventional practices are limited to a small number of medications, a confusing array of dietary approaches and surgical procedures with their inherent risks and complications. Unfortunately medical practitioners are not exposed to nutrition and weight control principles during training and thus are reluctant to manage their patients weight control issues. This volume is structured into 4 sections: Introduction to Weight Management Disorders; Morbidity and Mortality of Obesity; Therapy of Obesity; and Integrative Medicine and Obesity. Integrative Weight Management: A Guide for Clinicians represents a powerful collaboration of dozens of leading experts in the fields of nutrition, weight management and integrative medicine who have managed countless numbers of patients and summarized the research from thousands of articles to create an up-to-date state of the art guide for healthcare practitioners, allied health professionals and public health authorities who manage those who are overweight/obese along with the associated metabolic consequences.

The Gallup Poll Alec M. Gallup, Frank Newport, 2008 As the only complete compilation of polls taken by the Gallup Organization, The Gallup Poll is an invaluable tool for ascertaining the pulse of American public opinion throughout the year and for documenting changing perceptions over time of crucial core issues.

Cases in Differential Diagnosis for the Physical and Manipulative Therapies Robyn Beirman, 2011-10-01 A must-have physical and manipulative therapy case book to facilitate confident diagnosis *Cases in Differential Diagnosis for the Physical and Manipulative Therapies: a Case Based Approach* is a high-quality Australian case book ideal for students studying physical and manipulative therapy. This physical and manipulative therapy textbook facilitates development of the skills students and therapists need to reach a final diagnosis or differential diagnosis with confidence. *Cases in Differential Diagnosis for the Physical and Manipulative Therapies* features more than 225 clinical presentations in differential diagnosis. All cases are presented in four life stages – infancy and childhood, adolescence, the adult years and the later or elderly years – and each life stage covers a broad range of differential clinical topics. With this physical and manipulative therapy text, students will gain valuable insight into scenarios commonly encountered in clinical practice, while developing and refining their diagnostic skills. Cases include unsteadiness and vertigo in the elderly, fever in infancy and childhood, reproductive disturbances in women, and eating disorders, substance abuse and behavioural disturbances in adolescence. Over 35 experts from diverse fields have contributed to *Cases in Differential Diagnosis for the Physical and Manipulative Therapies*, which also boasts comprehensive appendices featuring abbreviations, orthopaedic tests and extra questions. As physical and manipulative therapists often find themselves in the role of the primary contact practitioner, it is imperative they are trained to identify underlying medical problems that may require referral to a medical practitioner. With this invaluable diagnostic resource they can do just that.

Food Quality: Balancing Health and Disease Alexandru Mihai Grumezescu, Alina Maria Holban, 2018-02-03 *Food Quality: Balancing Health and Disease*, Volume Thirteen in the Handbook of Food Bioengineering series, provides essential information for researchers, scientists and students on the relationship between the quality of foods and disease at the biological level. It presents different technological approaches to detect food properties and their capabilities for balancing health and disease to deliver high-quality products to consumers. This volume explores the dynamic potential of how food bioengineering can improve traditional foods through modern methods to make a positive impact on human health and foster innovation. Provides information on how bioavailability of nutrients and food formulation can be used to prevent or improve disease Includes the most recent research methods of metabolomics and genomics to detect best outcomes Includes innovative applications for anti-aging effects and curative properties in foods Presents research examples on how both human gut microbiota and food components control the way certain organisms develop and react in different environmental conditions

Master Your Diabetes Mona Morstein, 2017 The evidence is clear: We are in the midst of a worldwide diabetes epidemic. In the United States alone, one in three Americans is either diabetic (29 million patients) or prediabetic (87 million patients), costing an annual \$242 billion in medical treatments. In *Master Your Diabetes*, naturopathic physician and diabetes expert Dr. Mona Morstein shows how people with both type 1 and type 2 diabetes can gain and maintain excellent control of their blood sugar levels, preventing and even reversing existing complications through education combined with medical support and encouragement. This is the first comprehensive guide for patients, caregivers, and medical practitioners to demonstrate an integrative approach based on the eight essentials of treatment and prevention: a low-carb diet, exercise, good sleep, stress management, healing the gut, detoxification, supplementation, and medications. Topics covered include: Important physical exams and lab work Conventional diets and non-insulin medications Insulin Low-carb diets and how they apply to different food groups Lifestyle factors, including exercise, stress management, and the microbiome Diabetic supplementation Pediatric diabetes An indispensable resource, *Master Your Diabetes* will empower readers to take control of their condition and continue living full, active, enjoyable, and long lives.
