PRE OWNED CAR MARKET IN KERALA: A MODEL LINKING ATTITUDES, PRODUCT AND DEALER RELATED FACTORS TO POST PURCHASE BEHAVIOUR Dr. Deepthi Sankar,Dr. Zakkariya K.A.,

The Politics of Linking Schools and Social Services Louise Adler,Sid Gardner,1994 Over the years, arguments have been raised for and against linking schools and social services, and the merits or otherwise of each system. This volume brings together research and public policy issues to focus on the new framework of service provision.

School-Linked Services Laura R. Bronstein,Susan E. Mason,2016-05-24 The evidence-based strategies in this volume close the achievement gap among students from all sociological backgrounds. Designed according to local needs assessments, they provide the services, programs, initiatives, and relationships that are crucial for children's success in school and life. These practices and programs include afterschool and summer sessions, early-childhood education, school-linked health and mental health services, family engagement, and youth leadership opportunities. This book addresses the policy and funding requirements that help these partnerships thrive and offers effective counterarguments against those who would question their value. The text describes strategies that work in both rural and urban contexts and includes a chapter evaluating school-community partnerships across the world. Because it involves collaborations across professions and organizations, the book's interdisciplinary approach will appeal to those in social work,

education, psychology, public health, counseling, nursing, and public policy.

Electronic Processes in Organic Electronics Hisao Ishii, Kazuhiro Kudo, Takashi Nakayama, Nobuo Ueno, 2015-01-07 The book covers a variety of studies of organic semiconductors, from fundamental electronic states to device applications, including theoretical studies. Furthermore, innovative experimental techniques, e.g., ultrahigh sensitivity photoelectron spectroscopy, photoelectron yield spectroscopy, spin-resolved scanning tunneling microscopy (STM), and a material processing method with optical-vortex and polarization-vortex lasers, are introduced. As this book is intended to serve as a textbook for a graduate level course or as reference material for researchers in organic electronics and nanoscience from electronic states, fundamental science that is necessary to understand the research is described. It does not duplicate the books already written on organic electronics, but focuses mainly on electronic properties that arise from the nature of organic semiconductors (molecular solids). The new experimental methods introduced in this book are applicable to various materials (e.g., metals, inorganic and organic materials). Thus the book is also

useful for experts working in physics, chemistry, and related engineering and industrial fields.

Nothing exemplifies these bonds more than the one between children and their mothers. As we observe Mother's Day, the Cover Story explores the many nuances and facets of the unconditional relationship between a mother and her child - from a common thread of entrepreneurship and creativity to shared passions and likes.

Another India Pratinav Anil,2023-11-27 Another India tells the story of the world's biggest religious minority through vivid biographical portraits that weave together the stories of both elite and subaltern Muslims. By challenging traditional histories and highlighting the neglect of minority rights since Independence, Pratinav Anil argues that Muslims, since 1947, have had to contend with discrimination, disadvantage, deindustrialization, dispossession and disenfranchisement, as well as an unresponsive leadership. He explores the rise and fall of the Indian Muslim elite and the birth of the nationalist Muslim, and emphasizes the importance of class in understanding the dynamics of Indian politics. Anil also sheds light on the vested custodial interests and the depoliticization of the privileged classes, all of which resulted in the elite betrayal by the landed gentry of the ordinary members of the community, a betrayal whose consequences are still felt by India's 200 million Muslims today. Another India ultimately recovers Muslim agency from the back pages of history and offers a different picture of democratic India, challenging received accounts of the world's largest democracy.

Worldwide Volunteering, 2004 This book demonstrates the enormous range of opportunities that exist around the world. There is something for everyone. - from the Foreword by Richard Branson

Riverine Systems Abhijit Mukherjee, 2022-02-08 This book provides a unique opportunity to integrate the knowledge on regional-scale riverine reviews to local-scale case-studies, ranging from availability to pollution, national-level river management to transboundary governance. It is an unparalleled attempt to build the bridge between the science of rivers and its history and socio-politics, thus articulating the due credence of rivers from ancient civilizations to modern human societies. The chapters in this book are organized by the sub-sections of i) Hydrology, ii) Hydrosocial and iii) Hydro-heritage, thus providing a unique knowledge on the river studies for historians, scientists, planners, social scientists and policymakers, and are written by leading experts and researchers from across the globe.

The Jews of India Orpa Slapak, 1995 Jews of India, one of the lesser-known and perhaps most interesting of the Diaspora, comprise the three geographically and ethnographically distinct communities examined in The Israel Museum's unique and authoritative volume *The Jews of India*. The Bene Israel, the largest group at approximately 24,000 members, inhabited the Maharashtra State on India's western coast; its ties with mainstream Judaism were reestablished in the nineteenth century. The smallest and oldest of the Indian Jewish communities, the Jews of Cochin have been a presence on the Malabar Coast of southwestern India for at least a thousand years. They numbered about 2,500 in the mid-1950's, just prior to

their immigration to Israel. The Baghdadi Jews migrated from Iraq and Syria to large commercial cities in western and eastern India in the late eighteenth century. Numbering about 5,000 at the population's peak, Baghdadi Jews were largely assimilated into British colonial society, did not develop a distinct material culture in India, and so are a relatively minor presence in this book. Esteemed editor Orpa Slapak spearheaded studies of all three Indian Jewish communities in Israel and in India, and has assembled a vivid and powerful portrait of these peoples. The text is profusely illustrated with striking color and black and white photographs of Indian Jews at home, work, prayer, and leisure, as well as a multitude of remarkable Indian Jewish artifacts, including illuminated manuscripts, lamps, clothing, jewelry, and household implements. Several maps, useful glossaries, and a selected bibliography complete the volume.

Re-exploring the Links Jorge Manuel Flores, 2007 The island of Ceilao occupied a permanent and singular place in the political imagination of early modern Portugal. Concurrently, the Portuguese left a strong imprint in the Sri Lankan collective memory of the period. Five centuries later, a group of historians, art historians, anthropologists, and linguists reflect on the multiple dimensions of this phenomenon by rethinking texts and maps, ruined churches and ivory caskets, oral tales and Creole communities. Authored by 15 international scholars, *Re-exploring the Links* is divided in four parts: Political Realities and Cultural Imagination; Religion: Conflict and Interaction; Space and Heritage: Construction, Representation; Language and Ethnicity, Identity and Memory. While published on the occasion of the Portuguese arrival in Sri Lanka five centuries ago, this book is far from being a celebratory piece. *Re-exploring the Links* does not conform to nationalist models of historical interpretation and refuses

both the rhetoric of discovery and the rhetoric of aggression. The aim of the volume is not to celebrate encounters, but to reinvent an academic debate, independent of any political agenda and concerning a history that is Portuguese and Sri Lankan alike.
