To Live and Defy in LA Felicia Viator, 2020-02-25 How gangsta rap shocked America, made millions, and pulled back the curtain on an urban crisis. How is it that gangsta rap—so dystopian that it struck aspiring Brooklyn rapper and future superstar Jay-Z as “over the top”—was born in Los Angeles, the home of Hollywood, surf, and sun? In the Reagan era, hip-hop was understood to be the music of the inner city and, with rare exception, of New York. Rap was considered the poetry of the street, and it was thought to breed in close quarters, the product of dilapidated tenements, crime-infested housing projects, and graffiti-covered subway cars. To many in the industry, LA was certainly not hard-edged and urban enough to generate authentic hip-hop; a new brand of black rebel music could never come from La-La Land. But it did. In *To Live and Defy in LA*, Felicia Viator tells the story of the young black men who built gangsta rap and changed LA and the world. She takes readers into South Central, Compton, Long Beach, and Watts two decades after the long hot summer of 1965. This was the world of crack cocaine, street gangs, and Daryl Gates, and it was the environment in which rappers such as Ice Cube, Dr. Dre, and Eazy-E came of age. By the end of the 1980s, these self-styled “ghetto reporters” had fought their way onto the nation’s radio and TV stations and thus into America’s consciousness, mocking law-and-order crusaders, exposing police brutality, outraging both feminists and traditionalists with their often retrograde treatment of sex and gender, and demanding that America confront an urban crisis too often ignored.

To Live and Die in L.A. Gerald Petievich, 1984 Treasury agent Richard Chance that will not stop at nothing to catch a top notch funny money maker, Rick Masters. Chance's partner agent John Vukovich who comes from a family of police officers torn between backing up his out of control partner and listening to his mentor Veteran Agent Jim Hart.

Everything Now Rosecrans Baldwin, 2021-06-15 A LOS ANGELES TIMES BESTSELLER. NAMED A BEST CALIFORNIA BOOKS OF 2021 BY THE NEW YORK TIMES A provocative, exhilaratingly new understanding of the United States’ most confounding metropolis—not just a great city, but a full-blown modern city-state America is obsessed with Los Angeles. And America has been thinking about Los Angeles all wrong, for decades, on repeat. Los Angeles is not just the place where the American dream hits the Pacific. (It has its own dreams.) Not just the vanishing point of America’s western drive. (It has its own compass.) Functionally, aesthetically, mythologically, even technologically, an independent territory, defined less by distinct borders than by an aura of autonomy and a sense of unfurling destiny—this is the city-state of Los Angeles. Deeply reported and researched, provocatively argued, and eloquently written, Rosecrans Baldwin's *Everything Now* approaches the metropolis from unexpected angles, nimbly interleaving his own voice with a chorus of others, from canonical L.A. literature to everyday citizens. Here, Octavia E. Butler and Joan Didion are in conversation with activists and astronauts, vampires and veterans. Baldwin records the stories of countless Angelenos, discovering people both upended and reborn: by disasters natural and economic, following gospels of wealth or self-help or personal destiny. The result is a story of a kaleidoscopic, vibrant nation unto itself—vastly more than its many, many parts. Baldwin’s concept of the city-state allows us, finally, to grasp a place—Los Angeles—whose idiosyncrasies both magnify those of America, and are so fully its own. Here, space and time don’t quite work the same as they do elsewhere, and contradictions are as stark as southern California’s natural environment. Perhaps no better place exists to watch the United States’s past, and its possible futures, play themselves out. Welcome to Los Angeles, the Great American City-State.

Los Angeles A. M. Homes, 2011-06-15 The surreal City of Angels is a unique amalgam of past and present, tradition and revolution, dreamscape and reality. Whether in history books or on the silver screen, the Los Angeles landscape has long served as an ever-shifting backdrop against which countless American anxieties and aspirations play out. New York-based novelist and short-story writer A. M. Homes distills the elusive, quixotic splendor of this most beguiling of great American

cities. She checks us into the famed hotel Chateau Marmont and uses life at this iconic landmark as a multifaceted prism through which to view and experience Los Angeles culture, past and present. Built in the 1920s, the Chateau Marmont is where the famous and infamous have always come to stay— for a few days or months at a time—and sometimes, to die.

A People's Guide to Los Angeles Laura Pulido, Laura R. Barraclough, Wendy Cheng, 2012-04-23 A People's Guide to Los Angeles offers an assortment of eye-opening alternatives to L.A.'s usual tourist destinations. It documents 115 little-known sites in the City of Angels where struggles related to race, class, gender, and sexuality have occurred. They introduce us to people and events usually ignored by mainstream media and, in the process, create a fresh history of Los Angeles. Roughly dividing the city into six regions—North Los Angeles, the Eastside and San Gabriel Valley, South Los Angeles, Long Beach and the Harbor, the Westside, and the San Fernando Valley—this illuminating guide shows how power operates in the shaping of places, and how it remains embedded in the landscape.

Los Angeles Anton Wagner, 2022-07-12 For the first time, Anton Wagner's groundbreaking 1935 book that launched the study of Los Angeles as an urban metropolis is available in English. No book on the emergence of Los Angeles, today a metropolis of more than four million people, has been more influential or elusive than this volume by Anton Wagner. Originally published in German in 1935 as *Los Angeles: Werden, Leben und Gestalt der Zweimillionenstadt in Südkalifornien*, it is one of the earliest geographical investigations of a city understood as a series of layered landscapes. Wagner demonstrated that despite its geographical disadvantages, Los Angeles grew rapidly into a dominant urban region, bolstered by agriculture, real estate development, transportation infrastructure, tourism, the oil and automobile industries, and the film business. Although widely reviewed upon its initial publication, his book was largely forgotten until reintroduced by architectural historian Reyner Banham in his 1971 classic *Los Angeles: The Architecture of Four Ecologies*. This definitive translation is annotated by Edward Dimendberg and preceded by his substantial introduction, which traces Wagner's biography and intellectual formation in 1930s Germany and contextualizes his work among that of other geographers. It is an essential work for students, scholars, and curious readers interested in urban geography and the rise of Los Angeles as a global metropolis.

Life in a Suburban City Lizann Flatt, 2010 Life in a Suburban City looks at living in cities that have spread from the center far into the countryside. Many people live and work in areas that are miles from downtown. Los Angeles, California is the featured example, and focuses on family life in a typical suburb.

To Live and Drink in L.A. Ben Peller, 2011-04-01 If David Sedaris, Chelsea Handler, and Charles Bukowski had ever consummated a threesome, the result would most likely be Shawn Michals, the protagonist of *TO LIVE AND DRINK IN L.A.* This series of semi-autobiographical stories follows Shawn as he moves from the Midwest to Los Angeles, and deals with topics such as his stubborn refusal to own either a car or a cellphone, his use of pro wrestling to deal with his manic-depressive mother's suicide, finding meaning in menial jobs, and many other adventures. Like Shawn often does, readers of this work may find themselves in uncharted territory, while at the same time discovering how one can learn lessons and experience growth in the most unlikely of places, even in a city many people believe to be shallower than a puddle. If a phone call from a telemarketer can lead to spearheading a march on the Pentagon, as it does for Shawn, anything is possible in the City of Angels. Cheers. Ben Peller has a fine eye and a wonderful ear, but most of all and best of all, he writes with his heart. - Bob Greene, best-selling author of *BE TRUE TO YOUR SCHOOL*

Hollywood and the Best of Los Angeles Alive Robert White, Phyllis White, 2002 Los Angeles and its suburbs have been attracting stars since film was invented, and hundreds have now opted to make their home there. The authors of this guide to the area wrote for film and TV in the Hollywood studios and know the industry intimately. They both grew up in Hollywood and lived there most of their lives. Join them on this tour of the neighborhoods of the rich and famous and of the ritzy shopping avenues. Sightseeing is also covered, with information about trips to the nearby beach towns, west LA, the foothills and Palm Springs.

L.A. City Limits Josh Sides, 2004-01-27 In 1964 an Urban League survey ranked Los Angeles as the most desirable city for African Americans to live in. In 1965 the city burst into flames during one of the worst race riots in the nation's history. How the city came to such a pass—embodying both the best and worst of what urban America offered black migrants from the South—is the story told for the first time in this history of modern black Los Angeles. A clear-eyed and compelling look at black struggles for equality in L.A.'s neighborhoods, schools, and workplaces from the Great Depression to our day, *L.A. City Limits* critically refocuses the ongoing debate about the origins of America's racial and urban crisis. Challenging previous analysts' near-exclusive focus on northern rust-belt cities devastated by de-industrialization, Josh Sides asserts that the cities to which black southerners migrated profoundly affected how they fared. He shows how L.A.'s diverse racial composition, dispersive geography, and dynamic postwar economy often created opportunities—and limits—quite different from those encountered by blacks in the urban North.

Building Downtown Los Angeles Leland T. Saito, 2022-07-26 From the 1970s on, Los Angeles was transformed into a center for entertainment, consumption, and commerce for the affluent. Mirroring the urban development trend across the nation, new construction led to the displacement of low-income and working-class racial minorities, as city officials targeted these neighborhoods for demolition in order to spur economic growth and bring in affluent residents. Responding to the displacement, there emerged a coalition of unions, community organizers, and faith-based groups advocating for policy change. In *Building Downtown Los Angeles* Leland Saito traces these two parallel trends through specific construction projects and the backlash they provoked. He uses these events to theorize the past and present processes of racial

formation and the racialization of place, drawing new insights on the relationships between race, place, and policy. Saito brings to bear the importance of historical events on contemporary processes of gentrification and integrates the fluidity of racial categories into his analysis. He explores these forces in action, as buyers and entrepreneurs meet in the real estate marketplace, carrying with them a fraught history of exclusion and vast disparities in wealth among racial groups.
