The Story of the Olympic Torch Philip Barker, 2012-04-15 Traces the development of the run, the lighting of the cauldron and other symbolic elements of the Olympic Games

Running Towards Sydney 2000 Janet Cahill, 1999-01-01 AMP is the presenting Partner of the Sydney 2000 Olympic Torch Relay and is the sponsor of this unique history of the Olympic torch--back cover.

The Austerity Olympics Janie Hampton, 2012-01-01 'An enthralling account.' –Independent 'A fascinating book ... researched with an awesome thoroughness.' –Daily Telegraph 'Hampton's excellent book should be compulsory reading for everyone involved in the 2012 London Olympics.' –Daily Mail Critic's Choice The budget for the 2012 Olympic village alone is already a billion pounds short. The likelihood of corporate sponsorship recedes with every day of the credit crunch. How on earth are we going to match the opening and closing ceremonies of Beijing, let alone top them? Fortunately, London has been through just such hard times before in the run-up to an Olympics, and in 1948 it showed just how to run a fantastic Games on a tiny budget – indeed, make them all the better for it. Janie Hampton's book about the last time the Olympics came to London is a tale of female competitors sewing their own kit, teams ferried to the Games on red London buses and billeted in Spartan hostels or even army camps, and the main stadium being hastily cleared of greyhound racing to allow the athletics to take place. The total budget was £760,000, great athletes like Emil Zatopek and Fanny Blankers-Koen thrilled the crowds, and at the end a profit was turned! This is a book that becomes more relevant and ironically entertaining every day nearer to 2012.

E- Book Meena Agrawal, 2016-12-17 The E-Books is authored by proficient Teachers and Professors. The Text of the E-Books is simple and lucid. The contents of the book have been organised carefully and to the point.

The Torch Bearer Elewechi Ngozi Okike, 2013 The Torch Bearer is an incredible story of survival and resilience, in the face of a life-threatening illness. Elewechi paints a vivid picture of how shocked she was when she woke up one morning and found a lump in her breast, and the drama that unfolded. Prior to the breast cancer diagnosis, Elewechi rejected an opportunity to be one of the Torch Bearers to carry the Olympic Torch, as part of the preparations for the London 2012 Olympics. She shares how she had researched the history behind the games and why she chose not to be a Torch Bearer in this instance. While she was musing over how on earth she could have missed such a once in a life-time opportunity to be part of history, as an Olympic Torch Bearer, she suddenly found herself facing a life-threatening illness (cancer), which is a disease that most people would rather not want to be associated with. Everyone dreads the thought of being diagnosed with cancer. To make matters worse, in Elewechi's case, it was not the type of cancer that was common. Her case was further published in a medical research journal (referred to in the book). So, how do you shine your light, in other words, carry your torch for all to see (like an Olympic Torch Bearer), in the face of a life-threatening disease? Appropriately, The Torch Bearer was birthed out of the great opportunity that was missed to be an Olympic Torch Bearer. But through the experiences shared in the book, Elewechi helps the reader to appreciate the importance and the significance of being 'Torch Bearers' even in the most difficult and dark places in life. She draws attention to the fact that our

ability to shine our light at such times has a higher level impact than carrying the physical Olympic Torch. In this unique and moving book, *The Torch Bearer*, Elewechi takes the reader through a private and daunting journey, which many make but almost always remains unspoken. She provides a detailed account of her 'journey' from the moment she discovered the lump in her breast, to the end of her treatment. But how do you have cancer and no body in your place of work knows about it? Usually when people are diagnosed with cancer, it appears as though their world had collapsed and come to an end. But the most incredible aspect of Elewechi's story is about her resilience in the face of this illness. She writes about how she determined that the illness, as dreadful as it was, would not disrupt her life. So she went about her business as normal. Her work colleagues had no idea of the personal challenges she was facing. In this book, Elewechi provides deep insights into the different challenges that people face in their lives, although outwardly they appeared to be as normal as possible. She admonishes us to have a more caring and sympathetic attitude towards others because there's always more than the eye can see. Find out more about Elewechi's extra-ordinary journey of faith, and the dramatic events that unfolded as she began and completed her treatment. The book reveals that we can still let our lights shine in the dark places of life, in spite of the diagnosis of cancer. If you have been diagnosed with cancer, or any other life-threatening illness, or know someone going through such a challenge, this book will help them find strength and the courage to stand strong in faith. It will show them how to continue to beam their light in spite of whatever they may be facing. As God's Torch Bearers, He wants us to use the trials and challenges we face in life to help others. *The Torch Bearer* is yet another life story by Elewechi which appeals to the human nature particularly those people who find themselves in dire straits. In her earlier book, *The Greatest Debtor to His Love and a Trophy of His Grace*, Elewechi had shared the circumstances of her birth, and how she had survived abortion, escaped abduction, rape and murder, during the Nigerian Civil War. She also shared other incredulous life-threatening experiences

The Politicisation of Sport in Modern China Fan Hong, Lu Zhouxiang, 2015-07-16 *The Politicisation of Sport in Modern China: Communist and Champions* is the first book in English which examines in chronological order key issues in sport in the People's Republic of China from 1949 to 2012 in the context of Chinese history, politics and society. It explores the complexity of Chinese sport including the sovietisation of Chinese sports policy and practice; the emergence of the 'two Chinas' issue; the Cold War, the Cultural Revolution, sports diplomacy and sports militarism; China's turbulent journey of participation in the Asian Games and in the Olympics; the politics and policy of doping and anti-doping in Chinese sport; and China's sport in the post-Beijing Olympics era. By analysing the relationships between sport, diplomacy, politics and social transformation in China, the book examines how sport has played an important role in China's rise in the 20th and 21st centuries, and how China embraced the Olympic Movement and also influenced the world through the Olympic Games. Featuring major events, original documents and interviews with a wide breadth of insiders - from sports policy makers, Olympic medallists and ordinary Chinese - this book, for the first time, provides a comprehensive guide to the history of sport in

the People's Republic of China. It is a fascinating book for academic researchers, general readers and students. This book was published as a special issue of the International Journal of the History of Sport.

Encoding the Olympics Luo Qing, Giuseppe Richeri, 2013-09-13 Encoding the Olympics assembles a uniquely representative international team of media experts to provide a comprehensive review of the global impact of media and cultural communications associated with the Beijing 2008 Olympics. Commissioned by the IOC, this pioneering comparative study – the largest in Olympic Games research – provides a ground-breaking, panoramic, cross-cultural perspective on media responses to the leading sports event of the modern world. The representative team that undertook the study includes media commentators and political analysts, sport and media journalists, Sinologists and observers of the Asian Pacific Rim, academics in Olympic Studies and media and communication studies, scholars of the cultural and sociology studies of sport and festival and events managers. Encoding the Olympics provides a unique, encyclopaedic study that will serve as a versatile resource at several levels – as a textbook or source reference for academic institutions, media public relations agencies that facilitate the work of inter-cultural exchange organisations, and international communication departments of multinational enterprises and international NGOs. This volume analyses global media responses to a mega-sport event on a scale never before attempted. This book was previously published as a special issue of the International Journal of the History of Sport.

The London Olympics of 2012 Stephen Wagg, 2016-04-29 Analysing the politics of the 2012 London Olympics, Stephen Wagg examines the framing of London's bid to host the Games, arguments about the Games' likely impact and the establishment of 'Fortress London' to protect the Games. The book asks who won, and who lost out, in this important event as well as exploring its media coverage and legacy.

Helping Elderly Relatives Jill Eckersley, 2013-09-19 By 2033, almost a quarter of the British population is predicted to be over 65, and 5% will be over 85. This means that more of us will be responsible for someone who is elderly and possibly frail. Yet, even in this age of the internet, many of us have no idea what older people are entitled to, and much help and money goes unclaimed. In addition, not everyone ages gracefully. The problems can be compounded by someone who is difficult to help, and refuses to co-operate with family carers or medical and social work professionals. This book offers practical solutions and emotional support for those looking after older parents or other relatives. Topics include: Mental distress in later life, such as anxiety and depression; The rise in problem drinking among older people; Mental disorders, including schizophrenia, bipolar disorder; personality disorder; Dementia; Housing and social options; If the relationship breaks down; Care for the carer - looking after yourself.

The Naked Olympics Tony Perrottet, 2004-06-08 What was it like to attend the ancient Olympic Games? With the summer Olympics' return to Athens, Tony Perrottet delves into the ancient world and lets the Greek Games begin again. The acclaimed author of Pagan Holiday brings attitude, erudition, and humor to the fascinating story of the original Olympic festival, tracking the event day by day to re-create the experience in all its compelling spectacle. Using firsthand reports and little-known sources—including an actual Handbook for a Sports Coach used

by the Greeks—The Naked Olympics creates a vivid picture of an extravaganza performed before as many as forty thousand people, featuring contests as timeless as the javelin throw and as exotic as the chariot race. Peeling away the layers of myth, Perrottet lays bare the ancient sporting experience—including the round-the-clock bacchanal inside the tents of the Olympic Village, the all-male nude workouts under the statue of Eros, and history's first corruption scandals involving athletes. Featuring sometimes scandalous cameos by sports enthusiasts Plato, Socrates, and Herodotus, The Naked Olympics offers essential insight into today's Games and an unforgettable guide to the world's first and most influential athletic festival. Just in time for the modern Olympic games to return to Greece this summer for the first time in more than a century, Tony Perrottet offers up a diverting primer on the Olympics of the ancient kind....Well researched; his sources are as solid as sources come. It's also well written....Perhaps no book of the season will show us so briefly and entertainingly just how complete is our inheritance from the Greeks, vulgarity and all. --The Washington Post

Beyond the Final Score Victor D. Cha, 2009 The Beijing Olympics will be remembered as the largest, most expensive, and most widely watched event of the modern Olympic era. But did China present itself as a responsible host and an emergent international power, much like Japan during the 1964 Tokyo Games and South Korea during the 1988 Seoul Games? Or was Beijing in 2008 more like Berlin in 1936, when Germany took advantage of the global spotlight to promote its political ideology at home and abroad? Beyond the Final Score takes an original look at the 2008 Beijing games within the context of the politics of sport in Asia. Asian athletics are bound up with notions of national identity and nationalism, refracting political intent and the processes of globalization. For China, the Beijing Games introduced a liberalizing ethos that its authoritative regime could ignore only at its peril. Victor D. Cha-former director of Asian affairs for the White House-evaluates Beijing's contention with this pressure, considering the intense scrutiny China already faced on issues of counterproliferation, global warming, and free trade.
