Idaho State University ISU Management 4499/5599 Honors Class,2017-05-08 Idaho State University (ISU) opened in 1901 on 10 acres of land donated by the residents of Pocatello east of the Oregon Short Line Railroad tracks. From its humble beginnings as a school for vocational training with four faculty and fewer than 100 students, ISU has grown into a research institution serving over 12,000 students in undergraduate, master's, and doctoral programs. The university has witnessed four name changes and weathered the adversity of two world wars and the ebb and flow of the economic fortunes of the Intermountain West. But Idaho State University has survived and thrived because of the efforts of its supporters, the commitment of its alumni, and the spirit of its students.

Pocatello in Print: From the Archives of the Idaho State Journal 4499/5599 Class Students from Idaho Stat,2018-08-06

Idaho in World War II Students from Idaho State University's MGT 4499/5599 Class,2020-08-03 Although far from the front lines of war, the people of Idaho contributed to the US effort in World War II in myriad ways. Entrepreneurs perfected the dehydration of potatoes and onions that became staples of the rations that sustained Allied troops stationed around the globe. Idahoans mined rare metals and manufactured them into weapons and munitions that allowed US forces to compete with the technologies of their opponents. Local communities organized USO huts that

provided coffee, cookies, and warm smiles to homesick troops in transit to and from the war. However, World War II also left an indelible mark on the state of Idaho. On the one hand, the federal government's ambitious construction of airports, buildings, and roads to support the war effort transformed a rural state that had lacked infrastructure. On the other hand, Idaho soil housed detention camps where American citizens were denied fundamental rights. And loss and heartbreak impacted nearly every community.
