Love in 24 Frames C.S. Poe, 2020-03-21 Declan Groves is a CPA in New York

City. His adult life is dictated by routine and monotony. The need to express himself, in ways his career and crippling shyness have never allowed, leads Declan to becoming an amateur stop-motion filmmaker. The problem with this—Declan is now in love with the Wandering Artist Studios receptionist, Shota Watanabe. Shota has always had a smile and engaging comment ready for Declan, but even if it's more than casual politeness, Declan hasn't been able to get out more than a tongue-tied sentence at a time. And a man like Shota surely has no intention of waiting forever. So when an unexpected change to Declan's daily schedule during Christmastime throws the two together outside of the studio, it might be the catalyst needed to explore what's been unspoken between them. But if they're to have a future, Declan needs to find a way to tell Shota how he feels before the magic of the holidays is behind them. Love & Eroticism Mike Featherstone, 1999-03-19 This major collection explores the contested nature of love and eroticism, examining the ways in which erotic bodily pleasures have become central to contemporary consumer culture. It investigates the spatial dimension of erotic life through considerations of Bohemian love, the gay city and the ways in which the urban landscape and everyday life have become sexualized - issues which have become central to the emergence of 'queer' as a new form of gender politics and more general questions of sexual citizenship. Drawing on the work of feminists, sociologists and cultural theorists, this book contains a wide-ranging and accessible set of contributions to contemporary debates on sexuality, love and eroticism. *Love & Eroticism* is simultaneously published as volume 15, issue 3-4 of *Theory, Culture & Society*.

Poetics of Love in the Arabic Novel Wen-chin Ouyang, 2012-06-20 Considers the Arabic novel within the triangle of the nation-state, modernity and tradition Wen-Chin Ouyang explores the development of the Arabic novel, especially the ways in it engages with aesthetics, ethics and politics in a cross-cultural context and from a transnational perspective. Taking love and desire as the central tropes, the story of the Arabic novel is presented as a series of failed, illegitimate love affairs, all tainted by its suspicion of the legitimacy of the nation, modernity and tradition and, above all, by its misgiving about its own propriety.

Frames Loren D. Estleman, 2010-08-31 Enter Valentino, a mild-mannered UCLA film archivist. In the surreal world of Hollywood filmdom, truth is often stranger than celluloid fiction. When Valentino buys a decrepit movie palace and uncovers a skeleton in the secret Prohibition basement, he's not really surprised. But he's staggered by a second discovery: long-lost, priceless reels of film: Erich von Stroheim's infamous *Greed*. The LAPD wants to take the reels as evidence, jeopardizing the precious old film. If Valentino wants to save his find, he has only one choice: solve the murder within 72 hours with the help of his mentor, the noted film scholar Broadhead, and Fanta, a feisty if slightly flaky young law student. Between a budding romance with a beautiful forensics investigator and visions of Von Stroheim's ghost, Valentino's madcap race to save the flick is as fast and frenetic as a classic screwball comedy. A quirky cast of characters, smart dialogue and a touch of romance make *Frames* Estleman's most engaging and accessible novel to date. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Love over 60 Bob Kamm, 2010-10-08 Both the narrative and the poetry in this book clearly demonstrate that love after 60 is not only possible; it may burn with an intensity even greater than the fires of our youth. --Barry Bernfeld, Ph.D., Director, The Primal Institute, Los Angeles The very first poem in this collection, *The Choice*, left me speechless and moved to tears something most unusual for this military veteran and leadership consultant. For me, Bob Kamms poetry comes not only from the center of his love, but from the center of Love itself. --John Scherer, author of *Five Questions That Change Everything* Bob Kamms genius is abundantly on display as he fills his pages with both beauty and humor, each enlivening the spirit in its own unique way. His masterful control of line length and the space it creates assures the reader will give each concise and precious thought, image and phrase its due. --Norm Jackson, Ph.D., Cal Poly San Luis Obispo, retired

Why We Love Serial Killers Scott Bonn, 2014-10-28 For decades now, serial killers have taken center stage in the news and entertainment media. The coverage of real-life murderers such as Ted Bundy and Jeffrey Dahmer has transformed them into ghoulish celebrities. Similarly, the popularity of fictional characters such as Hannibal "The Cannibal" Lecter or Dexter demonstrates just how eager the public is to be frightened by these human predators. But why is this so? Could it be that some of us have a gruesome fascination with serial killers for the same reasons we might morbidly stare at a catastrophic automobile accident? Or it is something more? In *Why We Love Serial Killers*, criminology professor Dr. Scott Bonn explores our powerful appetite for the macabre, while also providing new and unique

insights into the world of the serial killer, including those he has gained from his correspondence with two of the world's most notorious examples, David Berkowitz ("Son of Sam") and Dennis Rader ("Bind, Torture, Kill"). In addition, Bonn examines the criminal profiling techniques used by law enforcement professionals to identify and apprehend serial predators, he discusses the various behaviors—such as the charisma of the sociopath— that manifest themselves in serial killers, and he explains how and why these killers often become popular cultural figures. Groundbreaking in its approach, *Why We Love Serial Killers* is a compelling look at how the media, law enforcement agencies, and public perception itself shapes and feeds the "monsters" in our midst.

The Path of Love Ronald D. Cowen, 2015-02-05 The Buddha was a scientist. Instead of using a microscope or a particle accelerator, the Buddha used ESP. He had several psychic powers that allowed him to perceive in detail the psychology of karma, the evolution of consciousness, and subatomic particles. He discovered love and self-love to be organizing principles that evolved early in the history of intelligent consciousness, especially with regard to feelings and emotions. Every person has the deepest need to love and be loved. He solved the mind-body problem by perceiving the physical basis of intelligent consciousness. These psychic powers are acknowledged in Hindu and Buddhist scriptures, but extremely few people have them. This book is essentially a meditation report written by someone who has them. While this sounds like an invitation to return this book to the shelf in a bookstore, it also documents in depth another report by a physicist, Stephen Phillips, who relates in comprehensive detail the relationship between modern superstring theory and extrasensory observation of the elements of the periodic table by Annie Besant and Charles Leadbeater of the Theosophical Society. This strong connection between modern physics and psychic powers of the Buddha is a real challenge to both the modern scientist and the modern Buddhist.

WKW: The Cinema of Wong Kar Wai Wong Kar Wai, John Powers, 2016-04-19 The long-awaited retrospective from the internationally renowned film director celebrated for his visually lush and atmospheric films. Wong Kar Wai is known for his romantic and stylish films that explore—in saturated, cinematic scenes—themes of love, longing, and the burden of memory. His style reveals a fascination with mood and texture, and a sense of place figures prominently. In this volume, the first on his entire body of work, Wong Kar Wai and writer John Powers explore Wong's complete oeuvre in the locations of some of his most famous scenes. The book is structured as six conversations between Powers and Wong (each in a different locale), including the restaurant where he shot *In the Mood for Love* and the snack bar where he shot *Chungking Express*. Discussing each of Wong's eleven films, the conversations also explore Wong's trademark themes of time, nostalgia, and beauty, and their roots in his personal life. This first book by Wong Kar Wai, lavishly illustrated with more than 250 photographs and film stills and featuring an opening critical essay by Powers, *WKW: The Cinema of Wong Kar Wei* is as evocative as walking into one of Wong's lush films.

Worship Frames Deborah J. Kapp, 2008-09-16 *Worship* is a congregation's most important practice. In worship we encounter God's gracious presence and come face to face with the frailty, goodness, and potential of our humanity. We are comforted, corrected, forgiven, healed, challenged, and sometimes even disturbed by the divine and one another. We are morally formed and sent by

God into the world. The mysterious and uncontrollable work of the Spirit is at the heart of all genuine worship. Yet worshipers and leaders work hard to worship. In *Worship Frames*, Deborah Kapp explores how the sociological concept of frames can help us better understand the social and human dynamics of worship. Frames are interpretive schemes or ideas that help people locate, understand, and identify their experiences. For example, opening a service with a period of silent reflection followed by a sober hymn is a different frame for worship than opening with congregational announcements and a loud call-and-response session. She has found that this theory has opened her eyes to dynamics in worship she had not noticed before and best helped her understand differences in worship styles. By understanding our frames, we can learn how to reframe worship to give fuller and richer expression to our faith. Kapp shares her insights with congregations and worship leaders so they will gain new perspectives from which to analyze and design worship, and deepen their perceptions about the role worship plays in faith communities.

Playful Frames Steven Rybin, 2023-10-13 A widescreen frame in cinema beckons the eye to playfully, creatively roam. Such technology also gives inventive filmmakers room to disrupt and redirect audience expectations, surprising viewers through the use of a wider, more expansive screen. *Playful Frames: Styles of Widescreen Cinema* studies the poetics of the auteur-driven widescreen image, offering nimble, expansive analyses of the work of four distinctive filmmakers – Jean Negulesco, Blake Edwards, Robert Altman, and John Carpenter – who creatively inhabited the nooks and crannies of widescreen moviemaking during the final decades of the twentieth century. Exploring the relationship between aspect ratio and subject matter, *Playful Frames* shows how directors make puckish use of widescreen technology. All four of these distinctive filmmakers reimagined popular genres (such as melodrama, slapstick comedy, film noir, science fiction, and horror cinema) through their use of the wide frame, and each brings a range of intermedial interests (painting, performance, and music) to their use of the widescreen image. This study looks specifically at the technological underpinnings, aesthetic shapes, and interpretive implications of these four directors' creative use of widescreen, offering a way to reconsider the way wide imagery still has the potential to amaze and move us today.
