Making Machu Picchu Mark Rice, 2018-08-17 Speaking at a 1913 National Geographic Society gala, Hiram Bingham III, the American explorer celebrated for finding the lost city of the Andes two years earlier, suggested that Machu Picchu is an awful name, but it is well worth remembering. Millions of travelers have since followed Bingham's advice. When Bingham first encountered Machu Picchu, the site was an obscure ruin. Now designated a UNESCO World Heritage Site, Machu Picchu is the focus of Peru's tourism economy. Mark Rice's history of Machu Picchu in the twentieth century—from its discovery to today's travel boom—reveals how Machu Picchu was transformed into both a global travel destination and a powerful symbol of the Peruvian nation. Rice shows how the growth of tourism at Machu Picchu swayed Peruvian leaders to celebrate Andean culture as compatible with their vision of a modernizing nation. Encompassing debates about nationalism,

Indigenous peoples' experiences, and cultural policy—as well as development and globalization—the book explores the contradictions and ironies of Machu Picchu's transformation. On a broader level, it calls attention to the importance of tourism in the creation of national identity in Peru and Latin America as a whole.

Making Comics Lynda Barry, 2019-09-10 The idiosyncratic curriculum from the Professor of Interdisciplinary Creativity will teach you how to draw and write your story Hello students, meet Professor Skeletor. Be on time, don't miss class, and turn off your phones. No time for introductions, we start drawing right away. The goal is more rock, less talk, and we communicate only through images. For more than five years the cartoonist Lynda Barry has been an associate professor in the University of Wisconsin-Madison art department and at the Wisconsin Institute for Discovery, teaching students from all majors, both graduate and undergraduate, how to make comics, how to be creative, how to not think. There is no academic lecture in this classroom. Doodling is enthusiastically encouraged. Making Comics is the follow-up to Barry's bestselling Syllabus, and this time she shares all her comics-making exercises. In a new hand-drawn syllabus detailing her creative curriculum, Barry has students drawing themselves as monsters and superheroes, convincing students who think they can't draw that they can, and, most important, encouraging them to understand that a daily journal can be anything so long as it is hand drawn. Barry teaches all students and believes everyone and anyone can be creative. At the core of Making Comics is her certainty that creativity is vital to processing the world around us.

Already Ready Katie Wood Ray, Matt Glover, 2008 From the very first chapter of this informative and inspiring book, a clear picture emerges of how even three- and four-year-olds' capacities for serious authorship can and should be supported. - Lillian G. Katz Coauthor of Young Investigators: The

Project Approach in the Early Years By the time they reach preschool or kindergarten, young children are already writers. They don't have much experience, but they're filled with stories to tell and ideas to express - they want to show the world what they know and see. All they need is a nurturing teacher like you to recognize the writer at work within them. All you need to help them is Already Ready. Taking an exciting, new approach to working with our youngest students, Already Ready shows you how, by respecting children as writers, engaged in bookmaking, you can gently nudge them toward a lifetime of joyful writing. Katie Wood Ray and Matt Glover guide you through fundamental concepts of early writing. Providing numerous, helpful examples of early writing - complete with transcriptions - they demonstrate how to: make sense of children's writing and interpret how they represent sounds, ideas, and images see important developmental signs in writers that you can use to help them grow further recognize the thinking young children engage in and discover that it's the same thinking more experienced writers use to craft purposeful, thoughtful pieces. Then Ray and Glover show you how little ones can develop powerful understandings about: texts and their characteristics the writing process what it means to be a writer. You'll learn how to support your writers' quest to make meaning, as they grow their abilities and refine their thinking about writing through teaching strategies such as: reading aloud working side by side with writers sharing children's writing. Writing is just one part of a busy early childhood classroom, but even in little doses, a nurturing approach can work wonders and help children connect the natural writer inside them to a life of expressing themselves on paper. Find that approach, share it with your students, and you'll discover that you don't have to get students ready to write - they're Already Ready.
