  A Tradition of Soup Teresa M. Chen,2009-04-28 Through recipes that use time-honored medicinal ingredients, A Tradition of Soup provides a fascinating narrative of the Southern Chinese immigrants who came to the United States in large numbers during the last half century, the struggles they faced and overcame, and the soups they used to heal and nourish their

bodies. Following the Chinese approach to health, Teresa Chen, who was born into a family of food connoisseurs and raised by a gourmet cook, groups the recipes by seasons and health concerns according to Cantonese taxonomy: tong (simple broths, soups, and stews), geng (thickened soups), juk (rice soups or porridges), and tong shui (sweet soups), as well as noodle soups, wonton and dumpling soups, and vegetable soups. Also focusing on dahn (steaming) and louhfo (slow-cooking) soups associated with good health, the book features fresh, natural, and seasonal food. A Tradition of Soup highlights recipes that serve a wide range of purposes, from gaining or shedding weight to healing acne and preventing wrinkles. While some ingredients may seem foreign to Western readers, most are available in Chinese grocery stores. To help readers identify and procure these items, Chen provides a beautifully photographed ingredients glossary complete with Chinese names, pronunciation, and detailed descriptions.

  Professional Leadership for Social Work Practitioners and Educators Anna Fairtlough,2016-11-03 Professional leadership is increasingly recognised as being vital to enhancing social work's reputation and effectiveness. Although professional leadership is one of the nine domains of the professional capability framework in England, sometimes leadership is assumed to be the prerogative of managers rather than the responsibility of all professional social workers. The participation of social workers and social work educators in shaping professional cultures within organisations through practice

innovation, practitioner research and workforce development is thus crucial. Drawing on theories that challenge hierarchical concepts of leadership, this book will enable experienced social work practitioners and educators to develop their professional leadership to more expert levels. Throughout the book there are case examples illustrating examples of advanced professional leadership in action, research highlights and exercises utilising self-reflection, action planning, creative writing and imagery to provide practical support to the reader.
