

Maps App

Gerardus Blokdyk

Build Location Apps on iOS with Swift Jeffrey Linwood, 2020 Work with Apple Maps, Google Maps, and Mapbox in iOS with Swift programming. Guided by practical examples, this book covers all three map frameworks to ensure you properly select which one best suits your iOS app's needs in working with iOS location. You'll see how Apple's privacy settings apply to a user's location, and how to access that user's location from an application. Once you have access to the user's location, allow your app to display points of interest from Apple's database on the map inside the app, as well as to provide a search through that database by name. You can also incorporate turn by turn directions inside your own app to provide routes. Or trigger different functionality or notifications based on locational queues. With *Build Location Apps on iOS with Swift*, you'll even find out how to provide offline map support for hiking, camping, or other outdoors applications where cell phone service is weak. You will: Display points of interest within your own app Work with Apple's privacy settings so pertinent information comes through Trigger functionality based on geographic prompts Create your own custom map styles with Mapbox Studio and display them in the app.

Beginning Google Maps Applications with Rails and Ajax Andre Lewis, Cameron Turner, Jeffrey Sambells, Michael Purvis, 2007-05-02 The Google Maps API is a showcase example of the Web 2.0 development paradigm, designed to be invitingly simple for developers to incorporate dynamic mapping services into Web applications. *Beginning Google Maps Applications with Rails and Ajax* takes a developer's perspective, showing how to integrate mapping features into their Rails-driven Web applications. The book shows how to draw on data sources such as the U.S. Census Bureau's TIGER/Line data and Google's own

geocoding feature to build comprehensive geocoding services. The book includes guided examples demonstrating how to encourage user interaction such as pinpointing map locations, adding comments, and building community-driven maps.

Using Google Maps and Google Earth, Enhanced Edition Michael Miller, 2011-10-07 *** This USING Google Maps and Google Earth book is enhanced with nearly 2 hours of FREE step-by-step VIDEO TUTORIALS and AUDIO SIDEBARS! *** Google Maps is a free, web-mapping service app and technology provided by Google to view local traffic conditions, display nearby businesses and plot driving directions between two points. Google Earth is a stand-alone, related product offering more globe-viewing features, including showing more of the polar areas. Google Maps and Google Earth are both used for fun, business, or travel! USING Google Maps and Google Earth is a media-rich learning experience designed to help new users master Google Maps and Google Earth quickly, and get the most out of it, fast! EVERY chapter has multiple video and audio files integrated into the learning material which creates interactive content that works together to teach everything mainstream Google Maps and Google Earth users need to know. You'll Learn How to: - Discover How to Map Your Favorite Places with Google Maps - See Actual Locations with Street View - Generate Driving, Walking, and Public Transit Directions - Find and Learn More About Businesses - Create and Share Custom Maps and Mashups - Use Google Maps on iPhone - Navigate Google Earth to Find Locations Fast - Create Life-like Roadmaps and Tour Your Route - Explore Google Sky, Google Moon, and Google Earth's Flight Simulator Examples of Topics Covered in VIDEO TUTORIALS, which Walk You Through Tasks You've Just Got to See! - Create and Share Custom Maps - Generate Driving Directions

Right from your Smartphone - Create a Google Earth Roadmap Examples of Topics Covered in AUDIO SIDEBARS, which Deliver Insights Straight From the Experts! - Use Google Places with your Company's Online Marketing Strategy - Compare Driving Directions from Google Earth and Google Maps - Just How Accurate are Google Maps Anyway? Please note that due to the incredibly rich media included in your Enhanced eBook, you may experience longer download times. Please be patient while your product is delivered. This Enhanced eBook has been developed to match the Apple Enhanced eBook specifications for the iPad and may not render well on older iPhones or iPods or perform on other devices or reader applications.

Google Maps Mashups with Google Mapplets Michael Young, 2008-07-17 Have a Google Maps mashup that you'd like to expose to millions of users on maps.google.com? New to the mapping craze, but have an idea for a killer map-based application? Want to learn how to create GeorSS and KML feeds with your geotagged content, exposing your customer to new ways of exploring and navigating your content? Google Maps Mashups with Google Mapplets Is the first book to cover Google's Mapplet technology Shows you how to create Google Maps-based applications and publish to maps.google.com Provides a single-source resource and practical guide to Mapplets and mashups Teaches you how to mash up Mapplets using location-specific data Includes examples of real-world applications

Google Maps Evangelos Petroustos, 2014-03-21 Create custom applications with the Google Maps API Featuring step-by-step examples, this practical resource gets you started programming the Google Maps API with JavaScript in no time. Learn how to embed maps on web pages, annotate the embedded maps with your data, generate KML files to store and reuse your map data, and enable client

applications to request spatial data through web services. Google Maps: Power Tools for Maximizing the API explains techniques for visualizing masses of data and animating multiple items on the map. You'll also find out how to embed Google maps in desktop applications to combine the richness of the Windows interface with the unique features of the API. You can use the numerous samples included throughout this hands-on guide as your starting point for building customized applications. Create map-enabled web pages with a custom look Learn the JavaScript skills required to exploit the Google Maps API Create highly interactive interfaces for mapping applications Embed maps in desktop applications written in .NET Annotate maps with labels, markers, and shapes Understand geodesic paths and shapes and perform geodesic calculations Store geographical data in KML format Add GIS features to mapping applications Store large sets of geography data in databases and perform advanced spatial queries Use web services to request spatial data from within your script on demand Automate the generation of standalone web pages with annotated maps Use the Geocoding and Directions APIs Visualize large data sets using symbols and heatmaps Animate items on a map Bonus online content includes: A tutorial on The SQL Spatial application A bonus chapter on animating multiple airplanes Three appendices: debugging scripts in the browser; scalable vector graphics; and applying custom styles

Pro iOS Geo Giacomo Andreucci, 2013-04-03 Deepen your app development skills with *Pro iOS Geo*. This book shows you how to use geolocation-based tools to enhance the iOS apps you develop. Author Giacomo Andreucci describes different ways to integrate geo services, depending on the kind of app you're looking to develop: a web app, a hybrid app, or a native app. You'll discover how to use the Google Maps API features to integrate powerful geo

capabilities in your apps with a little effort. You'll learn how to: Design geographic features for your apps while respecting usability criteria Design touristic geo apps Use HTML5 and the Google Maps JavaScript API to implement powerful geo functions in your apps Use Google Fusion Tables to display and query data in your maps Transform your geo web apps into hybrid apps that can be submitted to the Apple App Store Create native iOS geo apps using the new Apple Maps data through the Map Kit API After reading Pro iOS Geo, you'll have the knowledge and skills you need to add a geo dimension to all your apps, whether as a feature of a larger app— such as a social networking app that shows where friends are located in a selected area—or as the primary part of an app—such as a guide app that shows the monuments in your city.

Using Road Maps and GPS Tracy Nelson Maurer, 2016-08 Looks at how people use maps and GPS to find their way around, including details about routes, landmarks, and sites.

Google Services Source Wikipedia, 2013-09 Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. Pages: 139. Chapters: Google Chrome, YouTube, Google Maps, Gmail, Google Books, Google Street View, List of Google products, Orkut, Chromium, Gmail interface, Satellite map images with missing or unclear data, Google Books Library Project, Apache Wave, AdSense, Google Talk, AdWords, Google Desktop, Google Groups, Google Videos, Google Translate, Google Apps, Google Buzz, Google Translator Toolkit, Google News, Picasa, Google App Engine, Google Docs, Google Web Toolkit, Google Analytics, Google Scholar and academic libraries, Google Answers, Google Calendar, Google Toolbar, Blogger, Sitemaps, Google Image Labeler, Google Code, Gears, Gizmo5, Ad Manager, SketchUp, IGoogle, Vevo, Google Reader, Google Fast Flip,

Google Sidewiki, Google Health, Google Map Maker, Google Person Finder, Google Sites, Google Trends, Supplemental Result, Google Pack, Google Apps Script, Google One Pass, History of Google Docs, Jaiku, Google App Inventor, Google eBooks, Google Lively, Google Quick Search Box, Sitemap index, Google Circles, V8, Google Code Search, Google Friend Connect, Chrome Web Store, Google Images, Google Checkout, Dodgeball, Living stories, Google Web Accelerator, Google Notebook, Google Chart API, Google Base, Google Moderator, Google Browser Sync, Google Public DNS, Google Dictionary, Google Personalized Search, Google Questions and Answers, Google Product Search, Google Bookmarks, Google Finance, Google WiFi, Google Alerts, Checker Plus for Google Calendar, Google Real-Time Search, Google Moon, Google Image Swirl, Google Webmaster Tools, Google Cloud Print, Google Current, Google Squared, Google News Archive, Google Offers, Google Mars, Google 3D Warehouse, Google Grants, Google Gadgets, Google Contacts, Google Website Optimizer, Google Insights for Search, Google Labs, Google Data Liberation Front, Google Business Solutions, Google X, ..

Programming GPS and OpenStreetMap Applications with Java Kristof Beiglböck, 2012-01-27 Written by an expert in the development of GPS systems with digital maps and navigation, Programming GPS and OpenStreetMap Applications with Java: The RealObject Application Framework provides a concrete paradigm for object-oriented modeling and programming. It presents a thorough introduction to the use of available global positioning data for the development of applications involving digital maps. The author first describes the different formats of GPS data and digital maps and shows how to use recorded GPS traces to replay and display this data on a digital map. Then, he works through in detail the processing steps of obtaining dedicated

data from OpenStreetMaps and how to extract a network for a simple navigation application. For each topic covered—GPS data, OpenStreetMaps, and navigation—Java code is developed that can easily be adapted to the readers' needs and locality. Finally, all components are put together in a sample computer-game application modeled on the well-known board game, Scotland Yard. The computer game is intended to be a basis from which readers can develop and customize their own application for their desired geographical area. The developed application can be published on the Internet and made available for interactive multiplayer competition. This book provides a fun and interesting way to learn distributed programming with Java and real-world data. Open-source software is available on a companion website at www.roaf.de

Google Maps (App) Gerardus Blokdyk, 2018-05-04 What tools and technologies are needed for a custom Google Maps (app) project? How do you determine the key elements that affect Google Maps (app) workforce satisfaction? how are these elements determined for different workforce groups and segments? How do you assess your Google Maps (app) workforce capability and capacity needs, including skills, competencies, and staffing levels? Do we all define Google Maps (app) in the same way? Does Google Maps (app) appropriately measure and monitor risk? Defining, designing, creating, and implementing a process to solve a challenge or meet an objective is the most valuable role... In EVERY group, company, organization and department. Unless you are talking a one-time, single-use project, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, 'What are we really trying to accomplish here? And is there a different

way to look at it?' This Self-Assessment empowers people to do just that - whether their title is entrepreneur, manager, consultant, (Vice-)President, CxO etc... - they are the people who rule the future. They are the person who asks the right questions to make Google Maps (app) investments work better. This Google Maps (app) All-Inclusive Self-Assessment enables You to be that person. All the tools you need to an in-depth Google Maps (app) Self-Assessment. Featuring new and updated case-based questions, organized into seven core areas of process design, this Self-Assessment will help you identify areas in which Google Maps (app) improvements can be made. In using the questions you will be better able to: - diagnose Google Maps (app) projects, initiatives, organizations, businesses and processes using accepted diagnostic standards and practices - implement evidence-based best practice strategies aligned with overall goals - integrate recent advances in Google Maps (app) and process design strategies into practice according to best practice guidelines Using a Self-Assessment tool known as the Google Maps (app) Scorecard, you will develop a clear picture of which Google Maps (app) areas need attention. Your purchase includes access details to the Google Maps (app) self-assessment dashboard download which gives you your dynamically prioritized projects-ready tool and shows your organization exactly what to do next. Your exclusive instant access details can be found in your book.

Beginning Google Maps Applications with PHP and Ajax Jeffrey Sambells, Michael Purvis, Cameron Turner, 2007-12-22 The Google Maps API remains one of the showcase examples of the Web 2.0 development paradigm. In fact, interest in the Google service is so strong that it arguably sparked the mashup phenomenon. This is the first book to comprehensively introduce the

service from a developer perspective, showing readers how they can integrate mapping features into their Web applications. Proceeding far beyond creating a simplistic map display, readers are shown how to draw upon a variety of data sources such as geocode.us and the U.S. Census Bureau's TIGER/Line data to build comprehensive geocoding services for mapping any location in North America.

Microsoft Mapping Second Edition Carmen Au, Ray Rischpater, 2015-10-27 This 200 page revised edition of Microsoft Mapping includes the latest details about SQL Server 2014 and the new 3D and Streetside-capable map control for Windows 10 applications. It contains updated chapters on Microsoft Azure and Power Map for Excel plus a new chapter on Bing Maps for Universal Windows. The book tells a story, from beginning to end, of planning and deploying a single geospatial application built using Microsoft technologies from end-to-end. Readers are expected to have basic familiarity with the fundamentals of developing for Microsoft platforms (some understanding of basic SQL, C#, .NET, and WCF); as readers work through the book they will build on their existing skills so that they will be able to deploy geospatial applications for social networking, data collection, enterprise management, or other purposes. Microsoft Mapping Second Edition provides: The only full book for developers who want to create location-aware apps using the Windows 10 platform Fully working code samples that show the concepts in use with ASP.NET 4.5 and Windows 10. Complete solutions to the common problems of geospatial development: visualization, hosting and localization of services are all explained. Demonstrates how the Bing Maps API can be connected to the Azure Cloud in order to provide a stand-alone mapping bolt-on with little additional up-front cost and great reliability. Unique coverage of how the

Bing Maps API can be implanted within Windows and Windows Phone applications for Windows 10 applications to provide a robust service tailored to the capabilities of each device. Coverage of the new Windows 10 Bing Maps control, which supports viewing Streetside and aerial data.

Charting the Topic Maps Research and Applications Landscape Lutz Maicher, Jack Park, 2006-02-15 This book constitutes the thoroughly refereed post-proceedings of the First International Workshop on Topic Map Research and Applications, held in October 2005. The 17 revised full papers and five revised short papers presented together with one invited lecture were carefully selected during two rounds of reviewing and improvement from more than 35 submissions. One of the goals of the workshop is to survey and structure the field of topic map research and the emerging topic map technologies.

Applications of Self-Organizing Maps Magnus Johnsson, 2012-11-21 The self-organizing map, first described by the Finnish scientist Teuvo Kohonen, can be applied to a wide range of fields. This book is about such applications, i.e. how the original self-organizing map as well as variants and extensions of it can be applied in different fields. In fourteen chapters, a wide range of such applications is discussed. To name a few, these applications include the analysis of financial stability, the fault diagnosis of plants, the creation of well-composed heterogeneous teams and the application of the self-organizing map to the atmospheric sciences.

Riemannian Submersions, Riemannian Maps in Hermitian Geometry, and their Applications Bayram Sahin, 2017-01-23 Riemannian Submersions, Riemannian Maps in Hermitian Geometry, and their Applications is a rich and self-contained exposition of recent developments in Riemannian submersions and maps relevant

to complex geometry, focusing particularly on novel submersions, Hermitian manifolds, and Kählerian manifolds. Riemannian submersions have long been an effective tool to obtain new manifolds and compare certain manifolds within differential geometry. For complex cases, only holomorphic submersions function appropriately, as discussed at length in Falcitelli, Ianus and Pastore's classic 2004 book. In this new book, Bayram Sahin extends the scope of complex cases with wholly new submersion types, including Anti-invariant submersions, Semi-invariant submersions, slant submersions, and Pointwise slant submersions, also extending their use in Riemannian maps. The work obtains new properties of the domain and target manifolds and investigates the harmonicity and geodesicity conditions for such maps. It also relates these maps with discoveries in pseudo-harmonic maps. Results included in this volume should stimulate future research on Riemannian submersions and Riemannian maps. Systematically reviews and references modern literature in Riemannian maps. Provides rigorous mathematical theory with applications. Presented in an accessible reading style with motivating examples that help the reader rapidly progress.

Mapbox Cookbook Bill Kastanakis, 2016-03-22 Over 35 recipes to design and implement uniquely styled maps using the Mapbox platform About This Book Design and develop beautifully styled maps using TileMill, MapBox Studio, and CartoCSS Get to grips with the mapbox.js and Leaflet to create visually stunning web and mobile applications An easy-to-follow, quick reference guide to integrate powerful APIs and services like Foursquare, Fusion Tables, Geoserver, and CartoDB to populate your maps Who This Book Is For If you are a web developer seeking for GIS expertise on how to create, style, and publish interactive and unique styled maps, then this book is for you. Basic

knowledge of programming and javascripts is assumed. What You Will Learn Get accustomed to the MapBox Editor to visually style your maps Learn everything about CartoCSS, and how it will help you fine tune your styled maps Use MapBox Studio and Tilemill to generate your own tiles and vector maps Publish your maps using a variety of technologies like node.js, PHP, and Geoserver Integrate with third party APIs and services to populate your maps with public or private data Create many different map visualization styles like choropleth and heat maps, add interactivity, and even learn how to animate data over time Work with many different data formats and external services to create robust maps Learn to use MapBox GL to create a mobile application In Detail Maps are an essential element in today's location aware applications. Right from displaying earth surface information to creating thematic maps displaying plethora of information, most of the developers lack the necessary knowledge to create customizable maps with combination of various tools and libraries. The MapBox platform is one such platform which offers all the tools and API required to create and publish a totally customizable map. Starting with building your first map with the online MapBox Editor, we will take you all the way to building advanced web and mobile applications with totally customizable map styles. Through the course of chapters we'll learn CartoCSS styling language and understand the various components of MapBox platform and their corresponding JavaScript API. In the initial few chapters we will dive deeper into the TileMill and MapBox Studio components of MapBox and use them to generate custom styled map tiles and vector maps. Furthermore, we will publish these custom maps using PHP, node.js and third party tools like Geoserver. We'll also learn to create different visualizations and map styles like a choropleth map, a heat map and add user

interactivity using a UFTGrid. Moving on, we dive into advanced concepts and focus on integration with third party services like Foursquare, Google FusionTables, CartoDB, and Torque to help you populate and even animate your maps. In the final chapter we'll learn to use the Mapbox SDK to create and publish interactive maps for the iOS platform. By the end of this book, you will learn about MapBox GL and how to create a fully functional, location-aware mobile app, using the maps styles created in the recipes. Style and approach An easy-to-use recipe driven book that will not just serve code samples, but also explains all the theory and concepts required to fully understand each recipe.

Semi-Riemannian Maps and Their Applications Eduardo García-Río, D.N. Kupeli, 2013-06-29 A major flaw in semi-Riemannian geometry is a shortage of suitable types of maps between semi-Riemannian manifolds that will compare their geometric properties. Here, a class of such maps called semi-Riemannian maps is introduced. The main purpose of this book is to present results in semi-Riemannian geometry obtained by the existence of such a map between semi-Riemannian manifolds, as well as to encourage the reader to explore these maps. The first three chapters are devoted to the development of fundamental concepts and formulas in semi-Riemannian geometry which are used throughout the work. In Chapters 4 and 5 semi-Riemannian maps and such maps with respect to a semi-Riemannian foliation are studied. Chapter 6 studies the maps from a semi-Riemannian manifold to 1-dimensional semi-Euclidean space. In Chapter 7 some splitting theorems are obtained by using the existence of a semi-Riemannian map. Audience: This volume will be of interest to mathematicians and physicists whose work involves differential geometry, global analysis, or relativity and gravitation.

Nonlinear Maps and their Applications Ricardo López-Ruiz, Danièle Fournier-Prunaret, Yoshifumi Nishio, Clara Grácio, 2015-03-11 In the field of Dynamical Systems, nonlinear iterative processes play an important role. Nonlinear mappings can be found as immediate models for many systems from different scientific areas, such as engineering, economics, biology, or can also be obtained via numerical methods permitting to solve non-linear differential equations. In both cases, the understanding of specific dynamical behaviors and phenomena is of the greatest interest for scientists. This volume contains papers that were presented at the International Workshop on Nonlinear Maps and their Applications (NOMA 2013) held in Zaragoza, Spain, on September 3-4, 2013. This kind of collaborative effort is of paramount importance in promoting communication among the various groups that work in dynamical systems and networks in their research theoretical studies as well as for applications. This volume is suitable for graduate students as well as researchers in the field.

Sampling Applications of the 1970 Census Publications, Maps, and Public Use Summary Files Margaret Gurney, 1972

Beginning Google Maps API 3 Gabriel Svennerberg, 2010-09-08 This book is about the next generation of the Google Maps API. It will provide the reader with the skills and knowledge necessary to incorporate Google Maps version 3 on web pages in both desktop and mobile browsers. It also describes how to deal with common problems that most map developers encounter at some point, like performance and usability issues with having too many markers and possible solutions to that. Introduction to the Google Maps API version 3 Solutions to common problems most developers encounters (too many markers, common JavaScript pitfalls) Best practices using HTML/CSS/JavaScript and

Google Maps

The Enigmatic Realm of **Maps App**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **Maps App** a literary masterpiece penned with a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of those who partake in its reading experience.

Maps App Introduction

In the digital age, access to information has become easier than ever before. The ability to download Maps App has revolutionized the way we consume written content. Whether you are a student looking for course

material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Maps App has opened up a world of possibilities. Downloading Maps App provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Maps App has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit

from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Maps App. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Maps App. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of

authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Maps App, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Maps App has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to

engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Maps App Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook

credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Maps App is one of the best book in our library for free trial. We provide copy of Maps App in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Maps App. Where to download Maps App online for free? Are you looking for Maps App PDF? This is definitely going to save

you time and cash in something you should think about.
