Michael Briant

Cruising Southern Spain Michael Briant,2018-07-05 The book visits the ports and marinas between Gibraltar and Port Napoleon all the way along the Costa del Sol. It has port plans, descriptions, indication of cost, and what sort of place it is. Tells you about the hazards and best routes as well as information about the area. If you come down the French Canals and are then heading for Southern Spain there is a special section on the best routes and places to stop over. With this book you do not need any other pilot books for the area on board.

Religious Women in Golden Age Spain Elizabeth A. Lehfeldt,2017-07-05 Through an examination of the role of nuns and the place of convents in both the spiritual and social landscape, this book analyzes the interaction of gender, religion and society in late medieval and early modern Spain. Author Elizabeth Lehfeldt here examines the tension between religious reform, which demanded that all nuns observe strict enclosure, and the traditional identity of Spanish nuns and their institutions, in which they were spiritually and temporally powerful women. Lehfeldt's work is based on the archival records of twenty-three convents in the city of Valladolid, and peninsula-wide documents that include visitation records, the constitutions of religious orders, and spiritual biographies. Religious Women in Golden Age Spain is the first book-length study in English to pose this chronological and conceptual framework for identifying and analyzing the role of nuns and convents in late-medieval and early-modern Spanish society.

Handbook of Material Biodegradation, Biodeterioration, and Biostabilization Michalina Falkiewicz-Dulik,Katarzyna Janda,George Wypych,2015-04-28 Handbook of Material Biodegradation, Biodeterioration, and Biostabilization, Second Edition gives extensive information on the microorganisms involved in the biodegradation of materials, along with the biocides which are permitted for use according to the most up-to-date worldwide legislation. Mechanisms of biodegradation and biodeterioration, results of biodeterioration, and methods of biostabilization are covered for a large number of products, making the title relevant for a range of industries and applications, including construction, coatings/paints, medical and pharmaceutical applications, and electronics. In addition, the health and safety aspects of biocide application are covered in detail, as well as the personal protection of practitioners who are required to use them. The contents and the most-up-to-date information make this book essential for almost all the fields of applied chemistry. Enables practitioners to identify the organisms responsible for biodeterioration in materials, select suitable preventative measures, and safely deploy methods of biostabilization Contains information on the biostabilization of various industrial products, including 24 groups of polymers Includes critical (and current) health and safety, environmental, and regulatory guidelines and best practices, and their relationships to legislation, regulation, toxicity, micro-organisms, biocides, and polymers Essential reading for scientists and practitioners as new regulations eliminate the use of previously used materials Contains up-to-date information on legislation and regulations governing the use of biocides in the European Union, the United States, and worldwide

Constructing Spanish Womanhood Victoria Loree Enders,Pamela Beth Radcliff,1998-12-07 This book, the first anthology in English, links the concerns of Spanish women's history to those of women's history elsewhere in Europe and throughout the world. The contributors, representing the best of the new historical scholarship, expand our knowledge of the general field of Spanish history and contribute to the reconfiguring of European history through the inclusion of the Spanish experience. They tie empirical inquiries into the history of women in Spain to current feminist theoretical concerns, including debates about identity and agency, and they show how contesting identities also lead to contesting categories and into broad debates about cultural particularism.

A study of eco-labelling in Spain and tourism decision making Lisa Sitnikow,2010-03-15 Inhaltsangabe:Introduction: This section of the paper will provide an outline of the aim and objectives of the dissertation and a rationale as to why the topic was chosen. Whilst there is much debate over the economical and environmental impacts that tourism entails; the impact of tourism eco-labelling remains an under researched terrain. This dissertation analyses environmental eco-labelling and its affect on German tourists. The aim is to find out to what degree eco-labelling plays a role in the tourism decision making of German tourists. The focus is on the Blue Flag, an eco-label for coastal areas and marinas. Aim and objectives: The principle aim of this dissertation is to analyse the affect of eco-labelling in tourism on the tourism decision making process of Germans travelling to Spanish coastal areas. In order to successfully achieve this aim, it was imperative to establish a set of objectives. The objectives of this dissertation are as follows: - To review the tourism eco-labelling process. - To identify environmental eco-labelling in Spain with the focus on coastal areas. - To determine the importance of eco-labelling for German tourists. - To examine the perception and knowledge of eco-labelling in coastal areas by German tourists travelling to Spain. - To develop a conclusion based on the findings concerning the impact of eco-labelling in Spain on German tourists. The first three objectives will be answered by reviewing and critically examining secondary literature, including academic literature and journals. This will provide an understanding into what previous literature has been published on the subject and will deliver an insight of opinions and perceptions from different authors that had addressed the topic earlier. In order to investigate the recent situation of the third objective and to gain an understanding of the fourth objective primary research will be undertaken. For the purpose of explaining reliability and theory of collecting data secondary literature will be examined and support the research. The fifth objective will be answered by reviewing and evaluating the preceding objectives and deliver a conclusion on the findings. Following appropriate methods, the objectives are discussed throughout each section of the paper. In order to provide a comprehensive research paper the initial second objective was excluded since it would extend the scope of this dissertation. The third objective is modified in a way that the [...]

Solar Energy Technology Handbook E. W. Dickinson,2018-05-04 The handbook, for convenient use, is divided into eight main units: (1) The Solar Resource; (2) Solar Thermal Collectors; (3) Photovoltaics; (4) Bioconversion; (5) Wind Energy; (6) Solar Energy Storage Systems; (7) Applications of Solar Energy; (8) Non-technical Issues. In addition there are three Appendixes containing unit-conversion tables and useful solar data. It became obvious early in this project that if proper coverage were to be given each of these areas it would be necessary to divide the handbook into two volumes. The first six units constitute Part A, Engineering

Fundamentals and the last two units constitute Part B, Applications, Systems Design, and Economics. These volumes have been prepared primarily as reference books, but it is felt that many of the sections will prove useful for practicing engineers, scientists and students.

Reeds Nautical Almanac 2022 Bloomsbury Publishing,2021-08-19 Reeds Nautical Almanac is the indispensable trusted annual compendium of navigational data for yachtsmen and motorboaters, and provides all the information required to navigate Atlantic coastal waters around the whole of the UK, Ireland, Channel Islands and the entire European coastline from the tip of Denmark right down to Gibraltar, Northern Morocco, the Azores and Madeira. The 2022 edition is updated throughout, containing over 45,000 changes, and includes: 700 harbour chartlets; tide tables and tidal streams; buoyage and lights; 7,500 waypoints; invaluable passage notes; distance tables; radio, weather and safety information; first aid section. Also: a free Marina Guide. Also available: free supplements of up-to-date navigation changes from January to June at: www.reedsnauticalalmanac.co.uk

La Malinche in Mexican Literature Sandra Messinger Cypess,2010-07-05 Of all the historical characters known from the time of the Spanish conquest of the New World, none has proved more pervasive or controversial than that of the Indian interpreter, guide, mistress, and confidante of Hernán Cortés, Doña Marina—La Malinche—Malintzin. The mother of Cortés's son, she becomes not only the mother of the mestizo but also the Mexican Eve, the symbol of national betrayal. Very little documented evidence is available about Doña Marina. This is the first serious study tracing La Malinche in texts from the conquest period to the present day. It is also the first study to delineate the transformation of this historical figure into a literary sign with multiple manifestations. Cypess includes such seldom analyzed texts as Ireneo Paz's Amor y suplicio and Doña Marina, as well as new readings of well-known texts like Octavio Paz's El laberinto de la soledad. Using a feminist perspective, she convincingly demonstrates how the literary depiction and presentation of La Malinche is tied to the political agenda of the moment. She also shows how the symbol of La Malinche has changed over time through the impact of sociopolitical events on the literary expression.
