Stories of Useful Inventions Samuel Eagle Forman,1913

The Inventor in You Charles Kannankeril,2018-04-26 Charles Kannankeril, an inventor with seventy patents, draws on his years of experience in creating innovative and useful products to help you bring your own ideas to life. Whenever someone says, I wish there were a better way to do this, then you have an opportunity for an invention. All you need to do is identify a solution, make it a reality, and then promote your method. The more you cultivate these abilities, the better you'll become at inventing. With this guide to inventing, you'll learn how to: identify areas where an invention could solve a problem; develop the mindset, motivation, and determination to develop inventions; navigate cost factors in the invention process; and improve upon inventions that already exist. Kannankeril also emphasizes how important it is to believe you have what it takes to solve problems. Many inventors make great contributions simply by modifying objects that they handle every day to their liking. Filled with stories from the author's own experiences as an inventor, this practical and entertaining guide to inventing explores how an inventor's mind works and how to find The Inventor in You.

Inventors and Inventions Joanna Brundle,2021-07-15 We live in an incredible world full of incredible inventions, and we often can't remember a time before they existed. But behind every invention is an inventor—and a story! In this intriguing volume, readers will learn more about inventions, from appliances such as microwave ovens to foods such as cornflakes, and to things as widespread today as the internet. They'll also learn about the people who created these things, often on purpose—but sometimes by accident!

The Toy & Game Inventor's Guide Gregory J. Battersby,Charles W. Grimes,1996 Provides details about the state of the industry, explains how a new product is developed, and outlines the steps necessary to protect an idea, present a concept, and negotiate a deal.

The Age of Invention Mary Kaltenberg,2021 This paper overviews the data collection procedures and resulting data for inventor ages and associated death dates. We use information about inventors from patents (name and location) and search for age and date of death information from publicly available online web directories and build a scoring system to indicate the quality of information that we collect. After applying a variety of heuristics and robustness checks, we are confident of 1,508,676 inventor ages associated with patents granted between 1976 and 2018. We also find the death dates of 206,589 inventors, though we are not as confident of the accuracy of the death information. The datasets and associated replication files are freely available at: <https://doi.org/10.7910/DVN/YRLSKU>.

The Man Who Invented the Game of Basketball Edwin Brit Wyckoff,2013-07-01 Dr. James Naismith was a Canadian-American sports coach and innovator. He invented the sport of basketball in 1891 and is often credited with introducing the first football helmet. He wrote the original basketball rulebook, founded the University of Kansas basketball program, and lived to see basketball adopted as an Olympic demonstration sport in 1904 and as an official event at the 1936 Summer Olympics in Berlin, as well as the birth of both the National Invitation Tournament (1938) and the NCAA Men's Division I Basketball Championship (1939).
