Rescue your child from math phobia — by playing games! You'll love these math games because they give your child a sturdy foundation for understanding multiplication and fractions. Help your child master the times tables and build mental math skills. Play with advanced concepts such as division, fractions, decimals, and multi-step calculations. Multiplication & Fractions features 25 kid-tested games, offering a variety of challenges for upper-elementary and middle school students. Chapters include: • Mathematical Models: Learn to picture multiplication and fractions in a way that supports your child's comprehension. • Conquer the Times Tables: Enjoy practicing the math facts until correct answers become automatic. • Mixed Operations: Give mental muscles a workout with games that require number skills and logical thinking. • Fractions and Decimals: Master equivalent fractions, work with decimal place value, and multiply fractions and decimal numbers. Math games prevent math anxiety. Games pump up your child's mental muscle, reduce the fear of failure, and generate a positive attitude toward mathematics. Parents can use these games to enjoy quality time with your

children. Classroom teachers like them as warm-ups and learning center activities or for a relaxing review day at the end of a term. If you are a tutor or homeschooler, make games a regular feature in your lesson plans to build your students' math skills. So what are you waiting for? Clear off a table, grab a deck of cards, and let's play some math!

Fun-Schooling Math Mysteries - Add, Subtract, Multiply, Divide Sarah Hobbs,Sarah Brown,2016-10-03 Do you remember playing the game Mad-Libs as a child? You would add your own words to create a funny story. In the process you learned a lot about grammar and spelling! This Fun-Schooling activity book allows your child to create silly stories and mysteries while using numbers and math! Your student will practice addition, subtraction, multiplication, division and learn about fractions through these playful games! Not only will the student practice applying math to the funny situations and stories in this book, but he or she will learn how to use math in real life. This is not an ordinary math book. This is a math book that

will appeal to artistic, creative, and adventurous children. You will have fun listening to your child's math mysteries and laughing at the results. Did you know that children learn best when learning includes creativity and laughter? Stop buying books like Math Made Miserable and Numbing Numbers! Discover the joy of teaching your child the basics of learning how to calculate through this exciting activity book! You will need to give your child a calculator to check his or her work. They will love checking their own work, with a little help from you. Since the children get to create their own math mysteries, the answers are not going to be the same for every student. Since every child is unique you should choose a math book that reflects your child's individuality, talents and gifts! Who ever heard of mixing math with creativity? Learning how to add, subtract, multiply and divide is about to turn in to a game! On Sale! Normal price \$19.50!

Multiplying Fractions Remedia Publications, 2021-12-30
Grade Level: 3-6 CCSS Level: 4-6 Making fractions make sense! This 23-lesson learning unit is packed with hundreds of sequential fraction activities featuring both computation and word problems. As the third book in a series – following Adding Fractions and Subtracting Fractions – these exercises are designed to build upon what students have already learned. From “writing reciprocals of fractions, whole numbers, and mixed numbers,” to “multiplying a proper fraction by a proper fraction,” and on to “using a banana bread recipe to multiply fractions,” the activities in this book progress from learning basic concepts to mastering an understanding of how to multiply fractions. A Post Test and Answer Key are included.
