

Mayan Countdown

Colin Andrews, Dr. Synthia Andrews, ND

Mayan Countdown 2012 William Clyde Beadles,2012-05-01 The Mayan Calendar's End Date-winter solstice, December 21, 2012-is two short weeks away. Y2K has come and gone-but has it? Could everyone have been using the wrong calendar?

End Times to 2019 David Montaigne,2013-01-09 Does the end of the Mayan Calendar start the countdown to Judgment Day? Biblical and historical researcher David Montaigne concludes that this is the case. He says that the end of the Mayan Long Count is the official start of the Bible's seven-year tribulation-both were focused on the same astronomical events that occur from 2012 to 2019. The world as we know it will be gone by 2020. Texts from ancient India tell us about great cycles of destruction. The Egyptians told the same basic story with different names. The Maya reveal another version of the story, and were very clear about the timing of events from December 2012 to 2019. Your average American is no expert on these cultures, but most people do have a Bible at home-and the clearest details on what is about to happen can be found in the Bible, if you don't let someone else tell you which parts you should focus on. No, this isn't what you were taught in Sunday school. Religious leaders guide us between the raindrops of curious comments in the Bible. We are discouraged from focusing on the parts they say we weren't meant to understand. But if we stop glossing over these important passages we will understand a flood of details about the End Times. Our "leaders" are not ignorant of these events. The elite already know what is about to happen and they have made preparations most rational people would not believe, because evidence is suppressed to avoid chaos. They want us to remain ignorant, or at least to believe that the details are secrets that cannot be known. But the coming events (and their timing) are not secrets. Years ago, this book's publication would not have been tolerated by those in power. But by now it doesn't matter much-their plans are not going to be interfered with at this point. Your plans, however, can still be formulated, if you make the choice to understand. Topics include: Bible Prophecy; Matthew 24:36- Knowing the hour and the day; The Mayan Calendar and Mythology; Pole Shifts; Galactic Superwaves; Ancient Egypt; Ancient India; World Mythology; The Georgia Guidestones; The real Star of Bethlehem and the exact birthday of Christ; Calculating the Second Coming, and Judgment Day; more.

101 Things You Should Know about 2012 Mark Heley,2010-12-18 On December 21, 2012, millions of people will watch the skies, holding their breaths. On that day, ancient Mayan prophecies foretell a profound change on Planet Earth. Some think it heralds the extinction of all life. Others believe humans will be lifted to a higher spiritual plane. Mayan expert Mark Heley covers such diverse topics as stellar convergences, crop circles, and the strange predictions by a mysterious civilization eleven centuries ago--prophecies that could determine our future! Among scores of contending theories, this easy-to-grasp guide cuts through the thicket of information and gives you a quick take on 2012.

The World Cataclysm in 2012 Patrick Geryl,2005 Discusses the Mayan calendar and the fact that it is generally interpreted to end in 2012.

The Mayan and Other Ancient Calendars Geoff Stray,2007-11-06 The only small, popular book on the important subject of ancient calendars. The study of heavenly cycles is common to most ancient cultures. The ancient Egyptians, Chinese, and Babylonians all tried to make sense of the year. But it fell to the later Mesoamerican Maya to create a series of calendars that could be cross referenced. In doing so, the Maya discovered many strange numerical harmonics. Their lunar calendar was extremely accurate-far more so than the Greek Metonic cycle; they tracked Venus to an accuracy of less than a day in five hundred years and their tables could have been used to predict eclipses seven hundred years in the future. This book will provide a much needed compact guide to the Mayan calendar systems as well as covering the essentials of calendar development throughout the world.

The Mayans Developed a Calendar, Mathematics and Astronomy | Mayan History Books Grade 4 | Children's Ancient History Baby Professor,2020-12-31 Did you know that before Aristotle and Galileo there were the Mayans? The Mayans were an ancient civilization that once lived in Mexico. They were intelligent people who developed their own calendar and studied math as well as astronomy. Develop an appreciation for this ancient civilization by reading all about them. Go ahead and grab a copy today!

The Order of Days David Stuart,2012-11-27 The world's foremost expert on Maya culture looks at 2012 hysteria and explains the truth about what the Maya meant and what we want to believe. *Apocalypse 2012: An Investigation into Civilizations End. The World Cataclysm in 2012. 2012: The return of Quetzalcoatl.* According to many of these alarmingly titled books, the ancient Maya not only had a keen insight into the mystical workings of our planet and the cosmos, but they were also able to predict that the world will end in the year 2012. David Stuart, the foremost scholar of the Maya and recipient of numerous awards for his work, takes a hard look at the frenzy over 2012 and offers a fascination (and accurate) trip through Mayan culture and belief. Stuart shows how the idea that the end of the Mayan calendar, which supposedly heralds the end of our own existence, says far more about our culture than about the ancient Maya. *The Order of Days* explores how the real intellectual achievement of ancient Maya timekeeping and worldview is far more impressive and remarkable than any of the popular, and often outrageous, claims about this advanced civilization. As someone who has studied the Maya for nearly all of his life and who specializes in reading their ancient texts, Stuart sees the 2012 hubbub as the most recent in a long chain of related ideas about Mesoamericans, the

Maya in particular, that depicts them as somehow oddball, not of this world, or as having some strong mystical link to other realms. Because the year 2012 has no prominent role in anything the ancient Maya ever actually wrote, Stuart takes a wider look at the Maya concepts of time and their underlying philosophy as we can best understand them. The ancient Maya, Stuart contends, were worthy of study and admiration not because they were strange but because they were altogether human, and they developed a compelling vision of time unlike any other civilization before or since.

The Rapture 2028: America's Countdown to Apocalypse! David Netherton, 2015-01-02 A Shocking Bible Discovery found in the Dead Sea Scrolls! After forty years of research in the Biblical text, this book came about while studying Biblical manuscripts in their original Greek. I was given a project by my Greek professor to research the Dead Sea Scrolls. This research changed my life, my belief about time and the books of the Bible. While researching the Dead Sea Scrolls, I found two historical books that were in the Bible during Jesus time on this Earth. So I ask this question: Why did man remove these books? The deeper I studied I discovered that our Bible should have seventy books instead of sixty-six. Six is the number of man and a number representing incompleteness. Sixty-six doubles its meaning, and the number 666 needs no explanations. "Men do resist God's will today" (2 Peter 3:9). While researching the subject I encountered extreme opposition. The books of the Bible should be divisible by seven. So, we are missing one New Testament book and three Old Testament books to make a seventy book Bible. Have we been deceived by our religious leaders and science community? Does all time truly consist in a 7,007-year window? This book is written from the complete seventy-book Bible which was revealed in the Dead Sea Scrolls. Do the scrolls reveal angels mating with the daughters of Adam? Where did the giant human originate? Have we all been lied to about Genesis 6 and the events during the days of Noah? Are angels and demons masquerading as aliens and UFOs in a great end of time deception? Will the dollar collapse by 2022? Will the U.S. be destroyed in one day by 2028? "However, when He, the Spirit of truth, has come, He will guide you into all truth; for He will not speak on His own authority, but whatever He hears He will speak; and He will tell you things to come," (John 16:13-14).

Mayan Calendar Prophecies: Predictions for 2012-2052 Gary C. Daniels, 2012-11-01 Take a look at the science behind the Mayan calendar, prophecies and mythology. The Maya believed multiple cycles governed civilization. They created various calendars to track these cycles. Their short count calendar tracked a 256-year cycle believed to control epidemics, famines, warfare and more. Scientists have found a 250-year solar cycle that also appears to affect epidemics, famines, warfare and more. Their long count calendar tracked a 5000-year cycle related to natural disasters and cosmic catastrophes. Scientists have also discovered that the Earth is subjected to periodic bombardment by comets and asteroids that plunges the world into long periods of darkness and cold. Mayan mythology appears to record such events and in some instances even the exact dates on which these catastrophes occurred in the past. By comparing these dates with ice core records, sedimentary records, and climate records, this book reveals the truth about civilization's darkest days. And what may lie ahead in the future.

Time and the Highland Maya Barbara Tedlock, 1992 Described as a landmark in the ethnographic study of the Maya, this study of ritual and cosmology among the contemporary Quiché Indians of highland Guatemala has now been updated to address changes that have occurred in the last decade. The Classic Mayan obsession with time has never been better known. Here, Barbara Tedlock redirects our attention to the present-day keepers of the ancient calendar. Combining anthropology with formal apprenticeship to a diviner, she refutes long-held ethnographic assumptions and opens a door to the order of the Mayan

cosmos and its daily ritual. Unable to visit the region for over ten years, Tedlock returned in 1989 to find that observance of the traditional calendar and religion is stronger than ever, despite a brutal civil war. . . . a well-written, highly readable, and deeply convincing contribution. . . . --Michael Coe

The Baby Name Countdown Janet Schwegel, 2009-03-25 A classic, the baby name countdown (over 120,000 copies sold) is now fully revised and updated for the first time in a decade. The Complete Idiot's Guide to 2012 Colin Andrews, Dr. Synthia Andrews, ND, 2008-10-07 The final countdown! On December 21, 2012, the Mayan calendar will complete its thirteenth cycle. According to the Mayan belief system, the world will end. And if you don't believe the Mayans, you can check in with The Bible Code, The Nostradamus Code, or The Orion Prophecy, all of which predict planet-wide doom. Then again, maybe the year 2012 is just a new opportunity. Could 2012 bring us good things instead of bad? This book gives readers a look at what the Mayan prophecy is all about, what it means to them, and much more. - Addresses Mayan predictions about global warming and climate change - Includes a glossary of terms and symbols, resources for a changing world, and exercises to assist the reader in their journey - The existence of almost 600,000 websites on 2012 indicates a huge fascination with this subject

Maya Calendar Origins Prudence M. Rice, 2009-02-17 In *Maya Political Science: Time, Astronomy, and the Cosmos*, Prudence M. Rice proposed a new model of Maya political organization in which geopolitical seats of power rotated according to a 256-year calendar cycle known as the May. This fundamental connection between timekeeping and Maya political organization sparked Rice's interest in the origins of the two major calendars used by the ancient lowland Maya, one 260 days long, and the other having 365 days. In *Maya Calendar Origins*, she presents a provocative new thesis about the origins and development of the calendrical system. Integrating data from anthropology, archaeology, art history, astronomy, ethnohistory, myth, and linguistics, Rice argues that the Maya calendars developed about a millennium earlier than commonly thought, around 1200 BC, as an outgrowth of observations of the natural phenomena that scheduled the movements of late Archaic hunter-gatherer-collectors throughout what became Mesoamerica. She asserts that an understanding of the cycles of weather and celestial movements became the basis of power for early rulers, who could thereby claim control over supernatural cosmic forces. Rice shows how time became materialized—transformed into status objects such as monuments that encoded calendrical or temporal concerns—as well as politicized, becoming the foundation for societal order, political legitimization, and wealth. Rice's research also sheds new light on the origins of the Popol Vuh, which, Rice believes, encodes the history of the development of the Mesoamerican calendars. She also explores the connections between the Maya and early Olmec and Izapan cultures in the Isthmian region, who shared with the Maya the cosmovision and ideology incorporated into the calendrical systems.

Science of Spirit Robert Donald Tonelli, 2011-01-17 Beyond the Secret... Beyond the Power of Now... is the Science of Spirit...a Deeper look at life. Why are we here alive on planet earth trapped in a life of 9 to 5 wage slavery? Science of Spirit: Lost Keys to the Kingdom of Heaven on Earth shows that all life on

planet earth and in the universe is based on an evolution of consciousness from the beginning of time the Big Bang. It clarifies the connectedness of all life with Science and to Spirit through the understanding of world-old Hermetic Teachings in a balance of Reason and Faith. Consciousness is the very fabric that all form is made out of and is the ground of all beingness of life. Consciousness and the energy that makes up matter are inextricably combined or linked, emerging in a sequence of events called occasions of experience that ultimately create our experiences in life and our reality. The universe isn't made of things or particles. It's a process. It's made up of events. The result of this evolution of consciousness is an Analogical Awareness of life living in the now moment of unlimited potentials for the growth of a new super-conscious species of humanity moving through an Omega Point in time between 2011-- 2013. These Hermetic Teachings were clarified for me through the teaching of Ramtha and his Ancient Gnostic School much of what I have learned in 20 years my philosophy of life has its foundation in Ramtha's philosophy. Our accelerating consciousness is moving to a quantum existence of Spirit-in-Mass. God Man realized alive with all the lower species of life specifically the Sheeple of Economic Western Society. The Science of Spirit is based on my personal experience... my research... and my understanding of the ancient philosophy that this work comes from... It uses from research the philosophy and experience of other very credible people that have studied different aspects of a Science of Spirit as a philosophy to live by... I use this eclectic approach to build an accurate model of reality based in consciousness that allows us to create our own reality once we rid ourselves of the illusions of society. This approach gives credibility to my overall viewpoint a modern interpretation of a very old philosophy and way of life... A Science of Spirit that is inherent in Mother Nature... It goes in-depth about understanding What Consciousness Is! - An Analogical State of Awareness that is continuously evolving faster and faster to the eternal Now Moment. It uses the discovery of a new perspective of the Mayan Calendar that is supposed to end in a religious Apocalypse at The Omega Point in time around 2012 as its foundational understanding of an Evolution of Consciousness on earth. This philosophy and research show an Evolution of Consciousness a rising of an Analogical Awareness of life revealing a Science to the nature of Spirit. It explains from a new perspective, this battle between the Forces of Good and Evil at The End of Time. This Ancient Science of Spirit philosophy explains how the primeval forces of life [Spirit] that are inherent in Mother Earth growing for 16.4 billion years are pitted against the dogmatic, stagnant, god-fearing personalities, that runs the Engines of Commerce of our Global Society with their focus on monetary control of the people and the planet. This is a real life battle between evolving evolutionary beings against the Anti-Christ Social Consciousness of The Multi-National Corporations. Religious dogmas talk about an Apocalypse at the end of time to help warn us of our impending doom the remarkable thing is that the word Apocalypse means the lifting of a veil or a disclosure to certain privileged persons of something hidden from the majority of humankind. I will show in this book that the lifting of a veil is a rising of consciousness that knows no fear of the unknown and clarifies ancient predictions of the end days and the real battle of Armageddon. This ancient Science

Random Obsessions Nick Belardes, 2009-08-04 A treasure trove of startling, funny and stranger-than-fiction trivia that spans history, continents and even worlds. Teeming with the strange, the shocking and the downright fantastic, this is truly a collection of trivia that readers will not be able to live without.

A People's History of the Peculiar Nick Belardes, 2014-04-08 Did you know that Thomas Jefferson's grandson was an axe murderer? Do you delight knowing that some dinosaurs were as teeny tiny as hens? Wonder what it's like to live in Hell Town at the End of the World? How about an ailment so surreal it's named after Alice in Wonderland? In *A People's History of the Peculiar*, historian Nick Belardes has dug into the raw source material found in

historical archives, scientific studies, and libraries the world over to find facts, lists, definitions, and astonishing information guaranteed to provide readers with the best cocktail conversation topics for many years to come! Also found here are first-person interviews with people who can explain the unexplained, from the permanently puzzling Mothman conspiracy to secret Star Wars Jedi religious cults and the charmingly eccentric reason why British aerospace engineers sent teddy bears floating out into space. These real-world facts are outlandish enough to sharpen the brain and occupy readers' minds for hours of entertainment.

Ancient Maya Technology Charles Hofer, 2016-07-16 At their peak, the ancient Maya lived in one of the most advanced civilizations in the world. Their calendar system, celestial observations, and architecture give us clues to the greatness of their technology. This book introduces readers to the many unique technological devices and breakthroughs created by the ancient Maya. Readers will learn about the historical context of Maya technology through primary sources, such as artifacts and architectural ruins, and accessible, fact-filled text. Photographs of what the Maya left behind will give readers an in-depth look into the amazing creations of this ancient civilization.

Affect and Literature Alex Houen, 2020-02-06 Explores a wide range of affects, affect theory, and literature to consolidate a fresh understanding of literary affect.

Maya Civilization Charles George, Linda George, 2010-07-16 At its peak, the Maya civilization consisted of two million people populating over forty cities. While Europe languished in darkness after the fall of Rome, the Maya were advancing irrigation and terracing techniques in agriculture, pioneering the use of the zero in mathematics, and creating accurate astronomical tables. Yet, much about this great culture is unknown, as scholars struggle to decipher Mayan texts. This compelling volume examines the Maya civilization in accessible chapters with supplemental maps, timelines, and charts to support student research. Relevant topics discussed in this edition include the rise of the Mayans, the lives of the nobility and commoners during the classical period, achievements in science, engineering, and writing, the spirit realm and cosmology, and elements of Mayan culture in modernity.
