Susan Christopher, Corraine Conaway

Maze Crawler Susan Christopher, 2016-11-14 When Corraine Graham braves a dysfunctional foster care system to adopt Mark, a three year old boy with an abusive and neglectful past, she hopes that love, security, and the right kind of discipline will banish the nightmares that keep her new son howling through the night and rampaging through the day. As Mark grows from a disabled child, bullied by his peers, to an emotionally disturbed and defiant adolescent, and finally into a young man in trouble with the law, Corraine learns that even the best intentions are not enough. Based on true events, *Maze Crawler* is a riveting and emotional journey through the shadowy bureaucratic underground of the American foster care, educational, mental health and criminal justice systems. Told from the perspective of a mother who will do anything to help her son, *Maze Crawler* reveals the secrets of a system designed to fail those who need help the most.

Dungeon Crawler Carl Matt Dinniman, 2020-09-21 The apocalypse will be televised! A man. His ex-girlfriend's cat. A sadistic game show unlike anything in the universe: a dungeon crawl where survival depends on killing your prey in the most entertaining way possible. In a flash, every human-erected construction on Earth--from Buckingham Palace to the tiniest of sheds--collapses in a heap, sinking into the ground. The buildings and all the people inside have all been atomized and transformed into the dungeon: an 18-level labyrinth filled with traps, monsters, and loot. A dungeon so enormous, it circles the entire globe. Only a few dare venture inside. But once you're in, you can't get out. And what's worse, each level has a time limit. You have but days to find a staircase to the next level down, or it's game over. In this game, it's not about your strength or your dexterity. It's about your followers, your views. Your clout. It's about building an audience and killing those goblins with style. You can't just survive here. You gotta survive big. You gotta fight with vigor, with excitement. You gotta make them stand up and cheer. And if you do have that it factor, you may just find yourself with a following. That's the only way to truly survive in this game--with the help of the loot boxes dropped upon you by the generous benefactors watching from across the galaxy. They call it Dungeon Crawler World. But for Carl, it's anything but a game.

This book takes a single line of code—the extremely concise BASIC program for the Commodore 64 inscribed in the title—and uses it as a lens through which to consider the phenomenon of creative computing and the way computer programs exist in culture. The authors of this collaboratively written book treat code not as merely functional but as a text—in the case of *10 PRINT*, a text that appeared in many different printed sources—that yields a story about its making, its purpose, its assumptions, and more. They consider randomness and regularity in computing and art, the maze in culture, the popular BASIC programming language, and the highly influential Commodore 64 computer.
