**Diagnosis and Robust Control of Complex Building Central Chilling Systems for Enhanced Energy Performance** Dian-Ce Gao,2019-12-12 This book discusses enhancing the overall energy performance of building central air-conditioning systems through fault diagnosis and robust control strategies. Fault diagnosis strategies aim to determine the exact cause of problems and evaluate the energy impact on the system, while robust control strategies aim to manage chilled water systems to avoid the occurrence of low delta-T syndrome and deficit flow problems. Presenting the first academic study of the diagnostic method and control mechanism of “small temperature difference syndrome”, the book describes the highly robust and adaptive fault-tolerant control method developed to overcome the influences of external disturbance on the process control in practical applications. The diagnostic technology developed provides a predictive assessment of the energy dissipation effect of the fault. This book is a valuable reference resource for researchers and designers in the areas of building energy management and built environment control, as well as for senior undergraduate and graduate students.

An Egyptian Hieroglyphic Dictionary E. A. Wallis Budge,2013-01-01 An Egyptian Hieroglyphic Dictionary, a two volume set written by Egyptian expert E.A. Wallis Budge, is quite simply one of the most comprehensive and detailed dictionaries of Egyptian hieroglyphs with English to accompany it. The series includes a detailed Introduction by the author with key words and glyphs, a bibliography of works used to help with translation and research, glyphs organized alphabetically by the Egyptian alphabet with accompanying words and English translations, tables of hieroglyphs with phonetic and numeric values and accompanying translations, and an Index of both English and Egyptian words. Volume I includes the introduction, bibliography, a list of characters separated by subject and organized by table, and letters A through KH or KHA of hieroglyphs and translations. SIR ERNEST ALFRED THOMPSON WALLIS BUDGE (1857-1934) was born in Bodmin, Cornwall in the UK and discovered an interest in languages at a very early age. Budge spent all his free time learning and discovering Semitic languages, including Assyrian, Syriac, and Hebrew. Eventually, through a close contact, he was able to acquire a job working with Egyptian and Iraqi artifacts at the British Museum. Budge excavated and deciphered numerous cuneiform and hieroglyphic documents, contributing vastly to the museum's collection. Eventually, he became the Keeper of his department, specializing in Egyptology. Budge wrote many books during his lifetime, most specializing in Egyptian life, religion, and language.
