*New Myth, New World* Bernice Glatzer Rosenthal,2002 The Nazis' use and misuse of Nietzsche is well known. The Superman, the will to power, Nietzsche's equation of bourgeois democracy and decadence, and his denigration of reason were staples of Nazi propaganda. Communists also used

and misused Nietzsche, but that fact is largely unknown because Soviet propagandists invoked reason and labeled Nietzsche the philosopher of fascism, even while covertly appropriating his ideas. In this pioneering book, Bernice Glatzer Rosenthal excavates the trail of long-obscured Nietzschean ideas that took root in late Imperial Russia, intertwining with other elements in the culture to become a vital ingredient of Bolshevism and Stalinism. Nietzsche made a difference. He furnished intellectual ammunition for a prolonged conflict about culture, society, and politics that began around the turn of the century. His first Russian admirers were poets, philosophers, and political activists. They responded to the changes transforming their society by espousing new values and seeking a new faith by which to live and work. This response resulted in new aesthetic and political amalgams, such as Symbolism, Futurism, Nietzschean Christianity, and Nietzschean Marxism. The ensuing debates between and among their partisans reverberated throughout the wider culture and therefore also into Bolshevism, becoming the subject of an uninterrupted polemic between Bolsheviks and non-Bolsheviks, and among Bolsheviks, that continued into the 1930s. In Stalin's time, unacknowledged Nietzschean ideas were used to mobilize the masses for the great tasks of the first Five-Year Plan and the Cultural Revolution, which was intended to eradicate bourgeois values and attitudes from Soviet life and to construct a distinctly Socialist culture. Nietzsche's belief that people need illusions to shield them from reality underlay Socialist Realism, the official Soviet aesthetic from 1934 on. In the aftermath of de-Stalinization, the government cast Nietzsche as the personification of bourgeois nihilism and bourgeois individualism. Soviet intellectuals wishing to reappropriate their lost cultural heritage discovered the Nietzsche-influenced intellectuals of late Imperial Russia and reopened discussion on the issues they had posed. More than an exercise in historical rediscovery, *New Myth, New World* offers a new interpretation of modern Russian history. By uncovering the buried influence of Nietzschean ideas on Soviet culture and politics, Rosenthal opens new avenues for understanding Soviet ideology and its influence on the twentieth century.

**Phase Media** James Ash, 2017-12-14 In *Phase Media*, James Ash theorizes how smart objects, understood as Internet-connected and sensor-enabled devices, are altering users' experience of their environment. Rather than networks connected by lines of transmission, smart objects generate phases, understood as space-times that modulate the spatio-temporal intelligibility of both humans and non-humans. Examining a range of objects and services from the Apple Watch to Nest Cam to Uber, Ash suggests that the modulation of spatio-temporal intelligibility is partly shaped by the commercial logics of the industries that design and manufacture smart objects, but can also exceed them. Drawing upon the work of Martin Heidegger, Gilbert Simondon and Bruno Latour, Ash argues that smart objects have their own phase politics, which offer opportunities for new forms of public to emerge. *Phase Media* develops a conceptual vocabulary to contend that smart objects do more than just enabling a world of increased corporate control and surveillance, as they also provide the tools to expose and re-order the very logics and procedures that created them.

Prepare Your Heart for the Midnight Cry R. T. Kendall, 2016-11-17 This thrilling volume will help readers prepare their hearts in expectation, be

watchful for the approaching work of God, and build a deeper relationship with Him. Through Spirit-inspired teaching, respected scholar and theologian R. T. Kendall uses Jesus's parable of the ten virgins to describe the condition of the church in the last days. Many Charismatics and Pentecostals assume that what we have seen in the one hundred years since Azusa Street is the final movement of God before the Second Coming. Kendall explains that this is not so and reveals that a movement of the Holy Spirit, which is one hundred times greater than anything yet experienced – indeed the greatest since Pentecost – is about to unfold. It's time to wake up! 'A timely warning . . . written with passion and conviction' Ken Costa, Churchwarden, Holy Trinity Brompton, London 'R. T. Kendall rightly calls us to hope and work for the day when the Word and Spirit will come together—and what a revival that will be!' Dr. Craig Keener, Professor, New Testament History, Asbury Theological Seminary, USA
