Lifesaving Poems Anthony Wilson,2015 Inspired by a remark of Seamus Heaney, Lifesaving Poems began life as notebook, then a blog. How many poems, Heaney wondered, was it possible to recall responding to, over a lifetime? Was it ten, he asked, twenty, fifty, a hundred, or more? Lifesaving Poems is a way of trying to answer that question. Giving himself the constraint of choosing no more than one poem per poet, Anthony began copying poems out, one at a time, as it were for safekeeping. He asked himself: was the poem one he could recall being moved by the moment he first read it? And: could he live without it? Then he posted each poem on his blog and said why he liked it. Word spread and soon his blog had thousands of followers, everyone reading and responding to the poems he talked about - and sharing his posts. Now Lifesaving Poems has turned into an anthology, not one designed to be a perfect list of 'the great and the good', but a gathering of poems he happens to feel passionate about, according to his tastes. As Billy Collins says: 'Good poems are poems that I like'. Anthony's popular personal commentaries are included with the poems. There are Lifesaving Poems by John Ashbery, Elizabeth Bishop, Raymond Carver, Carol Ann Duffy, Thom Gunn, Seamus Heaney, Marie Howe, Jaan Kaplinski, Brendan Kennelly, Jane Kenyon, Galway Kinnell, Philip Levine, Norman MacCaig, Ian McMillan, Derek Mahon, Sharon Olds, Mary Oliver, Sylvia Plath, Adrienne Rich, Jo Shapcott, Tomas Tranströmer, Wisława Szymborska, and many, many others.

Re:Cyclists Michael Hutchinson,2017-03-23 'As if Bill Bryson had taken to two wheels' - FT Somewhere in a German forest 200 years ago, during the darkest, wettest summer for centuries, the story of cycling began. The calls to ban it were more or less immediate. Re:Cyclists is the tale of the following two centuries. It tells how cycling became a kinky vaudeville act for Parisians, how it was the basis of an American business empire to rival Henry Ford's, and how it found a unique home in the British Isles. The Victorian love of cycling started with penny-farthing riders, who explored lonely roads that had been left abandoned by the coming of the railways. Then high-society took to it - in the 1980s the glittering parties of the London Season featured bicycles dancing in the ballroom, and every member of the House of Lords rode a bike. Twentieth-century cycling was very different, and even more popular. It became the sport and the pastime of millions of ordinary people who wanted to escape the city smog, or to experience the excitement of a weekend's racing. Cycling offered adventure and independence in the good times, and consolation during the war years and the Great Depression. Re:Cyclists tells the story of cycling's glories and also of its despairs, of how it only just avoided extinction in the motoring boom of the 1960s. And finally, at the dawn of the 21st century, it celebrates how cycling rose again - a little different, a lot more fashionable, but still about the same simple pleasures that it always has been: the wind in your face and the thrill of two-wheeled freedom.

The Golden Age of Bicycle Racing in New Jersey Michael C. Gabriele,2011 The Nutley Velodrome will present a complete history of cycling in northern New Jersey, featuring the Nutley Velodrome, the site of the final chapter of the golden age of cycling in the United States. The book seeks to shed light on a lost history of professional cycling, which had been a major spectator sport during the early decades of the 20th century. As such, it examines the culture and noteworthy figures of this period in northern New Jersey. The story of the Nutley Velodrome is that it is the final chapter in cycling's golden era. It is, quite literally, where and when the golden age came to an end. It is a lost history, which is why the story needs to be told.

Cruisers Michael Ames,2009-05-01 CRUISERS offers and insider's look at the latest and greatest cruiser bicycle styles and designs, and provides tips on how people can trick out their own bikes to proclaim their individuality. It also tells the unique history and development of cruiser bikes, from their pre-World War II origins to the popular California beach bikes of the 1970s to today's retro-chic bikes. Without style, a bike is just a bike, a means of getting from here to there. With style, the bikes people ride become a defining stamp of who they are. The modern cruiser-with its oversized balloon tires, solid steel framing, shock-absorbing suspension, and custom colors and modifications-is a testament to individual style. So saddle up in the seat of a classic bike and rediscover the smooth rolling freedom.

Faster Michael Hutchinson,2014-03-27 For professional cyclists, going faster and winning are, of course, closely related. Yet surprisingly, for many, a desire to go faster is much more important than a desire to win. Someone who wants to go faster will work at the details and take small steps rather than focusing on winning. Winning just happens when you do everything right - it's the doing everything right that's hard. And that's what fascinates and obsesses Michael Hutchinson. With his usual deadpan delivery and an awareness that it's all mildly preposterous, Hutchinson looks at the things that make you faster - training, nutrition, the right psychology - and explains how they work, and how what we know about them changes all the time. He looks at the things that make you slower, and why, and how attempts to avoid them can result in serious athletes gradually painting themselves into the most peculiar life-style corners. Faster is a book about why cyclists do what they do, about what the riders, their coaches and the boffins get up to behind the scenes, and about why the whole idea of going faster is such an appealing, universal instinct for all of us.
